**CONSULT ME NOW**

Skill and experience are needed to fit glasses right. Precision and good judgment are required to make them as they should be made. I have my services to offer you which are over one-third of a century of practical experience.

I do not only fit your eyes, but I design glasses that are comfortable and good looking and give you every advantage that science and skill can give you. I shall be pleased to see you and wait on you.

Poor eye sight is the cause of backwardness in many children. A safe plan is to allow me an examination and I will advise you correctly. If glasses are not required, I will positively not try to put glasses on you or on your children.

If your glasses are not entirely satisfactory in every respect, I will change them free of charge for one year.

There is no experimenting on any one's eyes in my office, I do all the work myself and guarantee satisfaction in every respect. I do not belong to any combine, therefore my prices are very reasonable. Telephone for appointment, Phone 723.
