

### CITY-OWNED WATER PLANT NEEDED NOW

Question of Live Interests Declares Percy Cupper; Supplies Listed

"The question of a water supply for Salem is of live interest and will continue to be until we get what we really want here in Salem," declared Percy Cupper Thursday in an address at the weekly luncheon of the Marion-Polk county Realtors' association. "The question is, shall we continue to pump from the Willamette river or draw from the snow capped peaks of the Cascades?"

There are two forms of water, Mr. Cupper said, untreated and treated. If Salem is to have treated water it does not make a great deal of difference where the source is. But untreated water can be obtained only from a fully controlled draining area, he said. "Sooner or later Salem is going to own and operate its own water system," Mr. Cupper declared. "The proposition now is, when are we going to do it? Nothing does a city more good today than to own and operate its own water system."

He said that one thing that stands in the way of taking over the water plant is political manipulation. He urged that realtors do their utmost to see that the system should not be dragged in the dirt by politics.

Marion Lake, Mr. Cupper thinks is the best source for Salem to draw from. The water could be run to Stayton and distributed from there to municipalities in the valley in need of the water. He suggested that Woodburn, Corvallis and Albany might draw from the same supply, and thus lessen the cost for all. It is 55 miles to Stayton from the lake, he said, and 73 miles from the lake to Salem. He declared that the proposition would be an expensive one and that it seems unlikely Salem by itself will ever put in that system. But with the cooperation of other communities he sees no reason why it should not go through.

Mr. Cupper suggested that in planning for the system the construction of a trunk pipe as near the center of the cities to be served as possible should be contemplated. In order to make the project a success, Mr. Cupper said, a spirit of cooperation is needed, and distrust should be dispelled. He added that the project must be kept within the financial limits of the city's exchequer.

### ENGLISH PREACHER IS CHAPEL TALKER

Last Word in Civilization Declared Not Yet Spoken in Western World

"The last word in civilization has not yet been spoken by the western world," declared Wilfred Wellock, English preacher, writer, editor and candidate for parliament on the labor ticket, in an address to the students of Willamette university Thursday. "India wants home rule so that she can develop her own culture and her own talent."

He declared that Mahatma Gandhi, the great Indian leader, "is not only the greatest personality on the face of the earth, but has influenced the lives and conduct of more people during his lifetime than perhaps any man in all time." He said that Gandhi has given away all his wealth for the sake of India, and is giving all his life.

Gandhi, Mr. Wellock stated, does not believe that India will ever get any place if she attempts to use force. As a result, he has tried to make the Indians see that passive resistance is the way to attain their rights. The people of his country have submitted to his advice, and are really making headway in obtaining home rule, Mr. Wellock said.

He declared that some of the finest art and architecture of the world has been produced in India, and expressed the belief that the country should be allowed home rule in order that its art might be resumed. He suggested that the civilization of the east and the west should borrow the best from each other, and out of the two, develop a civilization that would be greater than either.

Thursday evening he spoke at the First Methodist church of Salem on the subject of peace. He declared that in his opinion the small countries of Europe will be completely wiped off the earth if war continues. He said that history shows that no civilization has lived for more than 400 years after adopting a military policy. There are a million and a half unemployed in Great Britain today, Mr. Wellock declared, and showed that this very condition existed in Rome just before the decay of that empire.

Eugene—Work starts on new Powers three-story furniture building.

### NEW HOME OF SALEM ELKS

Public reception will be held from 7 until 11 Tuesday night when building will be open for inspection.

### HAMMOND RETURNS FROM SCHOOL TRIP

Proposed Removal of Kimball College to Seattle Only Advisory One

At the meeting held in Seattle Wednesday for the purpose of discussing the question of moving the Kimball School of Theology to the city from Salem, those present passed a motion that the gathering recommend to the national board of education of the Methodist church and to the trustees of Kimball college that the school should be moved and placed somewhere within the limits of the Puget Sound conference, according to Dr. E. S. Hammond, a member of the faculty of the school, who returned Thursday.

Dr. Hammond, however, seriously doubts that the school will be moved in the near future, and asserted that the capacity of the gathering in Seattle was purely an advisory one. Those present at the meeting were Dr. Carl G. Doney, president of Willamette university; Dr. Todd, president of College of Puget Sound; Dr. E. L. Mills of the Pacific Christian Advocate, the district superintendent of the Oregon, Columbia river and Puget Sound conferences, and ministers from Seattle and Tacoma. The school relies upon the national board of education for most of its financial support, and it is believed the board might object to the move, as the school would be connected with University of Washington, and the board has never before contributed to the support of such a school connected with a state college.

Dr. Hammond declared that if the move should be made, the nature of the school would not be changed. Dr. Doney was under the impression that the movement would also include changing the school from a straight theological one to one of religious education. Dr. Hammond asserted that it would still be a straight theological school, but would handle religious education in addition.

