

### RACING PROGRAM AT FAIRGROUNDS OPENS

#### Carolyn Logan Wins Main Event at First Day of Oregon State Fair

Carolyn Logan, owned and driven by J. E. Montgomery, won the 2:15 pace in three straight heats in the opening day of the racing program at the Lone Oak track yesterday, taking first money out of a purse of \$1000. Gen. Paxton and Gale L., both of the Woodcock stables, finished second and third in straight heats.

Carolyn Logan showed too much class for the rest of the field and held first position easily. Gale L. and Gen. Paxton were never close enough to menace the Montgomery horse. Some pretty driving was done by Woodcock, in the sulky behind Gale L. In every heat he got away to a bad start behind the rest of the field but managed to close up consistently. Time for the three heats was 2:11, 2:11 1/2, and 2:12 1/2.

In the second event, a special trot featuring over night entries, Mack Watts took first. Wilbur Dafney second, and The Cavalier, third. Time for the mile was 2:21 1/2. The purse was \$150.

Three running races were held, the first for 4 1/2 furlongs, won by Cleo's Rochester of the B. J. Bagley stable, with Donovan up. Baby Doll, (Bagley) and Jolly Virginia, (W. G. E. Smith), finished second and third.

In the second race, Herman Rettle, up on Little Pointer, owned by L. Nelson, fell from his mount. He was not badly hurt, and declares he will ride again today. A broken stirrup leather is said to have caused the accident. The race was won by Daydue, owned by J. B. Clark. Clely K, a brown mare, took second, with Little Pointer coming in riderless. The race was for 5 furlongs, with a purse of \$100.

The trial stake, also for 5 furlongs, was won by Lomond Jr., in 1:03 3-4. Stats, owned by Earl Smith, and ridden by Donovan, was second, and Woodday, a Bagley horse, with Buell up, came in third.

Max Carey is old enough in baseball years to be sitting by the fireplace and spinning yarns of "old days under the black flag but he's still one of the boldest of Pirates, now threatening to make McGraw and his Giants walk the pennant plank. A striking photo of him.

### SENATORS OBTAIN REVENGE SUNDAY

#### Albany-Toledo Aggregation is Handed Defeat by Tune of 2 to 0

The Salem Senators received revenge for their defeat last week from the Albany-Toledo team, by wrestling from them the victory, in last Sunday's game. The first run for the Senators was scored in the second inning, when Keene singled, stole second, and came in on Girod's single. The other score came in the sixth when Green singled and stole second, and after Proctor had fanned, Keene droye out a two base hit, scoring Green. The game was a struggle from start to finish, and Albany received but one real hit during the whole game. Barham not only atoned but one hit, but he also finished the game without walking a man.

Next Sunday the Senators are to be matched against the Brooks all stars on the home grounds. Umpires—Williams, St. Louis Browns, and Rankin.

### SCRAPPY FIGHTER WILL MEET HUNT

#### Danny Garth Substituted for Speed Murphy for Opening Season Card

Of unusual interest to Salem boxing fans is the announcement made last night by Harry Plant, matchmaker, that Danny Garth, of Portland, will meet Bill Hunt in the ring here again on Thursday evening, October 1, in the second event on the card. Garth has been

CAL HERMAN

secured instead of Speed Murphy who was scheduled to appear against Hunt.

Local fight patrons have not yet ceased to talk of the spectacular mix Garth and Hunt put up on the last card. It will be remembered that Hunt hit the canvas seven times in rapid succession and then came back and got Garth in the third round. Many local people went to Silverton several nights ago to a match in which Garth and Hunt were scheduled to appear, and were disappointed to find that Garth had been substituted by another man. Garth is in much better condition than he was when he fought Hunt here before.

As far as local interest is concerned, the Hunt-Garth go will not be superseded by the 10 round match between Frankie Lewis and Cal Herman. Preparing for the main go, Frankie Lewis, Salem boy, is working out in the armory here every night at 7 o'clock with McCoy, a heavyweight. He is showing more flash and speed than ever and is developing remarkable endurance powers.

The ticket sale for the show will open this morning at the Smith cigar store. Escorted ladies will be admitted free except to the reserved seats.

### ATTEMPT TO RAISE DIVER IS THWARTED

(Continued from page 1.)

His brother, J. J. Sheehan, motor machinist's mate, first class, was one of those reported to have been on duty in the engine room when the crash came and one of those most likely to have a chance for life. His father, nearing 80 years, was in a serious condition. His brother's bride of a few months was prostrated with grief.

"Don't buoy up their hopes too much," said the executive officer, "because if the worst happens it will only go harder with them. But tell them there's hope."

"We heard last night that they had raised her 65 feet," said Sheehan's brother, "and that they had heard tappers from inside the submarine. Father was so greatly strengthened by this report that he was able to eat for the first time since the accident happened."

After he had gone, Lieutenant Commander Flannigan said there had been enough rumors and wild reports "to put Alice in Wonderland to sleep."

Even after the 72 hours had passed officials refused to release all straws of hope. Perhaps the air would last longer; perhaps the efforts to raise her would keep them alive. But they admitted they had no basis for their hopes.

