## A MEMORIAL ARCH FOR SOLDIER DEAD

### The \$25,000 Drive Started Under Auspices of American War Mothers

Portland, Nov. 21. The big drive for the memorial arch to be erected at Eighty-second and Johnson Creek on the way to the Mt. Scott cemetery, where many of the boys are buried, started November 18th, at which time everything was turned into a motion to raise the full amount so as to build an arch that will be a lasting monument to Oregon heroes. The arch was designed by F. M. Stokes, architect of this city, and turned over to the American War Mothers arch committee.

**The Committee**  
 Building committee—Mrs. John S. Eubanks, Florence E. Garver, Mary Harper.  
 Finance committee—Harvy G. Starkweather, chairman, Mrs. Lilian M. Hackelman, Mrs. Ida B. Callahan, Mrs. Daisy Scott Bullock, Mrs. Addie Kimble, Mrs. A. W. Field, Mrs. Frank McCallis, Col. James Crossley, Hon. Ralph E. Williams, Hon. Lester W. Humphreys, Hon. Elton Atkins, Hon. George J. Joseph, Erwin A. Tatt, George A. Ovejoy, Dr. Charles J. Smith, C. C. Chapman, Charles E. Spence, E. G. Canfield, Marshall N. Dana, Horace Thomas, O. C. Leiter, Fred Boalt, Frank Barton, George J. Koehn, E. L. Keith, Rev. Frederick Webb, and R. J. Powers.

Honorary finance committee—Governor Walter M. Pierce, Mayor George L. Baker, Judge J. U. Campbell, Mrs. Emile G. Hendricks, Mrs. Alexander Thompson, and H. L. Corbett.

In launching their big drive, the Auditorium has been taken for four days, December 8, 9, 10, 11, on which dates an afternoon and evening performance will be held in which a stupendous Prologue will be produced, followed by three of Portland's prominent speakers to represent three minute men. Then will be unfolded one of the mightiest epochs of mother love ever thrown upon the screen, in which Mary Carr will act as the mother and Johnnie Walker as the son.

**A Big Program**  
 One hundred thousand tickets will be mailed out which will practically reach every home in the city and a gigantic publicity campaign to let the public know why the American War Mothers are so anxious to build an arch that all Oregon will be proud of, will be set in motion and when this arch is built, then the American War Mothers will feel that their work has been well done.

Already some of the larger firms have helped in getting the campaign ready, and the appreciation of mother love for what has been done by them in getting behind this great movement with its patriotic and civic good cannot be measured in words.

The Prologue will have as artist some of the best known in the city, and a full company from out of town will make it a stupendous spectacle well worth seeing and one that will not soon be forgotten. Already rehearsals are going on and a big surprise awaits those who attend—in fact, it is to be equal in every way to the wonder picture that will be shown.

"I suppose you think I have a great many kicks," said the grumpy guest. "Not at all," replied the hotel clerk. "I know plenty of kicks you've never thought of."

### Worm Turns; Now Leaders in France Have the Blues

PARIS.—The note shaver and chattie mortgage specialists in France have the blues. To many only remedy is for the money lending of the profession it seems that the

er to retire from business until the return of better times. Changed conditions in France is the principal cause. Borrowing has gone on even more extensively, but all of it has not been spent in riotous living. Part of the loans has gone into foreign oil or mining stocks which, advancing automatically in value as the franc went down, brought handsome profits. The borrower began paying interest to the lender in depreciated francs, pocketing the profits and then borrowing more money to finance new deals.

### Birthday Surprise

### Frame buildings survive earthquake shocks

THE Santa Barbara earthquake demonstrated that frame structures, being structural units and flexible are ideal for resisting the shaking and twisting strains of moving ground. Five or ten dollars was frequently the total damage; \$100 was exceptional. In earthquake and cyclone areas, on shifting or settling ground nothing equals lumber for safety. In any place, nothing equals lumber for adaptability, for remodeling, or for economical construction.
