GREATEST IN THE KINGDOM:—Whoever therefore shall humble himself as this little child, the same is greatest in the kingdom of heaven. Matthew 18:4.

THE HEART OF SALEM

The price of admission for children to the Oregon Theater yesterday afternoon was a bundle of used clothing or bedding for the poor—

And the theater was filled with children—

And about all the available space in front was filled with bundles of clothing—

Practically all of it serviceable, and much of it new, or as good as new.

The result was the largest single gift that has been bestowed upon the Salem Associated Charities, in the way of clothing, in all its history. So successful was the "used clothes party," arranged by The Statesman, that the theater managers and the people responsible for the Associated Charities hope the effort will be repeated annually.

All this shows the great heart of Salem, which is never appealed to in vain, when the appeal is made in the right way, and covers a real need.

There are a good many people in Salem, between the canning and harvesting seasons, who will need to be helped over the time of shortage of employment—

For the difference in numbers employed here between harvest and canning times and the rainy season is great—Amounts to some 2000 for the canneries, and to many thousands for the harvests of various kinds; running up to 50,000 or more in hop picking time. So it is not strange that there must be some maladjustments; some cases of necessity for at least temporary relief.

The great heart of Salem does not regard particularly that side of the matter in cases of real need, but it is not amiss to remember that without the poor whom we are told in holy writ we will always have with us, this great fruit growing and specialty farming section could not get its harvesting and packing work done—

So, if we considered nothing but the business side of the case, it would pay Salem to give heed to the actual needs of her workers.

CHRISTMAS SEALS SALES

Tuberculosis Christmas seals are being put on sale in Salem and over the country generally. In this city they will be on sale at the postoffice, at the service club meetings and at some of the banks and stores. There is urgent need for us to purchase these stamps and to further strengthen the campaign against one of the world's greatest scourges.

This year the Christmas seal comes of age. It is just 21 years since an obscure postal clerk in Denmark conceived the idea of a decorative stamp to be placed on Christmas mail as a means of raising funds for a hospital for tuberculous children. A few years later the first Christmas seals that were sold in the United States raised \$3000 for the purchase of a sanatorium site in Delaware. Last year 1,250,000,000 seals were printed for the National Tuberculosis Association and their sale brought approximately \$4,500,000 into the coffers of the 1500 organizations affiliated with the national body.

During these years the Christmas seal has helped to finance hundreds of local, state and national campaigns to secure hospitals, sanatoria, clinics and dispensaries. At least 20,000 public health nurses are at work in the schools and homes to educate children and parents in the rules of healthful living. In this way minor physical defects are detected and, because of early treatment a physical breakdown in later life with tuberculosis or some other serious disease is often prevented. Every large city nowadays has its open air schools, preventative and nutrition classes where the chil-

dren of tuberculosis parents and others below par are brought to normal weight and strength. Approximately 3000 such institutions are in this country at present. The Christmas seal has made possible the Modern Health Crusade, the largest child health movement in the world, through which 8,000,000 school children have been taught daily habits of cleanliness, diet, exercise and rest so that they may develop into robust men and women.

Our participation in the annual Christmas seal sale is an investment in individual and community health. More than that, we become a part of the message of hope which the seal carries to the many thousands who otherwise become victims of a preventable and curable disease. In all truth, the mission of the Christmas seal is joyous health.

Use Snowdrift in your favorite recipe for biscuits—it makes the most delicious tempting hot biscuits you can imagine.

Because of the dainty flavor of Snowdrift there is no suggestion of fat in the biscuits except that of richness. And the creaminess of Snowdrift makes the mixing easy.

To find out what a really good shortening Snowdrift is, try it in Kate Brew Vaughn's recipe for Whole Wheat Biscuits—or in your own biscuit recipes.

WHOLE WHEAT BISCUITS

- 3 Cups Whole Wheat Flour

- 3 Tablespoons Snowdrift
- 1 Cup Milk
- 2 Tablespoons Sugar

Sift dry ingredients; with tips of fingers blend Snowdrift. Make into soft dough with milk and roll 1/4 inch thick. Cut in small biscuits and bake in hot oven.