### ELKS WILL HOLD OPEN HOUSE TUESDAY NIGHT

(Continued from page 1.)

auditorium, is furnished in Lloyd's fiber wire furniture, with fixtures in Italian effect. Here also is a fine Wilton carpet. In the main lodge room, the flooring is of U. S. rubber tiling. Opera chairs are of mahogany and the hand carved gables also in mahogany. Desperies in this lodge room are in stripes of gold. Walls here are in shades of stone. The frieze and cornices are in old ivory and are high-lighted.

The cost of the interior furnishings of the temple was \$35,000. Great care was taken in selecting furnishings and wall covering to secure a harmony and blending of colors. Credit for the artistic furnishings is due to the furnishing committee composed of Henry W. Meyers, chairman; Dr. H. H. Olinger, Roscoe Shelton, Frank T. Wrightman, Homer H. Smith and Joseph Adolph.

The reception committee for the public reception next Tuesday evening will include officers of the lodge and their wives, and also members of committees and their wives. However, W. I. Needham, exalted ruler, announces that every member of the lodge is expected to be present next Tuesday night and show their friends around one of the most beautiful Elks' temples in the west.

### INSANITY TO BE PLEA

WOMAN ON TRIAL, CHARGED WITH KILLING HUSBAND

COUER D'ALENE, Idaho, Oct. 21.—(By Associated Press.)—Attorneys for Mrs. Ida M. Miles, on trial here on a charge of murdering her husband by blowing up an outbuilding in which he was sleeping, declared in their statements to the jury today that the defense will introduce evidence to show Mrs. Miles was "mentally unbalanced" at the time.

The state rested its case against Mrs. Miles at noon and the defense made their statements to the jury after a motion for a directed verdict of acquittal.

### MURDER JURY MAY GET CASE TONIGHT

(Continued from page 1.)

told him "No," Willos said. "Then he asked me if I ever thought that I was insane, and I told him that I didn't know. Everybody in the prison said I was crazy, though. They told me so." When asked by Will R. King, defense counsel, whether or not he had been told of his rights preparatory to giving a statement to the district attorney and others in the parole office of the state prison on his return after the escape, Willos declared that he had been told nothing, and did not know who his questioners were. The statement was introduced by the state on Tuesday. "No, they didn't tell me anything," the defendant said. "I didn't know who they were. I thought maybe they were newspaper men. I wasn't sworn, or under oath, or anything."

C. M. Charlton, former principal keeper at the penitentiary, was called as a witness by the defense, obviously to testify as to his opinion of Willos' mental capacity. "I thought Willos was kind of queer," the witness said. "One day he came to me and said he wanted to be put in the bull pen. I said, 'What's the matter with you; are you crazy?' He said 'No, I'm not crazy, but I don't want to be with those fellows any more.' I told him to go back to work, but he wouldn't, so I sent him to the bull pen. It was just about what I expected of him, though; what I expected him to say, if he said anything."

"Willos seemed to want to get away from the crowd," Charlton said. "He seemed to seek seclusion and wanted to do his time and get out of there." Three other convicts, Frank Fallen, Dale Arthur and C. N. Willis, were called by the defense and gave their views of the break. They were in cells overlooking the prison yard and were in a position to see everything that happened.

Fallen testified as to shots fired into the bull pen while prisoners

### MURDER JURY MAY GET CASE TONIGHT

were held there, declaring that the conditions were such as to cause great fear. "How many times have you been in the bull pen?" defense counsel asked. "Twice," Fallen answered; "the first time in June, 1924, for 16 days." "And the second time?" Mr. King asked. "Well, I'm in there now—have been since Sunday." "Do you know why you are there?" "I believe it is because I testified in the Murray trial," Fallen answered. "We were sitting in the bull pen," Fallen said, relative to the shots fired into the cells by a tower guard. "Each was in his own cell—we couldn't even see each other. We were talking when the guard up and shot at us without cause or warning. He said 'Another chirrup out of any of you and I'll kill every one of you.' The guard was a little hard of hearing and he thought that every body was cursing him. He is crazy, to the best of my knowledge. He used the excuse for shooting that we were either curs-

ing him or the prison officials. We weren't." Questioned further, Fallen said that the guard referred to was extremely nervous. "I term him crazy. He'll sit in his tower stroking his gun like it was a dog or a cat. He's fitful and he will sit there for a little while and then jump up and pace around his tower and rage. He looks at his watch about 40 times an hour. There's a cat or a chicken outside the wall, and he'll call it up there

ing him or the prison officials. We weren't." Questioned further, Fallen said that the guard referred to was extremely nervous. "I term him crazy.
