Ideal Luncheon Inspires Famous Radio Artist

KNOWN to radio fans of practically every station in the East not only as a famous pianist but as the successful composer of popular music, Peter De Rose does not believe in interrupting inspiration for the prosaic task of eating.

When he is busily engaged in the composition of a musical masterpiece he rarely stops for regular meals but lunches hastily on dishes that are quickly and easily prepared.

One of his favorite luncheons consists of scrambled eggs on toast and gelatinated milk or cocoa made with milk prepared after the gelatine formula.

Not only is a meal of this kind quickly prepared but long ago Mr. De Rose discovered that by adding gelatine to milk its nutritive value is increased, and it is more easily assimilated than in its natural state. Gelatinated milk is prepared after the following formula:

Soak for ten minutes, one level tablespoonful of gelatine in one half cup of cold milk, cover while soaking, then place the cup in boiling water stirring until gelatine is fully dissolved; add this dissolved gelatine to one quart of milk. Cocoa is prepared in the usual way except that gelatinated milk is substituted for plain milk.
