Aid Society Meets

The General Aid society of the First Methodist church held its monthly business session and social meeting on Wednesday afternoon, beginning at this time a busy program for an interesting winter season. Prominent on the society's program will be the rummage sale and bazaar October 15, 16 and 17, full announcement of which will be made later.

The following new officers of the aid society took their places on Wednesday: President, Mrs. H. H. Vandevort; vice president, Mrs. Harriet Durkheimer; secretary, Mrs. Grant Day; corresponding secretary, Mrs. Ronald Glover; devotional secretary, Mrs. R. K. Ohling; and treasurer, Mrs. I. L. Meadams.

At the September meeting, the members of the Yew Park circle acted as hostesses for the day with Mrs. George E. Emory, the president, presiding during the program which consisted of the following numbers: Instrumental trio, Misses Fintley Heimick and Gerth; vocal solo, Mrs. Donald W. Riddle; instrumental solo, Mary Hickman.

During the tea hour Mrs. A. A. Underhill acted as chairman of the social committee. The tea table was centered with pastel asters in a crystal bowl, circled with lighted tapers in silver holders. Mrs. George E. Emory and Mrs. Charles J. Lisle presided at the urns.

Return From Portland
Mrs. Paul H. Hauser and little son, Paul, Jr., are home from a week spent in Portland. Master Hauser was under treatment at the Emmanuel Hospital during his absence. He is greatly improved, his friends will be glad to know.

Photography at Fair
Two classes, that of professional and amateur photography, have been eliminated from the competitive classes in the art department of the state fair; this ruling going to effect following a recent action, which complies with a similar one made at the recent

convention in San Francisco of the Pacific International Photographers' association.

The finest pictures shown at the California convention will be shown at the state fair this year. The collection will include the very best specimens under the following classes: portraiture, commercial photography and color work. The exhibit will be representative of ninety percent of the studios of the northwest. Members of the Willamette Valley Photographers' association, who have shown unprecedented interest in the forthcoming display, are asked to send in their best work, the closing date for entries to be the day before the opening of the fair, September 23.

There will be two hundred and fifty pictures in the Pacific International exhibit, with ninety pictures representative of commercial photography. J. H. Gansler of Portland, who hung the northern section's pictures at San Francisco will be in Salem to place the exhibit. Groups will be arranged as they were in California, so that the different types of photographs will be readily discernible by the public, and to further the interest in the display Miss Kathryn Gunnell of Salem, will be on hand each afternoon to answer questions regarding the artists who made the pictures; what constitutes quality in photographic work, and anything else that may puzzle state fair patrons.

The rating system which will go into effect at the 1926 photographic convention to be held in Seattle will be used in making up the premium list for the state fair art department next year.

This is the first time that an exhibit of this kind has been shown in Salem, but hereafter the state fair will be in line for the first showing of the Pacific International traveling exhibit the date of the fair following as it does so closely after the larger convention.

The convention in San Francisco this month was the first annual meet for the Pacific International, an organization which

bears the same relation to the west that the National does to the east, and is so recognized by all authorities.

SUGGESTIONS

For the disposal of paper there is the wire basket, especially useful in the detached house if papers accumulate more quickly than they can be disposed of ordinarily. This is a burner and is like an enlarged trash basket, except that it has a tin top. Papers are piled in, the tin lid is fastened down and then the whole is taken to some safe place outdoors, where a match is applied. The papers burn quickly inside the basket, and there is no danger of flaming bits flying about.
