SOFT COAL IN DEMAND
SEATTLE, Jan. 23.—The prolonged anthracite coal strike has increased the demand for soft coal by \$5,000,000 tons. Walter Barnum, president of the Pacific Coast Coal company, declared here today. This increased demand has made it possible for his company's Burnett mine to remain open for at least another year, instead of closing immediately as had been feared, he said.

SEE STEP-BIFOCAL (MULTIFOCAL)
"SEE-STEP" Multifocal (Bifocals) are just what their name implies—bifocals that do not interfere with your walking—going up and down stairs—sweeping—ironing—dishwashing, etc.
"SEE-STEP" Multifocals are designed for the average bifocal wearer—the housewife and the man on the street. You will, if one of these, secure a fuller and more satisfactory service from a "SEE-STEP" correction.
People of bifocal age (forty years and older) who have never been satisfied with the service of ordinary bifocals, or who have not been able to wear them, have found complete comfort in "SEE-STEPS."
Golf players pronounce them ideal for business or play, perfect sight for driving from tee-fairway—hazard or rough—a boon for golf players who have to wear bifocals.
"SEE-STEPS" are bifocals that do away with watching your step when going up or down stairs, stepping up and down on the streets—in fact, any place where blurred vision at your feet would bother you.
