

Help Make Motoring Safe!

IT IS CARELESSNESS, NOT SPEED, THAT KILLS THOUSANDS

THE CALL OF FALL

Of all the days these are the best to be out on the open road with the cares of office, shop, home and school left far behind. A good used car will carry you away from tedium as quickly and comfortably as a new car, and a whole lot less expensively, too, when you consider first cost.

USED CARS

CERTIFIED PUBLIC MOTOR CAR MARKET

Half Block North of Post Office Phone 885

A great nation wide campaign has been inaugurated in the interest of the automobile and public safety. Experts agree that carelessness more than speed is responsible for the staggering loss of life, limb and property in automobile accidents annually. Collier's, The National Weekly enlisting early in the campaign, is sponsoring four simple hand signals for motorists, which if made universal practice, will help to reduce accidents from automobiles. Confusion in hand signals results in thousands of accidents; such accidents would be avoidable if all motorists used the same signals. The signals are illustrated here; they were originally posed by Tommy Milton, the world's fastest automobile driver, and were actually worked out in practice by Tommy Milton and a large group of driving experts. Familiarize yourself with these signals; practice them yourself; tell your neighbors about them; everybody use them. The result will be fewer accidents, fewer deaths, fewer injuries, longer life for your car and—last but not least—less fool legislation to harass the life of the motorist.

It may not have been the driver's fault, yet a jury is likely to award thousands of dollars in damages on an accident of this sort. Who is going to pay? You? Or a financially strong, dependable Insurance Company?

You can answer this question now—and relieve your mind of all worry—by letting us give you full protection through Insurance.

I will gladly submit details as to cost, and the protection afforded by various types of automobile policies.

THAT'S

THE TOLL

Turning Left Corner

In plenty of time thrust out your arm with index finger extended and point to left.

Turning Right Corner

Raise your forearm from the elbow and plainly point the index finger to the right.

"Pass Me"
Thrust out hand and wave it with forward motion. Sound horn when passing from rear.

Stopping or Backing
Thrust out hand with palm forward and hold that way. Look around before backing.