Divers went into the battery room of the S-51 tonight to investigate the condition of the craft and determine what doors and hatches to the various compartments are open or closed.

This information was contained in a wireless message from Rear Admiral Christie on the Camden, of the rescue fleet. The message also said the sea was too rough to permit lifting with the Monarch and Century, wrecking boats sent to join the fleet.

Rear Admiral Christie's most recent read as follows:

"Sea still too rough to lift with Monarch and Century. Making best time by sending divers into battery room and so far forward and aft to work in interior preliminary to lifting when weather permits."

Officers here said they hoped for a report on the divers' investigations before the night was over. The information would prove extremely valuable in determining whether the men were alive, they said.

The department of justice has dismissed the suit against the packers started by radicals, kept going for two years at great expense, and never with the slightest merit. Justice seems the right name for the department.

### FEDERAL RESERVE FIGHT NOW ENDED

#### Matter of Existing Charter Causes Extensive Debate at Meeting

ATLANTIC CITY, N. J., Sept. 28.—(By Associated Press).—By adopting a report recommending that the question of extending the charter of the federal reserve banks be kept separate from proposals for amending the federal reserve act, and refraining from any discussion of the proposed amendments at this time, the economic policy commission of the American Bankers' association is believed tonight to have averted the threatened fight over the federal reserve on the floor of the convention. This action is understood to have been taken because a canvass of leading delegates by officials of the association disclosed an almost general opinion that the federal reserve system should be perpetuated although there was some difference of opinion as to the method of operations.

The report of the economic policy commission which was presented to the executive council, will, in turn, be transmitted to the resolutions committee to be appointed at the first general session tomorrow. An effort will be made to defer the question of amendments until some later date. The commission also recommended that the association memorialize congress asking that when the question of extending or extension of the charters is taken up, that legislation be enacted providing that the new charters run either indeterminate or for 99 years.

"The question of the continuance of the federal reserve system, now that it has become the subject of public discussion," the report said, "should be taken up promptly and settled because continued uncertainty about the future of the system is bound to prove a grave menace to the progress and prosperity of the country."

"Amendments," it continued, "should be considered separately and on their own merits. The act confers on the system no unchangeable rights. It has already been amended 17 times and congress, under our proposal, would forfeit none of its present rights to amend it further at any time."

"We'd have more confidence in Governor Pinchot settling the present coal strike if he had not settled the last one."

### BRIBES ARE CONFIRMED

#### TWO UNDER OFFICERS SUBSTANTIATE TESTIMONY

CHICAGO, Sept. 28.—(By Associated Press).—Two subordinate officials of the Cook county jail today confirmed in part the testimony of Terence Druggan, youthful "beer baron," that Druggan passed out big bribes to lighten the tedium of a year's jail sentence for violating a prohibition law "padlock" injunction on one of his breweries.

Henry Foster, secretary to Captain Wesley Westbrook, dismissed warden of the jail, said he received \$5,000 in bribes for himself and passed \$4,000 more to Westbrook for allowing Druggan and Frank Lake, his partner,

### Gets Good News in Bunches

Thirty minutes after the announcement came to Leo Cotter that he had been sold to the New York Giants by the pennant-winning Louisville Colonels of the American Association, the news was received that he was the father of a baby girl. Cotter is the snappiest fielding first baseman seen in the American Association in many a day. He set a world's record for putouts in one game—twenty-two—when he was with the Cubs in 1924. He is twenty-four and wields a wicked stick with the Colonels.

### GOLF TEAMS PLAY TIE

#### Illihee and Oregon City in 28—Even Match

The much strengthened Oregon City golf club team sprung a surprise on the Illihee team of Salem yesterday at the Oregon City links, holding the Salem team to a tie, the score being 28 to 28.

Next Sunday, October 4th, the Alderwood club of Portland comes to Salem for a return match. The Illihee club has only lost one dual match this year, that being to the Alderwood club, so the locals intend to make every effort possible to retrieve their loss. Frank Dolp, Oregon State champion, A. S. McIntyre and Arlo Kyle are members of the Alderwood team and will be matched against Ercel Kay, J. H. Farrar and Rex Sanford of the Illihee team.

Donald Young, captain of the Illihee team, states that matches have been arranged with Vancouver, Multnomah and Tualatin at later dates.

## Do the ESKIMOS HIBERNATE SIX MONTHS of the YEAR?

HERODOTUS, the ancient geographer and historian, thought so. We moderns know better, but some of us are still superstitious. For example, why do some people still believe that there is something mysteriously "better" about "eastern" motor oils merely because they cost more and are made in the East?

**Oil Superstition Fast Losing Ground**

Zerolene costs less because it's made in the West—but that doesn't make it better; it's better because in practice it actually lubricates better. That's why Zerolene is successfully lubricating more cars in the Pacific Coast states—high priced and low—than any other oil made.

Zerolene will increase the gasoline mileage, reduce the carbon removal operations and maintenance costs and lengthen the life of any car in which it is used.
