

REUNION IS HELD BY TEAM OF 1895

Present Bearcats Given Advice as to Procedure in Whitman Contest

Members of the team of 1895 of Willamette university held a reunion Saturday, appearing at the varsity alumni game, and holding a banquet at the Marion hotel, at which were present also some of the alumni team and the varsity men. The modern Bearcats were given five points on how to beat Whitman in the homecoming game. These points were: Get a good manager like I. H. Van Winkle, manager of the 1895 squad; get a trick play like Mark Savage's bald head; get a mud hole with a foot of water in it with which to drown someone of the opposition; kill someone, and if the coach can't get the plays into the players' heads, let him inject it with a kick through their pistol pockets.

Van Winkle told how Walter Paige, now living in Kentucky, had introduced football at Willamette in 1894, and how Brick Morse was obtained from Stanford to coach the squad of 1895. He declared that the state school teams at that time had ringers on their teams, but every man on the Willamette team "took at least one study and a shower."

Jos. Alberta, local banker, told how he trained Chester Murphy, captain of the team, when he was a great bicycle rider. He said in those days everybody bet on the games, and those present at the banquet accused him of having got his start in that manner.

Each member of the team was heard from, and cited incidents of football that occurred in the days when the old guard team represented Willamette. Congressman W. P. Hawley, at that time president of Willamette, and Bert Savage, a member of the team, sent telegrams urging the old team to cooperate with the other alumni in getting behind a movement for a greater athletic age at Willamette.

C. I. Brown of Silverton told of the appropriation of \$2000 for the first gymnasium, and declared the students were so enthusiastic they held a rally and gave their first yell.

Coach Guy L. Rathbun, present Bearcat mentor, called attention to Homecoming this year, and every member of the old guard expressed the hope that he will be able to be on hand for the event. Fat Zeller, captain of the alumni squad that played in yesterday's game against the varsity, said "there is today the best spirit at Willamette that I have ever seen." A committee consisting of Isham and Zeller was appointed to cooperate with the team of 1895 in assuring an ample turnout at this year's Homecoming.

SUGAR BEETS THAT MAKE GOOD YIELD

Go at Rate of Perhaps 20 Tons to Acre; the Individual Beets Run Large

The Slogan man of The Statesman has been favored with a fine agricultural exhibit, by his friend, E. Standifer, Salem, Route 6, whose farm is near the Fruitland store, and the exhibit is on display at the Statesman office, excepting the pumpkin, which has gone the way of all good pumpkins, into pumpkin pies.

There is a sample of wheat that went 40 bushels to the acre, some wonderfully large and fine tomatoes, some corn that ought to have a prize.

And three Royal sugar beets, weighing seven, eight and 10 pounds, respectively. These beets were planted May 12, a quarter of an acre of them, for experimental purposes, for the Utah-Idaho Sugar company. Mr. Standifer estimates that the beets will yield at the rate of 10 tons to the acre. The individual beets run from three and a half to five pounds each.

The reader may see that such beets, if they have 20 per cent sucrose (sugar) content will make 4000 pounds of sugar to the acre of beets. If they have 15 per cent, they will make 3000 pounds. Beets have been produced in the Willamette valley with 25 per cent of sucrose. Beets having 12 per cent will pay to work; even lower in the large, modern mills.

The sugar beets grown by Mr. Standifer have large, luxuriant tops. That is what makes them so valuable for live stock feeding. The tops are fed either green or dried. The modern sugar plants are equipped for drying them, at-

ter a process discovered a few years ago in Germany. The Bellingham, Wash., factory, which the samples from the Salem district go, is equipped with a drying plant for the beet tops. The dried tops go back to the farmers who furnish the beets.

GRANGE FILES PETITION ANOTHER CONSTITUTIONAL AMENDMENT PROPOSED

A proposed constitutional amendment authorizing the state to enter into the hydro-electric power business was filed with the secretary of state Saturday by the state grange. The petition differs from that filed by the Housewives' Council, Inc. of Portland in that it does not touch upon administrative affairs. The Housewives' Council petition seeks to name the members of the first board and provides for the election of succeeding boards.

