Where Are Our Superwomen? What type of woman does man declares Mr. Powel. most admire?

That's the question that constantly is being asked and answerming up of the replies we find that ideals have varied not only according to personal viewpoints but with time and customs.

For instance, there was the famous artist, Romney, one of whose | self to sudden death. favorite models was, as all the world knows, Lady Hamilton. Now, Lady Hamilton, if her porthere was much of the dainty, docile, delicate feminity so famed in song and story. If there had been could she have drunk to the death of a culprit hauled up and hung a yardarm for her special benefit, and that she might add the thrill of such a diverting spectacle to the thrills already experienced in a hectic lifetime? We are informed, too, that no less a hero than Lord Nelson himself ordered the hanging because of his anxiety to deny no single wish or whim of the lady of his fancy.

What type woman, Lady Hamilton? Strong-minded, to say the least. Hartford Powel, Jr., writing in a recent issue of Collier's Weekly, termed her masterful, says she was marked with the same dominating stripe as was Catherine of Russia, or Elizabeth of England. Virile women these, with intellect of Machiavellian cunning, of robust physical health. with achievements to their credit in the logbook of the ages. Great women, but lovable. Well, scarcely! Too dangerous specimens of their sex to invite the attention. to attract the admiration of the possessively inclined male. However, that is only our opinion, and it's all wrong. In history there are no women of more amorous reputation! Lovers they numbered by the score, these womenwhose aggressive daring leaves us breathless, whose morals shock

> Curling and Waving Dries

The constant curling and waving demanded by present styles in bobbed hair, slowly burns the color, lustre and very life from the hair, leaving it dry, faded, brittle, and full of dandruff; then the hair roots shrink and the hair falls out fast.

Since girls, just must curl and wave the hair to appear . their prettiest, try "Danderine" to offset any bad effects. After the first application your hair will first application your hair will take on new life and that healthy, youthful lustre, become incomparably soft, wavy and appear twice as thick and abundant. Falling hair steps and dandruff disappears.

A 35-cent bottle of refreshing

A 35-cent bottle of refreshing 'Danderine" from any drug store er tollet counter will do wonders for any girl's hair. It goes right to the roots, invigorates, nourishes and strengthens them, helping the hair to grow thick, healthy and luxuriant .- Adv.

In direct contrast is the Clinging Vine. The stronger sex sighed for her favors, professed uned in as many different ways as dying devotion, pledged a lifethere are minds. And in the sum- time's protective service to the

traits tell the truth, was good to the woman who has disregarded look upon. But we can't imagine all the oughts and musts intended that in Lady Hamilton's makeup to fetter her sex and run herself and her men about as it pleased

down through the ages:-Thomas A. Edison, Henry Ford, Marconi, Nichola Tesla, Orville Wright, Mussolini, King Albert of Belgium Trotzky, the ex-Kaiser and Rudyard Kipling.

These may not be the names you or I would have chosen, but, at that, it is a fairly good list. Certainly it will be a long time before one name is forgotten. And against these 10 names, whether they survice in fame or infamy, Mr. Powel sets these 12 women:

Geraldine Farrar, Carrie Chapman Catt, Molla Mallory, Alice Paul, Ida Tarbell, Jane Adams, Edith Wharton, Amy Lowell (since deceased), Mrs. Fiske, M. Carey Thomas, Mary Pickford and Agnes Repplier.

Are the names well balanced? Judge for yourself. We would not presume to say yes or no. How do you think ranks the claim to greatness of these women compared to Florence Nightengale, Harriet Beecher Stowe, Frances E. Willard, Mary Baker Eddy and Susan B. Anthony?
