

County News in Brief

Stayton

Sponsored by the women's community club of Stayton, the flower show held in the Masonic building on Tuesday afternoon, proved a decided success from several standpoints. Rev. Hay, pastor of the Christian church of this place, was awarded prizes on several of his exhibits. The judging was done by disinterested parties who were well versed in flower lore.

Floyd Shelton of Scio is cutting meat in the Gehlen Bros. meat market, while Ben Gehlen enjoys two weeks vacation. Mr. Gehlen plans to spend the first week cutting meat in an up-to-date market, where he will learn all he can of the business in that line, and the rest of the vacation will be spent motoring over Oregon's highways. Mrs. Gehlen will accompany her husband during the last week.

J. F. Mack has leased his third street barber shop to a man from Mouth and the new man has taken possession. Mr. Mack and family expect to move to Salem in the near future where there will be more advantages for their children who have unusual musical talent. Mrs. Mack will continue her millinery establishment here, and will also open a shop in Salem when she will conduct a school for millinery and dress-making. Mr. and Mrs. Mack spent a couple of days in Portland first of the week while looking after business.

The young son of Mr. and Mrs. John Thomas came near being drowned in the log pond at the sawmill Wednesday morning. The youngster was playing about the mill office where his father was busy, when he wandered out to the pond, and in some manner fell into the water. The father heard his call, but paid no attention at first, but when his cries were repeated. Mr. Thomas went out and found the child struggling in the water nearly 5 feet from the shore.

Chas. E. Brown whose death occurred in a Salem hospital Tuesday, was 58 years of age and has been a resident of Stayton since his early manhood. For a number of years he was associated with his father, in the sawmill business here, later being one of the firm of the Brown-Peterson Lumber Company. For the past two years he has owned and operated the Crescent Bath and Mattress factory here, and was a man who held the respect of all who knew him. Surviving him are his wife, two sons and a little daughter. Two brothers, J. E. Brown of Portland, George L. Brown of Klamath Falls and one sister, Mrs. Dora Harden of near Eugene.

The school bell sounded the knell of vacation days Monday. When school opened for another school year. The first day attendance was good, considering that many of the pupils are still away in the hop fields. A full corps of teachers was on hand, with Prof. O. V. White at the helm again, which assures the success of another year's work.

Mr. and Mrs. Chas. Hall motored to Roseburg Sunday where they took dinner and returned home in the evening. They were accompanied on the trip by the Coppers, who found the drive a delightful one. The party made a short stop at the Boswell mineral springs, and also at Camp View.

Alva Davis, who has had employment in a hop yard here, has returned home Thursday in company with his friends, and is expected to leave Stayton this week for Hood River, where he will be employed in the orchestra of that section.

Max Benz had the end of the fore finger on his left hand cut off by the lifting jack in a saw mill the last of the week, while at work in the mill. The injured hand will keep him off duty for a few days.

Joe Hendicks will soon have the new residence he is building on his farm 2 miles west of town, ready for occupancy, which when completed will give them a comfortable farm home.

Mr. and Mrs. Walter Miller, owners of the Bon Ton confectionary store left Monday for Pendleton where they will see the round up. They plan to be away some time, and will visit other eastern Oregon points while away.

Mrs. Jay Kelley and her small son were here from their farm home near Scio over the week end, being guests at the home of Mrs. Kelley's aunt, Mrs. William Crabtree.

County Judge J. T. Hunt, in company with U. G. Boyer county clerk were looking after business matters in this end of the county on Friday of last week.

West Smith of Turner was a recent visitor in Stayton, driving over one day last week with E. W. Swallow.

Oak Ridge

Mrs. Nazar who has had a display of Eddie coats, dresses and hats at Wood's hotel the past week has returned to Portland.

Mr. and Mrs. Norvel Springer and daughter Naretta spent several days last week calling on friends in Bend. They made the trip by auto over the Willamette Pass.

The schools opened here Monday, September 14. The grade school is in charge of Professor Matthews, Mrs. Kimball and Mrs. Cook. The high school is being taught by Professor Haydin.

Eddwert and Ray Russell spent Monday in Eugene. Mr. and Mrs. Madarus of Keiser, Wash., are visiting at the Jack Wright residence. Mr. Madarus is a brother of Mrs. Wright. Dr. Thompson and wife are visiting relatives in Gresham and The Dalles.

Mr. and Mrs. E. E. Smith, La Verne Terrell and Lillian Jaquet motored to Crescent Lake, Sunday. The Ladies of the Aid society cleaned the school houses Saturday. The sum realized from this will be used in paying interest on a note that is being paid off.

A special train arrived Monday with Southern Pacific officials going to the end of the road. The object was to view the construction work and estimate its time of completion, which is expected some time next summer.

Rev. Franz, and family from Dallas who is the new pastor at the Memorial church here, will occupy the Memorial parsonage. They will move some time this week.

Rev. Owen J. Beedles preached his farewell sermon last Sunday and left for Portland Monday from where he left Tuesday for Tacoma where he will be pastor of Grace church. A farewell social was given in his honor at the church last Friday evening.

