

Miniature City Built by Business Man for Diversion

DENVER, Colo. — A Denver man's diversion from the cares of his business has resulted in one of the major attractions along the city's mountain park drives.

From a modest beginning has grown Turner's "Tiny Town," a miniature village in Turkey Creek canyon, 30 miles from here. The "town" covers several acres, has electric lighted streets, a real railway system, a small steamship that plys on a miniature lake as well as smelters and mines on the hilly slopes and outlying ranches, dairy barns, silos and farmhouses.

The spire of the "cathedral" is on the level with the head of a six-foot man when standing erect; a child figuratively wears seven leagu ebouts when it strides about the streets; and the railway station makes a comfortable home for a small dog.

More than a decade ago George

E. Turner felt he must have some outdoor diversion. He did not care for fishing, golf, hunting, or hiking, so he seized upon the plan of building the "Tiny Town" across the road from his mountain summer home.

Two Forms of Death Punishment in Kentucky

FRANKFORT. — Kentucky is unique in having two forms of death punishment, hanging and electrocution. Hanging is for crimes against women; electrocution for murder.

The 1920 legislature passed the hanging law. A Lexington hanging recently was the first one under the act which brought back the discarded gallows, which Clerk Goodman of the Kentucky court of appeals, said has deterred unlawful commissions pronounced.

IMPROVED CHEV IS BEAUTIFUL IN LINES

New Standard Set for Small Cars; Four Cars Produced in Closed Models

A new standard of small car beauty has been established by the improved Chevrolet models which were displayed for the first time at the New York Automobile Show.

Besides the landau, latest of the Chevrolet products, the closed group includes a sedan, coach and coupe. All have bodies by Fisher. The company also produces a roadster and touring car and two trucks of one-half and one ton capacities.

Despite the many improvements and refinements on the Chevrolet cars, prices of all models were substantially reduced Jan. 1.

The complete appointments and distinctive lines of the landau make this car the aristocrat of the Chevrolet closed line. The exterior body panels, disc wheels and hood are in the new Arizona gray color. The body stripes are in gold. The leather-covered read quarters with the landau windows and graceful landau bars adds a final touch to the appearance of the car. The gray of the interior harmonizes with the outside panel colors. The landau interior equipment includes dash and dome lights, fender shades, foot rest, robe rail, smoking set and door pockets.

The coupe is finished in the Arizona gray; Duco, the coach in Bloomfield gray and the sedan in Algerian blue. The front seat of the sedan has been given a slight increase in tilt. This affords greater comfort to the front seat passengers and increased leg room to those in the rear seat. The sedan has a foot rest similar to that in the landau.

All of the closed cars have the VV one-piece ventilating windshield, automatic windshield wiper, sun visor, parking lamps and Ternstedt interior hardware.

The attractive gun metal gray Duco finish is retained on the two open models.

MARIE BREHM DIES

LONG BEACH, Cal., Jan. 21. — Injuries received in the collapse of a grandstand at Pasadena New Year's day led today to the death of Miss Marie S. Brehm, 66, who in 1920 nominated William Jennings Bryan for president on the prohibition ticket and who herself was the party's candidate in the same year for vice president.

YOUNG WOMEN TOUR RIM OF UNITED STATES

Miss Elsa M. Modrow, seated, and Miss Grace Treadwell, both of Minneapolis, Minn., with their Ajax sedan in which they are making a circuit of the border states of the country. Starting from Minneapolis last July they toured the west and plan on dividing the winter between California and Florida, returning to Minneapolis next July via the Atlantic seaboard.

PRODUCT OF STAR COMPANY EXTOLLED

New Star Six Announcement Brings High Approval From Dealers

OAKLAND, Jan. 23. — All week long, telegraph offices east, north and south of here have been sending every superlative adjective in modern language from Star distributors and dealers to executives of the Durant Motor company of California, following the initial western showing, last week, of the new Star sixes.

Hundreds of thousands all over the west have ridden in and driven the new Star six demonstrators, more than a million interested motorists of the general public have seen and inspected the car, and words of praise over the new creation—the lowest priced six cylinder car in the world—have flooded into the big factory here in wires, telephone calls, and through the mails.

Never, according to Norman DeVaux, vice president and general manager of the Durant organization here, has any product known to him received such a tremendous ovation. Never has the factory been besieged with so many orders in excess of a possible supply. Never in the company's history has the future held forth such a bright promise of rapid business expansion.

And now, DeVaux commented,

"with an organization of approximately 600 Star dealers in the west, with news of this new Star six being broadcast to every possible interested motorist, we are surely entering our greatest era of prosperity." The new models, he added, have created an impression in the public mind that was never believed possible when the car was first announced and shown to the dealers.

"A new car is certain to create interest," DeVaux stated. "The low price of this new six was certain to add greatly to the interest. But when we receive hundreds after hundreds of messages of good will regarding the new product, the realization is far in excess of our anticipations."

