Shrine to the memory of those who fell on the battlefields. Leading artists have been invited to submit designs for the shrine.

Only dolls with bobbed hair need apply for this year's Christmas market, declares the owner of one of Berlin's oldest toy shops. His shop is a regular "doll clinic" for no less than 150 dolls are turned in daily for repairs.

Chicago Citizens Committee Adopts Novel Method to Halt Injuries
CHICAGO, Dec. 1.—The greatest child safety drive in the history of Chicago is now under way with the distribution by the Citizens' Child Safety Committee of a half million "Always Be Careful" song sheets among the school children of that city. The plan is to distribute a new song sheet each month for the next year. The A B C song sheet contains, in addition to a safety song, a safety commandment and colored illustrations showing how children meet with accidents.

Opening Days of Oklahoma Strip Enacted at Kimberly
KIMBERLEY—Scenes similar to those enacted in Oklahoma when the "strip" was thrown open for settlement, have been witnessed repeatedly in different parts of the South African diamond districts within the last few months on grounds which heretofore had been considered barren.

There are thousands of persons who have become nomads, wandering about the country and engaging in every rush possible to stake out claims at the opening of diamond diggings such as took place some weeks ago at Oersonkral near Bloemhof. The race, as in Oklahoma, is made on foot, by men and women on horseback while others follow up in the rear with their "covered wagons."

ground-permitting, to furnish the diamond seekers with supplies. The area to be staked out is proclaimed by the government, usually after some lucky prospector makes a discovery of traces of the precious stones. Then the race of the diggers begins. Claims are staked and a new town appears.

The disappointment of the diamond diggers has been great. At most but two percent of the men make a stake, and in most cases a fortune slips through the miner's fingers through drink, gambling and sordid living. Only 25 percent make a decent living, 10 percent some kind of a living, and quite 63 percent sink into increasing distress, said an investigating committee.

Isolated Town Has No Road, But Boasts an Automobile
ETNA MILLS, Cal.—Cecilville, and isolated mountain town, hasn't access to a road to the outside world yet, but has its first automobile just the same.

All the mail and freight for Cecilville and the upper Salmon river country is delivered by mule train along the trail. Roscoe and Archie Farnsworth, Salmon river miners, were unwilling to wait two years necessary for the completion of the mountain wagon road which the forest service is building.

They wanted to use their car on a short strip of road between their home and Cecilville, built years ago by a mining company. So they drove, pushed and squeezed their machine along until the trail became too steep and narrow for further progress. Then they took the car apart and loaded it on pack mules for the last lap of the journey.

German Hot Dogs Again Capture Gay Paris Cafes
PARIS—Frankfurters, sauerkraut and pilsener on the one hand and peace conferences on the other seemingly are unrelated, but they are in France.

For a long time Paris tried to get along with Strasburg sausages. They were on the menu at the Strasburgers, but the public would have none of them. Then the real Frankfurter hot dogs were imported under various names to disguise their German origin.

Since the Locarno conference, dropped and now Paris is eating Frankfurters and sauerkraut and washing them down with pilsener just as it did before the war.

Gold Hill—Noted geologist reports that Curry county has vast wealth in minerals.

SONG MAKES STREET SAFE FOR CHILDREN

Chicago Citizens Committee Adopts Novel Method to Halt Injuries

CHICAGO, Dec. 1.—The greatest child safety drive in the history of Chicago is now under way with the distribution by the Citizens' Child Safety Committee of a half million "Always Be Careful" song sheets among the school children of that city. The plan is to distribute a new song sheet each month for the next year. The A B C song sheet contains, in addition to a safety song, a safety commandment and colored illustrations showing how children meet with accidents.

The cost of printing and distributing the song sheets is paid for by selling the space on the back cover to local and national advertisers. By this method no donations are required or asked. The whole campaign is self-financing. A committee of 100 prominent Chicagoans have sold this space. Because of the success of the campaign, plans are already under way to carry it into other large cities. Those who have made a study of the child safety movement feel that in the distribution of these song sheets lies the direct way to educate children to be careful on the streets.

Lure of America Is Cause of Decay in Irish Speech
DUBLIN—America's lure for sons and daughters of old Erin is held largely responsible for decay of the native Irish language.

A government commission seeking to find the best means of preserving the language found that 75 per cent of the girls and boys born in Irish speaking districts look upon the United States as their future home.

Even in the Dingle peninsula in Kerry, which is the principal home of the native speech in Munster, it was learned that the children of one parish who left school between 1912 and 1922, more than half emigrated and many of those left are only waiting their turn under the quota, or financial assistance from friends in America.

PRISONERS OF INFINITY
We are the prisoners of an infinity without outlet, wherein nothing perishes, wherein everything is dispersed but nothing is lost. Neither a body nor a thought can drop out of the universe, but of time and space. Not an atom of our flesh, not a quiver of our nerves will go where they will cease to be, for there is no place where anything ceases to be.

—Maurice Maeterlinck.
