Benjamin Franklin said:

**"Economy Is the Art of Spending Wisely"**

The bargains on this page are real economy opportunities. Don't miss them.

## MAPLE AND ASH OAK AND ALDER

The Salem Wood Manufacturing Company is Pursuing Even Tenor of Way

The Salem Wood Manufacturing company is the outgrowth of the Oregon Wood Products company, whose plant in West Salem was destroyed by fire a couple of years ago. The men who own and operate the present factory are partly those who were connected with the company that owned the plant that was burned. H. E. Barrett, who was the moving spirit of the old company, is one of the managers of the present plant, and Walter T. Nelson and W. R. Adlard are among the stockholders, Mr. Nelson being the president of the new company.

### Doing Good Work

The plant of the Salem Wood Manufacturing company is located on River street between Front and North Commercial, in the northern part of Salem. The plant consists of a small sawmill and machinery for making various wood products needed by manufacturing concerns. They make the wooden plugs for the paper rolls of the paper mill, supplying largely the wants of this line of the Salem paper mill, for adding machine paper, wrapping paper, add other such papers. They make these in rather large quantities. The Salem Wood Manufacturing company about a year ago put in a couple of new machines, one a dowel machine and the other a toggle machine—making dowels for furniture manufacturers and toggles for tent makers.

### Do Custom Sawing

They use up a lot of ash, maple, oak and alder logs, and they send a good deal of this lumber to the furniture manufacturers of Portland and elsewhere, when their supply exceeds their own needs. They also do custom sawing of both soft and hard woods.

They find the supplies of oak, ash, maple and alder in the Salem district abundant, especially the first three. This makes one wonder why Salem does not secure a furniture factory.

## THE SALEM LUMBER CO. PLANT IS IDLE

Owners Expect to Run This Again Next Year; Has 30,000 Capacity

The Salem Lumber company has a saw mill with about 30,000 feet a day capacity just outside of the Salem city limits on the north, on Cherry street. It is owned by Duluth people, and A. A. Good is in charge.

This mill has been shut down for some time. It has a lot of lumber on hand, which is being sold, mostly to the local trade. They expect to run again next year.

## DINNER STORIES

A doctor was examining a man who had come to him for the first time. Satisfied at last, the doctor looked at him gravely. "You are in bad shape," he said. "What you need is a sea voyage. Can you manage it?"

"Oh, yes," replied the patient. "I'm second mate on the Anna Marie, just in from Hongkong."

Thomas was not a prime favorite with his rich uncle. In vain did he try to impress him, but the old man was not easily impressed.

One evening the young man went to his uncle's home for a call, and in the course of conversation asked:

"Uncle, don't you think it would be rather foolish for me to marry a girl who was intellectually my inferior?"

"Worse than foolish, Thomas," was the reply. "Worse than foolish—impossible."

To achieve elegance, madam ordered a pair of smart boots from an expensive shop. Some days after delivery she returned them.

"Your boots don't fit well. I can't walk in them."

"Madame," replied the dignified shopkeeper, "people who have to walk don't shop here."

## ECONOMY!

True economy is not always gained in the price of an article, but should be summed up by the quality and the service rendered to you. For instance, WEATHERLY Ice Cream is made of the purest of products in sanitary plants, and you are assured of a pleasant dish to eat, the vitamins are there for health and food value.

Serve Weatherly ice cream some way every day. You will find it real economy. Manufactured in Salem by
