OIL FLAMES ARE FOUGHT DAMAGE OVER TEN MILLION, REPORTS INDICATE

SAN LUIS OBISPO, Cal., April 7.—(AP)—A force of 400 men, a steam shovel and a corps of trucks and other equipment battled in a horrid heat tonight against flames which fed on four and possibly five huge oil reservoirs of the Union Oil company tank farm near here.

The fire is described as the worst in the history of the petroleum industry. Between 3,500,000 and 4,250,000 barrels of refining oil are in the tanks, the offices of the Union Oil company reported four reservoirs in flames while the sheriff's office here said a fifth reservoir had been reached by the blaze.

The loss is estimated in excess of \$10,000,000. The first reservoir, No. 5, with a capacity of 750,000 barrels, was struck by lightning at 7:30 o'clock this morning. The flames spread in turn to reservoirs Numbers 6, 3 and 7, with a combined capacity of about 3,000,000 barrels. A fifth reservoir has a capacity of 750,000 barrels. A sixth reservoir has not been reached by the fire. There are also fifty surface tanks in the field and the fight is centering on keeping these from being ignited.

ALCOHOL GRAFT PLOT REVEALED

(Continued from page 1)
the treasury, who has charge of prohibition enforcement, declaring: "General Andrews is the best thing that ever happened for prohibition."

Alcohol diversion has decreased, he said, since Andrews "took that situation by the throat" last September. Taking the alcohol distilleries around New York alone, he estimated that General Andrews' "alcohol squad had reduced diversions to the point where the bootleg traffic had been lessened in the sum total of \$216,000,000 in potential sales.

The district attorney disclosed that bootleg alcohol from this country finds its way into Canada. "The dry United States is exporting bootleg industrial alcohol into Canada," he said, "to help the Canadian bootleggers beat the Canadian government out of taxes."

Getting back to his own district, Mr. Buckner told of improvement there since he took office thirteen months ago. He declared that at that time he had found the federal building "a seething mass of fixers," bootleggers, writers and others arrested on charges of law violation.

Federal judges told him, he added, that the "very atmosphere of the building breathed of collu-

sion," and he also had information that jury fixing went on within the federal building itself.

Arrests for petty offenses against the prohibition law totaled about 50,000 a year, he said, adding that the New York city police commissioner had told him that he received 180,000 complaints a year, directed mostly against "speak easies," and that of course he had to act upon them. "The thousands the police arrest are only a small fraction of those who violate the law, are they not?" asked Senator Reed.

"Probably," Buckner said. "How small a fraction?" pursued Senator Reed. "I could not say; I have made no estimate."

"As a matter of fact are there not millions of violations in New York city every year?" Senator Reed insisted.

"I will not commit myself on that," Buckner replied, whiskey seized by prohibition officers, the district attorney said his chemists found traces of poison in 98 per cent of it.

"The character of this liquor depends upon the conscience and technique of the bootlegger," he declared, as the spectators roared with laughter. Attorney Buckner disclosed that an investigation of the drug stores of New York showed that they drew out of the bonded warehouses twice as much liquor as the physicians of New York could prescribe on the legitimate prescription blanks issued to them at the rate of 100 every three months. Assuming that the druggists sold the pure stuff, he estimated total possible legal sales on prescriptions at 240,000 gallons a year, and said the records showed withdrawals of 480,000 gallons by the 500 drug stores in greater New York licensed to dispense whiskey.

STORMS SWEEP THROUGH SOUTH

ly yesterday when the engine and a freight car on freight train No. 61 left the tracks and partly turned over on a siding at Quincy Junction. The car contained hogs and 17 of them were killed. Ray Dryden, a brakeman, was caught between the tender and engine and one of his ribs was

broken. This wreck delayed west-bound passenger train No. 1 which arrived here five hours late.

LOS ANGELES, April 7.—(By Associated Press.)—Torrential rain today that brought the season's fall to above the normal mark, and accompanying high winds at the beaches, which in some localities unroofed buildings, left southern California thoroughly soaked and blown tonight.

The second storm of the week, which swept in from the ocean last night and continued throughout the day, sent the Los Angeles seasonal precipitation .08 inch above the normal to a mark of 14.35 inches. The record for the two storms of past few days is 4.50 inches.

All records for rain in the month of April were smashed with the month only seven days old. The April total so far is 5.06 inches. The United States weather bureau here announced that no time in its 47 years' existence had precipitation for April reached the 1926 aggregate.

