TRAIL'S END

So this is the end of the long, long trail
That led us far apart—
A tiny house where a hearth fire glows
With tiny flames of gold and rose
To warm my hungry heart.

So this is the end of the weary path
That carried you away—
A little house, along whose lawn
The robins flutter in the dawn
And greet the happy day.

So this is the end of the drear gray path
That led across the sea—
A little house along whose walls
The ever faithful ivy crawls
And roses nod in glee.

Professor Fairbanks Gives Inspirational Talk on "Better Homes"

One of the leading features of National Better Homes week as observed in Salem was the illuminating lecture on "Better Homes" which Professor Leo Fairbanks of the Oregon Agricultural college gave on Friday afternoon at the Woman's club house.

His material was presented in a most delightful and tangible manner. He particularly stressed the advisability of every family owning its own home. One excellent argument offered by Professor Fairbanks was the chance it gave for the growth of individuality and the expenditure of leisure time where results really count. As Professor Fairbanks reminded we are destined to remain on the earth as long as we live. Why not own a little bit of it?

Professor Fairbanks commended the city planning system which is now being promoted.

Forty-six per cent of the people of America own their own homes, according to figures given by Professor Fairbanks, with each home an index to the personality of those that reside therein.

The Salem women who heard the lecture are greatly indebted to Mrs. Clyde Steusloff, chairman of the American Home department for securing this feature.