LARGE GAIN SHOWN

The recent absorption by Dodge Brothers, Inc., of Graham Brothers, the largest exclusive manufacturers of motor trucks, lends special interest to the new business record achieved by Graham Brothers during 1925.

Shipment by the truck industry as a whole for the first eleven months of 1925, according to official figures recently released, totaled 426,487 units, an increase of 76,685 or 21.9 per cent over the record of 349,802 for the corresponding months of 1924.

The number of state highway patrolmen will be tripled in Washington.

The administration's tax reduction bill included a saving of \$58,686,734 for the motorists of this country.

Exceptional Values in Used Cars

- Ford Roadster '24, First class condition . . . \$300
- Ford Touring without starter . . . \$50
- Oakland '23 Speedster \$775
- Oldsmobile Sedan, good rubber . . . \$750

Cheaper Clothing May Result From Discovery

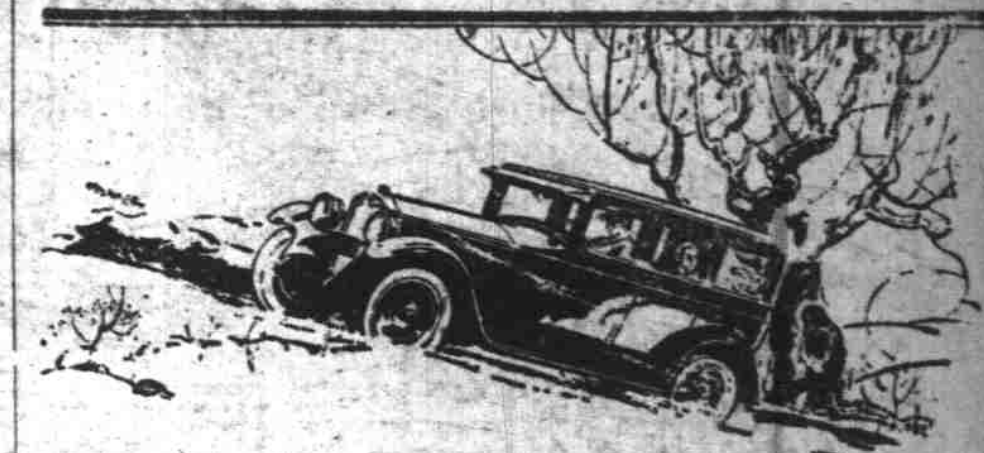

MANCHESTER, England — A wool substitute, said to be just as warm and comfortable as the real thing, is expected by its inventor to result in cheaper clothing.

The cloth is called Woolless and the manufacturer explained it consists of 70 per cent ure fiber

and 30 per cent ordinary recovered wool.

Supplied in the raw state, the material will sell at approximately three-quarters of the price of cheapest wool.

Chevrolet is the only make of three-speed transmission car that has attained the two million production mark.

No Demonstration can reveal all of BUICK Excellence

ANY time you drive a Buick you will wonder how such a remarkable car can be sold at such a moderate price.

In just a few minutes you will realize that you are starting, stopping, parking, driving with much greater ease and security. And that you are surrounded by quality and luxury which rank with the very finest.

But demonstration will tell only part of the Buick story, and you should know all of it. A demonstration cannot show you the enduring

stamina of body and chassis that belongs to Buick. Years are necessary for that. It can only suggest the powerful ability of Buick's 75 horsepower Valve-in-Head engine, built for hills. It cannot tell you how thoroughly the Buick "Sealed Chassis" and the Buick "Triple Sealed" engine will protect Buick performance on dusty, gritty roads.

And it cannot even hint of the mental ease you will enjoy, with Buick Authorized Service "just around the corner," everywhere in America.

BUICK MOTOR CO., FLINT, MICHIGAN, Division of General Motors Corporation

the Better Buick

Better Buick Six Cylinder Valve-in-Head motor cars range in price from \$1,250 to \$1,995. For Buick factories. Among the Buick when and closed models there is one that will meet your desires.

"TOMORROW'S CAR TODAY"

\$895 here

Healthy Praise for the New STAR SIX!

THE tide of Star Six popularity rolls overwhelmingly across the country since the car was first displayed one week ago! On the Pacific Coast, motor-wise millions give big, healthy applause!

And no wonder . . . forget the low price of \$895 delivered here: Think only of the tremendous power of the smooth, six-cylinder Continental motor! Think of the long, speed lines of the two-tone bodies on the low slung, rugged frame; think of the double weight top material and the Spanish leather upholstery.

Think of the genuinely pleasant riding ease because of 90 inches of semi-elliptic springs for the 107 inch wheelbase.

"The days of unsafe, inadequate brakes are over." — Star Six has famous Bendix Four Wheel Brakes as standard equipment. Bendix type brakes are used by Packard, Locomobile and by 90 per cent of all European cars.
