# SUPPOSE

## You tried this washer

### Right in your own home

**SUPPOSE** a MAYTAG Gyrafoam were brought to your home to do your wash. What would you see?

You would see a washer that is different from all other washers.

You would see 50 lbs. of dry clothes washed per hour—twice the capacity of ordinary washers.

You would see collars, cuffs and wristbands washed clean without hand-rubbing.

You would see a washer so compact and convenient-to-work with, that other washers would look cumbersome and out-of-date.

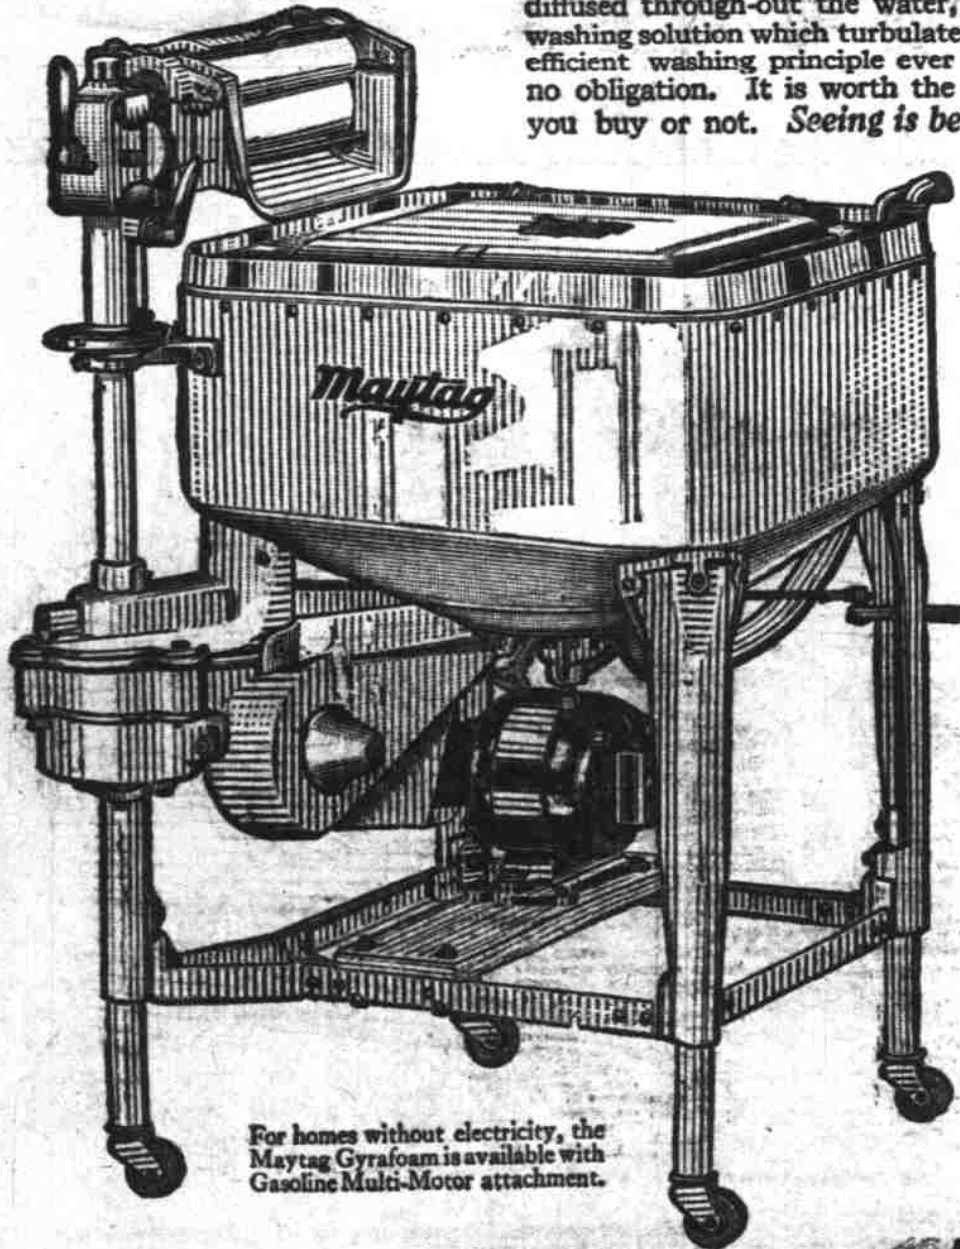

You would see grease-caked overalls washed clean as new.

You would see tubfuls of ordinary family wash cleaned in 3 to 7 minutes.

This startling washing ability is due to the

### Gyrafoam Principle

that amazingly efficient method by which dissolved soap particles are diffused through-out the water, creating a penetrating, thoroughly cleansing washing solution which turbulates through the meshes of the clothes—the most efficient washing principle ever developed. Phone us for a demonstration—no obligation. It is worth the slight effort to us to have you know, whether you buy or not. Seeing is believing.

For homes without electricity, the Maytag Gyrafoam is available with Gasoline Multi-Motor attachment.

Ask to see the new Maytag Ironer, too.

Deferred payments you'll never miss.
