### SALEM BATSMEN LISTED IN LINEUP

#### Batterymen Entering Fourth Week of Limbering, Prospects Bright

UNIVERSITY OF OREGON, Eugene, March 22.—(Special)—Under a bright spring sun Coach William Reinhart, baseball mentor, started regular practice this week. As a means that all baseball aspirants must remain on the campus instead of going home.

The batterymen have been working out for the past three weeks in an effort to get their arms into condition. Everything looks like a great season for Oregon although the coach is not inclined to be optimistic.

Nine pitchers, one for each position with the exception of third base, are listed among the candidates. This might indicate that Coach Reinhart may have things easy in intercollegiate circles this year. But, taking his word for it, the entire squad is sadly weak in hitting. The coach has devised a hitting cage in which each man spends about 15 minutes daily.

The list of veterans includes two stellar pitchers, Ray Williams of San Francisco, and Fred Harrison of Astoria, besides Rex Adolph of Salem, first base; Howard Hobson of Portland, second base; Fred West of Portland, shortstop; Jack Bliss of Berkeley, catcher; George Mimmough of Portland, Lynn Jones of Salem, and Frank Reinhart, Salem, outfielders.

Several men from the 1925 freshman squad show strong indications of causing an upset in this lineup of veterans, the coach intimated, as their playing last season was outstanding. This includes William Ashby of Salem, pitcher, who turned the varsity men down at regular intervals in practice games; Hugh Wallace of Portland, first base; Walter Fenwick of Springfield, pitcher; Clifford Kuhn of Lebanon, and James Hanley, third base.

The pitching staff will be rounded out by Raymond Murray of Eugene, and William Bamber, Goldendale, Wash., lefthanders; Dave Adolph of Salem, William Baker, Independence; Alfred Fries, Junction City, and Harry Dutton, Eugene, who have had

considerable experience, but lack intercollegiate competition. Oregon's lineup this year will probably see Hobson shifted from second to third base to fill the shoes of Sam Cook, '25, as several men look like finds for the second base position. West may be developed into a pitcher to take his turn with the regulars.

Other men out for positions include Arnold Kintski of Astoria, infielder. Kintski played on the '24 freshman team but was unable to turn out last season for the varsity. He is small but speedy and a good hitter. He will probably be tried at shortstop. Charles Orr of Eugene, catcher; Eric Peterson of Lakeview, outfielder; William Dallas of Modesto, Cal., third base; York Merren of Portland, second base, and Clarence Toole of Portland, outfielder.

The Oregon schedule this season calls for eight games, four of which will be played with the University of Washington and four with the Oregon Agricultural college.

The reason for this, J. W. Benefiel, graduate manager of the university, stated, is that the northwest section of the Pacific coast conference was split into two divisions, the western and eastern sections. This was made necessary in order to curtail the expense of traveling to the various cities to play but one game.

The winners of the two divisions will meet in a series of three post-season games to decide the championship, the place to be decided in the future.

The Oregon season will open April 30 in Seattle with the University of Washington line as opponents. A second game will be played May 1 before the team returns home to meet the Oregon Aggies May 7 and 8 in Eugene. Washington will come to Eugene May 17 and 18 and Oregon will then close its season in Corvallis May 22 and 23 against the Oregon Aggies.

Alma Rubens is ideally cast in the Fox Films production, "The Gilded Butterfly," coming to the Heilig theater Wednesday. In which she is co-fetted with Handsome Bert Lyell. These two prima favorites portray a typically American couple from the wealthier class, the girl a social butterfly and the man energetic and ambitious.

The story itself deals with the problem which faces many parents today—how to raise a daughter. American daughters are notoriously spoiled and humored and in this interesting story there is a sermon preached in a subtle manner that will interest parents and daughters alike.

Alma Rubens is Linda Haverhill, the daughter. Her father, Jim Haverhill, is a social parasite, who has been living on his friends' and family for years. He has raised his only daughter in luxury with the hope that she will eventually marry money. He does this partially because he can't bear to see her live without having the dainty trifles other girls have, and partially because he knows a wealthy marriage for her means independence for him.

The results of his training forms the basic theme for the rest of the story. It is filled with unusual situations, cleverly worked together into a perfect whole, and runs smoothly to the thrilling and unexpected ending.

Because of the lateness this year in collecting taxes, the school board finds it necessary to borrow \$25,000 to meet the coming tax roll. The chairman and clerk were authorized by motion to pay a sum of over \$3000 as semi-annual interest on the district's indebtedness.

The board took official action making Monday, April 5, a school holiday, in observance of Easter. Director L. J. Simeral pointed out that the baseball diamond at Parrish junior high school needs leveling. The building committee was authorized to spend not more than \$25 to have the leveling done.

Superintendent Eug was allowed expenses for his coming trip to Spokane to attend the meeting of the commission on accrediting of the northwest association of secondary and higher schools. Mr. Eug is chairman of the commission.

Your subscription will be from a vote standpoint. And that is what you are after—votes—or you should be after if you expect to be one of the big prize winners. The Statesman's gifts are to be distributed to those who deserve them—to those who make the best records in the vote column. "Wishes" won't get anywhere in this campaign, but the vote producers will be handsomely rewarded in accordance with the effort put forth. This is a campaign of "live ones."

The race in the first and second periods was truly a neck-and-neck affair, and is attracting attention all over this territory. It is interesting to see which of the several contenders prove themselves the most popular in the list—the owners of the three cars.