INCOME TAX ENDORSED CLACKAMAS COUNTY DEMOCRATS ADOPT PLATFORM

OREGON CITY, April 7.—(By Associated Press.)—Clackamas county democrats meeting here today adopted a platform endorsing the income tax, opposing the entry of the state into the hydroelectric business favoring reduction of automobile license fees and the abolition of many state boards.

Bert E. Haney, former member of the United States Shipping Board was suggested as the party standard bearer in the race for the United States senatorship and W. C. Culbertson, Portland hotel man received the meeting's approval as candidate for representative from the first congressional district. No recommendation was made for the nomination for governor.

The meeting recommended Marshal Dana, Portland newspaperman, H. G. Starkweather of Clackamas and Hugh McLean of Coos county as alternates in event Haney does not enter the senatorial contest.

STUDENTS HEAR McNARY ATTORNEY ADDRESSES WIL- LAMETTE ORGANIZATION

John McNary, prominent Salem attorney, a member of the Oregon bar for 30 years, addressed members of the Blackstone club, Wilamette university student law organization, at its monthly meeting held Wednesday. His topic was "Practice of Law."

During his talk he told of the legal conditions in Oregon during his first years here. William McKinney, K. Randall and Martin Fereshtelan were guests. George A. Rhoten, a student, spoke on "The Income Tax," and Oliver C. Crowther on "Legal Reform."

The next meeting will be held the first week in May.

ASK NATIONAL BANK TAX

The income of national banks is taxable under a new state income tax bill filed in the offices of the secretary of state here Wednesday by the Oregon state grange and the farmers union.

The new bill is a substitute for a somewhat similar bill filed by the grange and farmers union a few weeks ago. The original bill made no provision for taxing the income of national banks, which was said to be permissible under the national banking act.

The new bill also provides that in case all revenue of the state exceeds the six per cent limitation because of the operation of the income tax law, such income would be legal.

National banks, under the new bill, would be subject to tax the same as corporations.

MENCKEN IS ACQUITTED

EDITOR SAID NOT GUILTY OF BOSTON CHARGES

BOSTON, April 7.—(By Associated Press.)—A touch of bright green was added again to the rainbow-hued newstands of Boston tonight.

Judge Parmenter in municipal court ruled that H. L. Mencken, editor of the American Mercury, that appears in a foliage colored jacket, had violated no law in

selling copies of the magazine of the April issue of Boston Common last Monday. Mencken came here expressly to have himself arrested after J. Frank Chase of the Watch and Ward society had succeeded in having the magazine's sale stopped on the news stands of Massachusetts and Rhode Island. Chase had charged that an article in the magazine tended to "corrupt the morals of youth," but Judge Parmenter, after reading the article, said he saw nothing immoral or improper in it. He upheld the contention of Arthur Garfield Hayes, Mencken's counsel, that the magazine was intended for circulation among a highly intelligent class of readers and not for the immature.

Give your pipe a chance!

SOME pipes were "born with two strikes on 'em." Just never had a chance to offer their best. You can judge your pipe only by the tobacco you put in it. If you haven't smoked P. A., your pipe hasn't had its chance. To those men who know the keenest pipe enjoyment, Prince Albert stands out like a beacon of cheer on a moonless night.

P. A. won't bite your tongue or parch your throat, because the Prince Albert process cut out bite and parch right at the outset of P. A.'s brilliant career. This means that you can hit it up with your jimmy-pipe and P. A. from the minute breakfast is over until you nestle down between the sheets at night. You not only can, but will!

Prince Albert has put pipes into the mouths of more men than any other tobacco that ever came down the pike... and has kept them there! Because no other tobacco is like P. A. Cool and fragrant as mountain air murmuring through the pines. Sweet as the breath of spring.

If you're looking for proof, you needn't search beyond the nearest shop where they hand out smoke-gladness in tidy red tins marked "Prince Albert." Give your pipe a chance. Pack it with P. A. and light up. That first wonderful pull will tell you P. A. was simply made-to-order for you!

P. A. is sold everywhere in tidy red tins, round and half-round tin holders, and round crystal-glass humidifiers with sponge-moistener top. And always with every bit of bite and parch removed by the Prince Albert process.

PRINCE ALBERT

—no other tobacco is like it!
