

SCHOOLS TO TEST MEMORY OF MUSIC

Prizes to Be Awarded Students With Best Scores in Competition

The value of music in education is becoming more and more clearly recognized. It is no longer classed as a "frill" in the curriculum of public schools. As industry has progressed giving the worker more leisure, the problem of the profitable employment of this time has become vital and educational systems must provide an outlook broad enough to include material for this phase of every day life.

Much of our leisure is spent in homes. How can this time be used to make it enjoyable and profitable? Books and music form the basis for the answer to this question.

Schools through various studies acquaint children with the best in literature and this teaching is ably aided and supported by libraries. But the literature surrounding our best music is a closed book to a great number and to many the music itself is unknown.

The history of music begins with the history of man and the story of its growth and development is as fascinating as that of the growth of a nation. Great composers and teachers have handed down to us a priceless heritage in the world's best music. To become acquainted with this music is the aim of our music memory contest.

It will not only familiarize the child with good music but will instill in him a love for music that will make it a companion and an enrichment of his later life.

Theodore Thomas said: "Popular music is familiar music." Our aim then is to popularize the best in music by making it familiar.

In our local contest thirty selections are being studied at the rate of two a week. These have been carefully selected to present different types and periods in music. The stories surrounding their origin is given as well as information concerning the composer. With this background the children become intelligent listeners.

The work of the contest is being carried on in the fourth, fifth and sixth grades under the direction of Miss Gretchen Kraemer, supervisor of music. Through the courtesy of two of our leading music dealers, suitable prizes are being offered in each grade as well as a school prize.

Thirteen prizes are offered to winners in the music memory contest. Four prizes for each of the fourth, fifth and sixth grades, and one for the school with the most successful entrants.

Prizes for each of the three grades are: First, a Victrola; second, \$10 worth of Red Seal records; third, \$5 worth of Red Seal records and fourth, \$5 in cash, in records or in a harmonica. A Victrola will be presented the school with the largest number of successful entrants.

The finals will take place the last of January. In this test the selection must be recognized and the composer named. All information must be correctly spelled. Parents and friends are urged to help the children to hear these records in their homes.

The full list of records follows:

1. Anitra's Dance, Grieg; 2. Berceuse (Jocelyn), Godard; 3.

EVELYN SCOTNEY

Evelyn Scotney, the noted soprano formerly of the Metropolitan Opera, who is to appear here Tuesday, Nov. 24, has just returned from a triumphant concert schedule in London. The climax of her British tour came when on July 5th she gave a recital in Buckingham Palace by command of Queen Mary. She has just returned from England to fill a two-month concert tour of America.

HAYESVILLE HAS MEET

CLUB OFFERED EXCELLENT PROGRAM THURSDAY

The Hayesville Community club held its annual meeting November 20 at the Hayesville school. After a brief business meeting the rest of the evening was spent with a delightful Thanksgiving program. There were several fine numbers on the program, one being a con-

"WE MODERNS" HERE NOW

Beautiful Colleen Moore is featured in this unusual picture now playing at the Oregon theatre. The supporting cast is said to be exceptionally good. The film has a fast-running plot and is pert and humorous.

cert given by an orthophonic Victrola, through courtesy of the Moore Music House. The music was well chosen and enjoyed immensely by all.

Charles Orchard, speaker of the evening, gave an interesting talk to the children. Benefit was derived by all. A number of very clever Scotch songs were given by C. R. Muston, accompanied on the piano by Wendell Helm. Each number was followed by a hearty applause.

tion, Margaret Sammons; recitation, Robert Brady; pageant, by school pupils; recitation, Maxine Welch; recitation, Euala Bailey; song, school; recitation, Hazel Utterback; recitation, Earl Hunt; song, five school girls; recitation, Lila Moriarty; recitation, Roy Hunt; song, school.

RECORD PRICE PAID

KANSAS CITY, Nov. 21.—(By Associated Press).—What is said to be the highest price ever paid for a saddle horse was given at the American Royal livestock show here today when Mrs. W. M. Matson, San Francisco, paid \$25,000 for Chief Longview, owned by Mrs. Louis Long Combs of Kansas City. Longview is a five-gaited stallion, three years old.

