

SILVERTON BACKS COMMUNITY CHEST

One Drive for Funds for All Organizations Considered Adequate

SILVERTON, Or., Dec. 10.—(Special to The Statesman.)—Five children have been discovered in the Silverton community who will have to be given their education at their homes because of conditions of their health, was the report of the committee in charge of this work at the regular meeting of the community council on Tuesday evening.

Other committees also gave reports, showing what the council had accomplished so far. The relief committee reported that some needy cases had already been assisted and that others would be attended to as soon as the committee is able.

It was also decided that the community chest would take care of all organizations such as the Girl and Boy Scouts, the YMCA, and the YWCA, so that but one drive for funds will be necessary. It is understood that the organizations represented in the council, and this includes all organizations in the community, will not support other drives within the city.

All organizations are to estimate their needs and hand in their budget to the committee before December 26. The budget committee will then make their plans and begin the drive for funds by the second Monday in January. The organizations are to give a detailed statement of how much and why they need the funds. The council budget or finance committee will then portion out the funds to the various organizations that usually have drives at Silverton.

Mrs. C. W. Keene was elected delegate to the county council.

LEGION AUXILIARY HOLDS ANNUAL VOTE

Mrs. C. M. Wary, President,
Mrs. Scott, Mrs. Nolan
Also Honored

SILVERTON, Or., Dec. 10.—(Special to The Statesman.)—At the annual election of officers of the auxiliary of the American Legion the following were named: President, Mrs. C. M. Wary; first vice president, Mrs. Russell Scott; second vice president, Mrs. A. R. Nolan; secretary, Mrs. A. J. Tins; treasurer, Mrs. Dewey Allen; first sergeant at arms, Mrs. George Tins; second sergeant at arms, Mrs. A. Bollester; historian, Mrs. Paul Wary; chairman of the executive committee, Mrs. Charles Johnson.

HUGE GOTHIC FORM OF THEATRE SHOWN

New Elsinore to Be City Asset, Roof Now Being Permanently Laid

The spouter system used to pour the cement for the Elsinore new theater under construction on High street for George Guthrie, owner of the Oregon theater, has been completely torn down, concrete work on the building having been finished last Saturday.

Forms have been removed from the main balcony, from the mezzanine balcony, and from all the walls of the building except the fire walls of the auditorium. It is expected these will be removed by the end of this week.

The plaster contractor started his labors Monday, and the work is well under way. The steamfitters are also on the job, and are making rapid progress.

Carpenter work on the roof having been completed, work of laying the permanent roofing has been started and is well under way.

Some conception of the size of the theater can now be obtained from the stage. The view of the balconies and auditorium reveal the theater is to be nearly as large as any in Portland.

Constructed entirely of concrete, even to the laying of the balcony floors, the theater will be one of the best built in Oregon. One modern feature of the theater is the entrance to the balcony. This opens onto the top row of the balcony, affording convenient entrance.

Another feature, said to be the only one of its kind in Oregon, is the mezzanine balcony. This makes the upper balcony the main one.

From both outside and inside the theater will be one of the most attractive in the state. Gothic architecture of the building will be taken into consideration in the interior decorating. It is understood that each floor will have a distinctive color scheme, although harmonizing with the whole.

PUBLIC UTILITIES LAUD ADVERTISING

"Must Let Public Know They Are Getting Good Service"; Mullaney

Next to good service by the public utilities comes the importance of having the people served appreciate that they are getting good service, to know what is behind the service, and to understand all the fundamentals of the industry, in the opinion of B. J. Mullaney, vice-president, Peoples' Gas Light and Coke company, Chicago, and one of the foremost public utility men of the country.

"Advertising of the right sort in the home town newspapers of every community served may be confidently expected to bring about this understanding," he says.

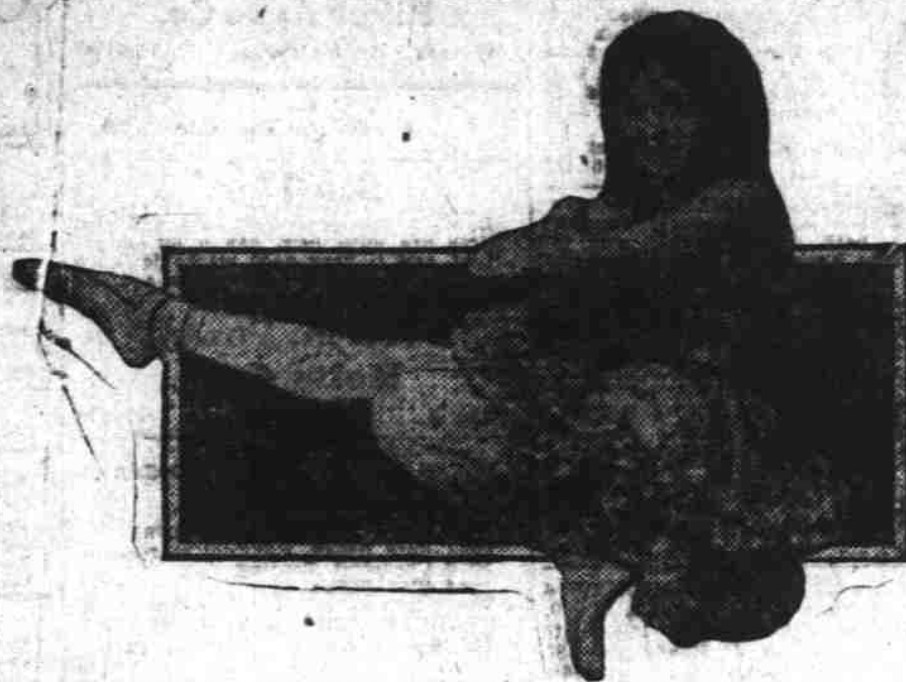

"If understanding of the public utilities can be developed to a point where it will reduce contests, hearings, and rate litigation to a minimum the aggregate cost of all the advertising and all the information committee work and all the employees' organizations of all the utilities will still be a negligible item in comparison with the total expense of the industry in preventing confiscation by resort to defensive activities before courts and tribunals.

