OWN YOUR OWN HOME!
The instinct for a home is as natural in humanity as the instinct to mate. A young couple beginning family life in their own home, secure at once a back ground, an anchorage.
Children brought up in their own home have the supreme advantage of a domestic sentiment that is one of the most valuable of spiritual possessions.
Without their own house, there is an inescapable sense of being transients, of having no firm foundation for family life.
We have several new bungalows, 4 rooms and breakfast nook, we will sell, just like rent.

CITY HEALTH OFFICER REPLIES TO CLEMENT

(Continued from page 1.)

wrong and that the laws were wrong. He even went so far as to say that it was my duty as health officer to take care of and treat all indigent cases.

"Again, let me state that the City of Salem does not have a city physician. The duties of the city health officer are those of a law enforcement officer in matters pertaining to the health of the city. And because I requested that these two doctors do their duty, both as a legal and moral obligation, one of them is attempting to make a personal grievance case of it.

"The entire proceedings were taken up with the state board of health following disposal of this case. Dr. Frederick Stricker, secretary of the state board of health, stated to me that full time health officers, those who are paid for their entire time, are supposed to be all quarantining, but part time health officers, as Salem has, could not possibly take care of such minor details and have any time to practice medicine. The doctors of Salem have cooperated wonderfully well in trying to keep down epidemics by immediately quarantining and reporting cases to me. One or two have shown no interest in the welfare of the public and have refused to cooperate in keeping down diseases.

"If all doctors turned their contagious cases loose, depending on passing the buck to someone else, we would never be free from epidemics. As it is, following the passage of the city ordinance above referred to, along with the voluntary cooperation of most of the doctors, our diphtheria epidemic fell off almost to no cases reported in a very short time.

"This shall be my report to the city council, and if necessary I will attempt to have Dr. Stricker present to tell in person what he has stated to me."

FAULTY GIRDER SAID CAUSE OF DISASTER

(Continued from page 1.)

day, while the court decided to meet again tomorrow its procedure is uncertain. It may examine much of the Shenandoah wreckage which arrived at the air station here today from Ohio.

Announcement was made during the day that the scene within the great hull of the Shenandoah would be reenacted for the court with the interior of the dirigible Los Angeles as the stage. This may take place tomorrow.

The survivors now here will take positions at the stations or places where they were just before the wreck and follow through the actions they took up to the time of the breaking up of the ship and later.

There was considerable more testimony today than on yesterday as to the gas pressure within the Shenandoah. Lieutenant Thomas B Hendley testified he was awakened by gas cells pressing down on his face. He expressed no opinion as to whether the gas cells were unduly inflated, but Lieutenant C. E. Bauch told the court that on the first ascent normal conditions of the gas cells above pressure height prevailed and that repeated examination of cells assured him that the gas pressure was not excessive.

It was on this ascent that gas was allowed to escape through the valves for five minutes.

Lieutenant R. G. Mayer testified that during this time the valves were blowing satisfactorily and that no great pressure on the cells was noticeable.

After the upward flight had been checked the ship began to drop like a plummet and it was then that Lieutenant Commander Lansdowne ordered water ballast thrown overboard and gave directions for men to stand by to slip the gasoline fuel tanks over the side if that should be necessary to check the downward drop.

Rockne Lauds Football Change Governing Kick

DETROIT.—Because the ball is to be kicked from the 40-yard line this season rather than from midfield, one of the greatest thrills in football, the return of the kick-off, will be more frequently experienced and the game will be a lot more fun for the fellows in the stands and for players as well, in the opinion of Knute K. Rockne, coach of the Notre Dame eleven, writing in The American Boy.

A major result of the decision of the football rules committee, in starting the kick-off from the 40-yard line without the tee, will be that teams will develop a strong kick-off return, said Mr. Rockne. He believes this play will take a big part in the 1925 campaigns. He will devote much time in drilling his team in the return of the kick-off.

Coach Rockne declares the recommendation of the rules committee that high school games be played in four 12-minutes, instead of 15-minute quarters, "is a mighty wise one." The average high school team is not as husky and well-conditioned as a college or university team, he says, and elevens of younger fellows should profit by this advice.

"The Jones are moving."

"Why, they've only been here a year! People were just beginning to know them."

"Yes, that's why they are going."—Legion Weekly.