Expressing Real Dignity

BUY IT FOR THANKSGIVING BUT ENJOY THE USE OF YOUR DINING SUITE EVERY DAY

Makeshift furniture won't do. You want something reliable, something honestly constructed, something made to endure a lifetime if necessary. Such are the Dining Room Suites we are showing in Heppelwhite, Adam, Sheraton, Georgian, Renaissance, William and Mary, Jacobean, Queen Anne and others—in walnut or two tone finishes. Every one is an extraordinary value and represents the pinnacle of what you can expect from your money. Each suite consists of buffet, oblong table, one host chair and five upholstered side chairs.

When you buy a Dining Suite here you buy it not only for Thanksgiving Day, but for full enjoyment every day of the year

Hamilton Furniture Company

SCIENCE has found old ways harmful. Countless mothers, without knowing it, have been clinging to a harmful method of washing.

Today mothers by the thousands are flocking to this new way—safer for the baby, better for the clothes, easier on the mother.

What Science Found Most Important

Strangely enough, modern science has learned that the most vital part of washing is the rinsing.

Old ways, used by housewives from time immemorial, involve only one or two rinsings. Scientific laboratory tests showed this not enough to remove every particle of soap and every foreign substance, and therefore harmful to baby's tender skin.

An Added Danger

An added danger lurks in the soap you use. Free alkali in soap is detrimental to the life of fabric. Left in the garment through insufficient rinsing, it is dangerous for baby's skin.

Most home laundry soaps and powders contain it. A leading, highly advertised chip soap for home laundering purposes has been found by our chemists only 78 per cent pure. It contains considerable free alkali. Yet it is one of the best which housewives use.

Only one soap advertises the per cent of its purity. Housewives must buy laundry soaps blindly, not knowing what they are getting.

Are Your Clothes Sterilized?

Home washing methods, science has

learned, seldom sterilizes clothes without harm. Today modern science has given us new methods which sterilize completely without injury or damage to fabric.

So the modern housewife is turning today to a new and modern method.

This Way Baby's Clothes are Safe

At the Capital City Laundry, baby's clothes—and ALL your nicer things—are safe. All silks, all delicate, dainty pieces are sorted out of your bundle

Your Choice of Five Low Cost Services

WET-WASH—Saves far more work than an electric machine—saves ALL the muss, and suds, and bother—actually at LESS COST. Everything scientifically washed with pure materials in NINE changes of CLEAN water, and returned to you slightly damp, just right for ironing. 20 pounds, 75c. 4c each additional pound.

ROUGH-DRY—An especially desirable service during rainy winter. Everything scientifically washed, then dried by fresh-air methods. Required starching done. Flat pieces ironed. 7 pounds, 65c. 9c each additional pound. Shirts in this service finished for 10c each.

And Three Other Low Price Services

and carefully handwashed by specialists trained in scientific methods.

We hold the advantage of scientific laboratory tests for purity of materials. Not a particle of free alkali exists in the soap we use for clothes. You may safely wash your face, or shampoo your hair, in any water or solution in which we place your clothes! This is the laundry of PURE MATERIALS.

After three careful suds baths in PURE soap—a fresh change of clean water and suds for each bath—we give your clothes SIX thorough rinses, in SIX changes of fresh clean water.

And at the Capital City Laundry, your clothes are completely sterilized, by the new HARMLESS way discovered by science.

Try This New Way Two Weeks

So, under the NEW scientific washing methods we now use, baby's clothes—and ALL your daintier, finer things—come home from this laundry sweet and clean, fluffy and soft, as sterile as a surgeon's gown—SAFE for baby's tender skin.

Why not try this new, and SAFER way—just two happy weeks? Join the hundreds of other Salem housewives and mothers in this new freedom. Note how much more cheerful you are on Monday evenings. Note how lovely your clothes look when they come home. Note how much LESS than you expected is the cost.

Let this two weeks' trial decide for you. Send everything—baby clothes, silks, linens—everything. We guarantee their safety. Just call 165, and tell us when to call for the first trial bundle.