"But greater than that—the spectre of communism will fade away and the political buccaneer will be able to recruit no crew under his red flag. The industry will have performed a duty which it owes to the state—a duty no less important than the duty it owes to its customers to serve them well."

MANY BILLS INTRODUCED

WASHINGTON, Dec. 10.—(AP.)—Abolition of the shipping board and other federal agencies; interstate commerce commission and investigation of the navy department and the Shenandoah disaster were just a few of the proposals advanced in 1,045 bills and resolutions introduced today in the senate.

HEILIG TODAY ONLY

Five excellent acts of Association vaudeville have been billed by the management of the Heilig theatre for this afternoon and this evening.

HEILIG VAUDEVILLE HAS FINE PROGRAM

Association Bill Contains Well-Balanced Acts; Comedy Is Excellent

Five excellent vaudeville acts are offered today by the Heilig theatre. The acts are billed over the Association circuit.

Local persons, who appreciate male quartets will find much to enjoy in the offering of "The Four of Us." This is because these delineators of popular melodies sing with a spice of novelty and include many humorous tricks and bits of business in their act. They possess pleasing voices and are said to be harmonists in every sense of the word.

Donohue and La Salle have a novel offering billed as "Unique Novelty." The man is exceptionally versatile, the big feature being an 11-foot jump from a piano lamp into a sugar barrel and winding up with a forward somersault from the barrel. The young lady is a contortionist of merit. When we see a comedian, sans

everything in make-up and costume, relying entirely on his wit, humor and ability to thoroughly amuse an audience, we naturally must accord him credit for his talents as an entertainer and commend him to the theater-going public at large. George Latour, billed as the "Manipulating Rascallion," perfectly fills the bill as a representative comedian who depends solely on his ability to create laughter by his wit and humor. George appears in a neat white tennis suit and keeps up a running fire of English, Scotch and Irish stories, intermingled with topical chatter, while juggling tennis rackets, balls, plates, billiard cues, clubs and cigar boxes.

Verna Haworth and company will offer a trespichorean presentation that is handsomely mounted, and running over with exceptional talent. Not only does this apply to Miss Haworth but the other members of her little company as well.

Eadie and Ramsden appearing in an act entitled "Something and Nothing," actually do a number of entertaining stunts, but perform so easily that it seems like nothing. The contortionist twists his body into incredulous positions and as quickly slips back into normal shape.

OLD GOLD FILLINGS GO IN ARMY KETTLE

Captain Pitt Says Day's First Gift Made by Woman Without Money

Gold fillings from her teeth was the contribution made to the Salvation Army yesterday by an elderly woman resident of Salem. Incidentally, she was the first person in Salem to drop her share in the Salvation Army Christmas cheer pots, which were posted at various parts of the city yesterday morning.

She placed the gold fillings in a small glass vial, and carefully dropped it in one of the pots, declaring she wished to help with the giving of Christmas cheer. She said she had no money to give, but with the desire to help this year, she decided to give the fillings.

The pots in general fared well during the course of the day.

RELICS OF JAPAN FOUND

TOKYO.—Scientists of Keio university are reported to have made important discoveries in a shell mound which they recently excavated in the forest of Koyasu, near Yokohama. Human bones, earthenware, flint arrowheads and ear decorations made of shells lead anthropologists to believe they have found evidences of a primitive tribe which inhabited the land of Mikado thousands of years ago. Further excavations in the district are being planned.

"The Birchfield"

THE SUPREME GIFT TO THE HOME

After all, there is nothing which can equal the gift of an Upholstered Living Room Suite to the home. The "Birchfield" living room groups which we feature at this time are the newest of styles lowered to new levels of economy for the Christmas shopper. Full webbing bottoms, hardwood frame, spring back and spring, filled loose, cushion seats, unite in pronouncing this a value second to none. In the new and original designs included in our display there is variety to surprise and delight the home furnisher, and there is range so wide as to meet any demand.

"Birchfield" stands the test of hard wear upholstered furniture which achieves a high degree of beauty, the ultimate in luxurious comfort. Its designers have fashioned it with an eye to correctness of silhouette and modeling. It is decidedly the type of furniture of which it may be conscientiously said: "There is no finer upholstered furniture made."

Beautiful Your Home—Save Rent—Save Space

Buy a

Biltwell Davenport Bed

You can add beauty to your home and have the added guest room that you have desired with the "Biltwell" Davenport bed. For the home that has even occasional need of extra sleeping space the "Biltwell" proves its worth in usefulness. Its graceful design and low easy lines entirely disguises the fact that it conceals a completely equipped bed—ready for instant use. Unless you have seen the beautiful Davenport beds you have no idea of the convenience that they offer. Giese-Powers are sole selling agents in Salem for full Nachman unit spring construction for "Biltwell" Davenport Beds.