Andy Cone finished picking hops today. Frazier & Wolf are filling silos in this neighborhood. Mrs. Margaret Staiger and two children from Portland were visiting here last Sunday.

Mrs. H. de Vries is spending a week in Portland at the homes of her daughters. Mr. and Mrs. F. Fisher from Portland were Sunday visitors here.

Prof. Matthews of Willamette university is expected to preach here next Sunday. Wm. de Vries and family left for Newport Wednesday. They expect to be back by Sunday.

Little Hazel Magee who injured her eye is reported as doing as well as nicely.

Mr. and Mrs. O. Freslie spent the week-end in Portland. Work has started on the electric line which is to furnish lights for 74 subscribers.

Frank Harris of Mill City visited relatives here Saturday, and went on to Pendleton Sunday to attend the round up. The fifth annual reunion of the Magee family and their friends was held at the M. M. Magee home Sunday.

Mrs. W. Bowman and children of near Jefferson is visiting her sister Mrs. T. Fitzpatrick. Mr. Loganbill was a Salem visitor Wednesday.

Mr. Bertha Carlson of Aumsville and Mrs. Susan Coplinger of Salem called on old friends here Sunday.

Lloyd Lee of Auburn was a business visitor in our community Wednesday.

Silverton

SILVERTON, Ore., Sept. 18.—(Special).—The Parent-Teacher association of Silverton will begin its winter work on October 1, at which time the first meeting of the season will be held. The executive committee has met a few times this fall to outline plans for the season's work. Mrs. John Hoblitt, the new president, has appointed a number of committees among which the following two are of prime importance: Welfare, Mrs. Leroy Lemmon, Mrs. M. C. Woodard, Mrs. Russell Scott, Mrs. John Elder, Miss Catherine Woodard, and Mrs. E. E. Kinsinger; and a committee on the school building, Mrs. A. Titus, Mrs. E. K. Hutchens.

One Mrs. area 67, died at the Silverton hospital Thursday night. Funeral arrangements have not yet been completed, although it is understood that a service will be held at Trinity church following which the body will be sent to Minnesota. Mr. Foss has been a resident of Silverton for the past seven years. His only relative at Silverton is his sister, Mrs. C. E. Silverton, who will open Monday, Sept. 21, but due to the fact that the new wing of the Eugene Field building is not completed the grades will hold half day sessions for about two weeks. School authorities announce that all children who will be six years of age on or before November 1, will be admitted at the beginning of the session. No beginners will be admitted after four weeks.

Mrs. Robert E. Goetz has been chosen librarian and will be at the library from 8:30 until 4:30 on all school days. Mrs. Paul Jacket and Mrs. Martin Tokstad have returned from Portland where they were called by the death of their father, J. A. Shanador. Mr. Shanador for a number of years made his home at Silverton in the Silverton hills. For the past two years Mr. and Mrs. Shanador have been living at Leuts. Mr. Shanador died Friday after an illness of several months. Interment was made in the Mount Scott cemetery.

Mrs. Anna Finseth is spending a few days at the home of her sister, Mrs. M. G. Gunderson. Mrs. Finseth, whose home is at Dallas, will remain at Silverton until the Gundersons return from Pendleton where they went to attend the round-up.

Miss Alice Jensen and Ruben Jensen, who have been spending the past week at Canon beach, returned to their home Wednesday evening.

Mr. and Mrs. John Kuberness attended the creamery convention at Portland this week. Mr. Kuberness returned to Silverton Wednesday night but Mrs. Kuberness will remain for a few days' visit.

There will be on display at the state fair, in two places, the Humphrey dispenser. They will be operated with loganberry juice. This is a most ingenious device for mixing cold drinks, which are carbonated and then displayed in a most attractive manner. H. S. Gile, in his visit east last summer, watched the operation of the devices at Cleveland, Ohio, in the parks; some of them dispensing loganberry juice very much thinned with water. These devices made for the company owning and operating them a quarter of a million dollars clear the past summer; in about 13 weeks. There are seven patents. The inventor was Mr. Humphrey of Cleveland, who died a few years ago. His heirs are making and operating the devices now. There is nothing that can compare with these devices in dispensing any kind of a soft drink—and there is nothing as good as loganberry juice to use in them. It looks like a solution of the proper way to dispose of our surplus loganberry juice. Mr. Gile has the two dispensers ready for use now. But you will want to see them at the state fair. Words cannot adequately describe them. They must be seen to be appreciated.

Suburban home for sale or trade for Salem property. Located five miles north of Salem on Pacific highway. 2 1/4 acres, about 40 young fruit trees, 22 walnut trees, 3/4 acre strawberries. House has seven rooms, large sleeping porch, fireplace, furnace, numerous built-ins, water system, bath, two toilets. Will sell on easy terms or trade for Salem property. WHAT HAVE YOU? See RALPH H. WATKINS AT THE STATESMAN OFFICE

BUTCHER WRECKED; OTHERS PILED UP

When it rains, according to an old adage, it pours. Friday, after the rain in the early morning, Pete Ryles, butcher at Steusloff Bros., was driving along in front of the Kietzing place at the Chemawa four corners on his way to Portland with his wife. He applied the brakes on his car, and due to the slippery pavement, skidded into the ditch at the right hand side of the road. The car turned over, but neither of the two occupants were injured.

