Salem Organization Perfect-ed With Dr. Bates Elected First President

Plans for an active campaign to demand the rights of long suffering Salemites measuring six feet or more in height were announced yesterday by Dr. A. G. Bates, newly elected president of the Salem Longfellow's club, which had its official birth here Tuesday night.

A general boosting of awnings over the sidewalks, negotiations for clothes of less abbreviated dimensions, a change in the distance between rows of theater seats, and a trimming of the lower branches of an occasional tree about the city are among the activities planned by Salem's newest organization.

In addition to Dr. Bates, the following officers have been chosen by the Longfellow's: Lewis Lunsford, vice president; William Walsh, secretary treasurer; E. D. Potter, sergeant at arms.

Officers will be installed at a banquet on October 23, when the local organization will be presented with its new charter, containing the names of some 50 charter members.

Kamchatka Like Modern Metropolis, Says Sailor

SEATTLE.—The impressions that Kamchatka, Siberia, is a land of desolation, inhabited only by Eskimos and bears, is far from the truth, Captain Albert Grove, commander of a fishing schooner recently returned from the region, declared here.

"I was very much surprised at the conditions existing in Petropavlosk," Captain Grove said, "for I had an entirely different idea of the place before we arrived there last May. They have fine schools, splendid sanitary conditions, well paved streets, modern machinery, radio, motion pictures

LANE PRUNE CROP IS SHORTEST EVER

Cannery Put Up About Six Cars, Probably Two Cars Dried in County

(J. O. Holt is secretary and manager of the Eugene Fruit Growers' association. He is the best fruit authority in that section. Answering an inquiry from the Slogan editor, writes from Eugene under date of October 5:)

"This year's Italian prune crop in Lane county has been the shortest it has ever been in the memory of the writer. The association dryer here at Eugene was practically the only dryer operated in the county; this was only running to a small part of its capacity for about a week. We doubt whether there will be two cars of prunes sent out of the county this year. The cannery canned about six cars of prunes."