RETURNS FROM TRIP TO MAYTAG FACTORY

800 Machines a Day Being Turned Out—200 Dealers Attend Convention

Mr. Walter G. Sloat of the Maytag Shop, 169 So. High street, just returned from a big two days' Maytag dealer convention at Newton, Iowa, where he visited the factory of The Maytag company, world's largest manufacturer of washing machines. Mr. Sloat said the trip was by far the most interesting one he had ever taken and told at length about some of the operations in their mammoth manufacturing plant.

Newton, Iowa, is a small town of about 8,500 population, but over 1400 of these people are employed in the Maytag Washing Machine factory. Probably one of the most interesting things Mr. Sloat told us about was the aluminum foundry which is the largest in the world and in which are made the cast aluminum tubs of the Maytag washer. This foundry is considered as the world's most modern aluminum foundry. In it each month approximately 1 3-4 million pounds of aluminum are melted. The workmen's conditions are ideal and every convenience is provided them.

Mr. Sloat reported that the factory is turning out over 800 machines a day and that The Maytag company has a large six story factory building in construction, which will increase the daily output to more than 1500 machines. The entire factory has a floor space of over 12 1/2 acres.

"One thing which impressed me very much," Mr. Sloat said, "was the exacting requirements for accuracy which prevailed throughout the factory. All important measurements are made by micrometer gauges and every individual part is subjected to a very rigid system of inspection.

The Maytag company makes one-third of all the electric washing machines sold, and for the past three years has maintained the position of world leadership.

Mr. Sloat enjoyed the trip very much as it gave him an opportunity to meet, at the convention, about 200 other very enthusiastic Maytag dealers from all parts of the United States.

ESCAPED CONVICT HELD PRISON OFFICER LEAVES FOR SEATTLE FOR MAN

A prison official left last night for Seattle to return Arthur Schmidding to the penitentiary. Schmidding escaped May 28, 1923 while serving a five year sentence for larceny. He was received from Multnomah county October 11, 1921. After making his escape Schmidding went to Canada where he was convicted of burglary and sentenced to three years. This sentence has just been completed and the Canadian authorities are delivering him to the Oregon officer.

Car Reported Stolen—The Salem police department has asked Eugene officials to keep watch for a Chrysler coach stolen from that city late yesterday. The machine carries a California license, E50-141.

The Governor Enlightens Us—Governor W. M. Pierce. Election of officers. Closing prayer, by Dr. N. K. Tully. A banquet will be served by the ladies of the church at 6:30.

TINY GLAND MAKES MEN GET UP NIGHTS

Do you know that a very high percentage of all men of mature years are troubled with disorders of a little gland—the prostate. When this vital gland begins to slow up many ailments arise, such as pains in the back and legs, frequent nightly risings, general debility, weakness and dizziness, painful, smarting, difficult urination, and lack of control. But at last, there is a treatment for this gland that has brought relief to thousands. This treatment is perfectly harmless, and so marvelous have been its results that for a short time it is being offered Absolutely Free to convince people of its amazing efficiency. ABSOLUTELY FREE. Just send your name and address and 10c to help pay the postage and packing and you will get by return mail a Full Sized Sample Package. But act at once as this offer is made for a short time only. Write today to PALMO LABORATORIES, Dept. 284-X, Battle Creek, Mich.—Adv.

BUTTER EXPORTS SWELL. OTTAWA, Ont. — Exports of butter from Canada to countries of the world increased 100 per cent in the 12 months ending August 1, said a report issued by the Dominion bureau of statistics. Shipment totaled 23,869,307 lbs. with a value of \$10,317,819 compared to 14,474,341 pounds valued at \$6,278,479 in the year ending August 1, 1924.

THE WRONG TIME TO GAMBLE

YOU CAN NEVER TELL how severe will be the penalty of a wrong choice in eye glasses until you've made one. Don't gamble, see to it that the man who examines your eyes has a record for accurate refraction and the years of experience your visual trouble may require to correct. Only men of that type will ever be found here.