A few minutes after, a Willys Knight drove along, and the driver applied his brakes with the intention of stopping to view the wreck. But the car refused to stop at the point intended, and skidded into the ditch beside the wreck. Not long after this a Ford sedan made its appearance, and the driver decided to stop to view the wreck. He turned the car over to the other side of the road, skidded, and smashed into a fence post, breaking one of the rear wheels.

Mr. and Mrs. Ryles Escape Injuries When Car Capsizes North of City

Every week end sees processions of automobiles with full picnic hampers whizzing off to the country, loaded with jolly carefree people, their faces expressing their anticipation of two or three happy days in the mountains or on the cool wooded shore of a lake.

The lunch, of course, fails to the women. If they are on the trip and plans in advance to make it just the nicest camping party ever planned are constantly before them, and too, they want everyone to be able to say on their return, "and we never had the same thing twice." It may sound like a fairy story to one who plans the meals, but it is really possible to bring your campers, family or otherwise, back from a six week's vacation with this remark on their lips.

Of course it takes careful planning, especially in the matter of leftovers, but even they can be used successfully if you buy wisely and plan carefully. Campers are too prone to depend upon the frying pan and serve a succession of fried bacon, steaks and chops. These are delicious and yet should be indulged in sparingly on account of the grease. To the girl Scout the kabob suggests an unrivaled treat. The simple form of kabob is a small piece of steak sufficient for one serving, on the end of a green stick, broiled over glowing coals and eaten with bread and butter. As one becomes more efficient, alternate bits of steak and bacon may be arranged on the green stick and broiled in the same way. To many, this is much easier than broiling the whole steak on a gridiron and cutting it in servings thereafter. The most elaborate form of kabob is arranged by alternating individual pieces of steak, thinly sliced onion, and thinly sliced potatoes along the stick. Of course, one has to be skillful to cook all these at the same time, yet it can be done.

Practically all of our Women's Magazines are printing excellent articles on camping suggestions together with menus and recipes for the entire stay, whether it is one or two weeks. I am going to give you a couple of dandy recipes I read in Good Housekeeping, possibly some of you didn't notice them or have loaned the magazine by now, just when you need it. Have you ever tried Cheesebobs, as the Camp Fire Girls call it?

General Markets | PORTLAND, Sept. 18.—Portland Dairy exchange: Butter, extras 52c; standards 51 1/2c; prime firsts 50c; firsts 47c. Eggs, extras 46c; firsts 43c; pullets 38c; current receipts 33c. Milling standards, September, October \$23; November \$22.

Speaking of the benefits of the hop industry, an employe of one of Salem's several big bakeries was asked yesterday if he was not pretty busy getting ready for the rush of state fair week. He replied that the biggest rush of the year was about over—the rush of the hop picking time. He said it was not uncommon for one yard, from one bakery, to require 1400 worth each day of bread, pies and cakes.

AUTO LUNCHES FOR THE WEEK-END TRIP

Since cheese melts when it is toasted, it is necessary to wrap each piece of cheese very carefully in each slice of bacon. Thrust the slender, pointed, green stick through the bacon in such a way that it will keep it from unwrapping. By the time the bacon is broiled, the cheese is delicately melted. It is a wise precaution to hold a piece of toast or bread in one hand during the cooking, to use as a plate if the bacon begins to drop its burden.

Koukie Stew never tastes better than when made on an open fire. Heat a frying pan and melt three tablespoonsful of butter in it. Add two medium-sized onions sliced thin, one green pepper washed, seeded, and chopped fine, and either six large fresh tomatoes or one can of tomatoes. When add one teaspoonful of salt or more, if necessary. Cover and stew slowly about one-half hour, stirring frequently. Just before serving add three eggs one by one, stirring them in. Serve immediately on toast or crackers.

Grilled Cheese Sandwiches are delightful when made in the open. Lay large, thin slices of cheese between two slices of buttered bread. Either toast these on the end of a green stick or a gridiron, or saute them in bacon fat in a saucepan. Those who take long hikes will be interested to know that if cheese is wrapped in a cloth moistened in vinegar, it will not mold so quickly.

WATCH YOUR WEIGHT

Scales may be faulty because the scale is out of balance and is too heavy on the scoop side; false weight may be given by attaching small lumps of iron or lead under the "pan" of the "poise" tray by light, thus registering more than is true; the weights may be worn or filed.

Dry Measure may be faulty because of "false bottoms" as in baskets, barrels and measures; they may have false sides so as to reduce the depth; they may be broken or dented or "short" as in berry boxes and peach baskets; or

Liquid Measures may be faulty because they have a "cupped" bottom, as in many bottles, oil cans, etc.; they may leak or be "short"; Linear Measures may be faulty because the yardstick is warped; the counter ticks wrongly placed or the tape measure shrunk.
