dump, being charger only the cost than 100,000 years ago a of covering.

While the two companies sub- by Professor H. H. Ninninger of mitted set prices as a basis to McPherson college, McPherson work on, both expressed willing- Kans., in Oak creek canyon, 25 ness to leave the final price fixing miles from here, he announced to

to members of the council. Prices submitted were such as: ible, embedded in pleistocene One 20 gallon can once a week, \$1 limestone. a month. Two 20 gallon cans once a week, \$1.50. One 20 gallon can twice a week, \$2 a month. Two 20 gallon cans twice a week, \$2.50. And so on, reaching a price gross earnings of \$942,619. of \$5 for one can at daily hauls except Sunday. Other charges would be gauged accordingly. For instance, on clean-up hauls, when persons allow refuse to accumulate all winter, and then require perhaps a whole truck load or haif truck load to take care of it, 25 cents a receptacle would be charged. It was brought out that these are the yery prices that are in ex-

istence under the present plan. Garbage will be dry dumped. nflammable stuffs will be burned. The remainder will be covered each day with dirt. Also, it is likely hydrated lime or crude oil will be spread on, and if this is done, both men declared positively that rats will not be seen around

the dump. And as for rats, it was brought out that there would be none at the present dump if they had not been furnished by the fairgrounds. As long as there is a fairgrounds, it was held, there would be rats at the present dump.
