EVENING..... 7:15 and 9:15

FLANDERS

FIELDS"

The year's sensation in the screen world.

Come early and be assured of a good seat.

Official Pictures of the World War taken by the Signal Corps

See War's Horrors

Troops huddled in the wet, muddy, trenches, waiting for the zero hour. A low command from the officer in charge and out over the top into that hell of shell fire, machine gun bullets and gas laden air. A buddy hit, a moment to make him a bit more comfortable, then shoving on again. That's war—that's what "ON FLANDERS FIELD" shows you. You will have a new conception of the real horrors of war when you see this wonderful film.
