One of the most notorious ex-criminals in England and America is now with us for a week or so. He came from a prominent family of singers in London, England, but fell to the lowest depths of sin. Nine years ago God marvelously saved and transformed him as he was on his way to commit suicide. He was a companion in crime with Tom Mackey, the noted evangelist who was also saved from similar conditions. Brother William King once used his talents as a singer and performer for the devil on the stage but since his new birth into a heavenly kingdom he uses them to good effect for the Lord Jesus Christ in the pulpit. Don't fail to hear him give his life story Sunday night. Come and be convinced that the days of miracles are not past. Jesus Christ came to "seek and to save that which was lost." There was great rejoicing at the return of the "prodigal son," but the self righteous "elder brother" stood aloof and would not go in.

A COMMON SENSE AMERICAN CREED

One Put Forth by the Newest Member of the Federal Trade Commission

W. E. Humphrey, newest member of the federal trade commission, in Nation's Business Magazine outlines the new creed of the commission this way:

We do not believe that success is a crime.

We do not believe that failure is a virtue.

We do not believe that wealth is presumptively wrong.

We do not believe that poverty is presumptively right.

We do not believe that industry economy, honesty and brains should be penalized.

We do not believe that incompetency, extravagance, idleness, and inefficiency should be glorified.

We do not believe that big business and crooked business are synonymous.

True we will give close scrutiny to big business than to small business, because of its greater power for good or evil.

We believe that 90 per cent of American business in anxious to obey the law.

We want to help this 90 per cent of honesty.

We want to control or destroy the 10 per cent that is crooked.—The Sky Line, New York City.

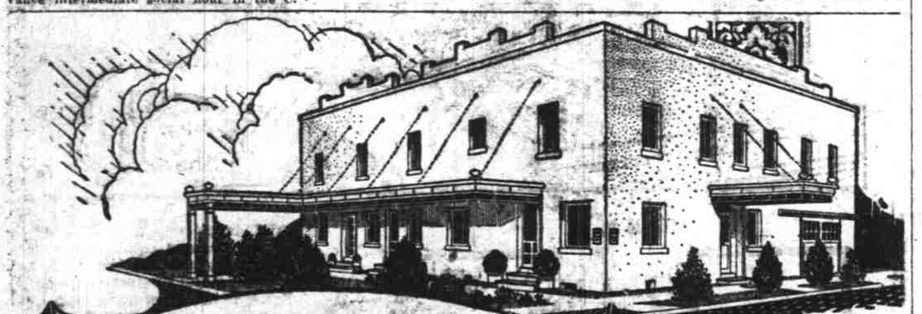
THE CHURCH WITH A HEART



The More Discriminating One Is

the more our type of service is appreciated. It was designed and is maintained along lines which could not help but please those who pride themselves upon being particular.

Yet it is interesting to observe that this superior type of service is just as reasonable as any other. Cost is not always a barometr of quality.
