

WOODBURN SQUAD DEFEATS SALEM

Take Second Game by 9 to 7 Score, Locals Score First, Then Lose

Woodburn high school's baseball nine was once more victorious over the Salem aggregation, defeating them 9-7. The game was played at Woodburn. The Salem boys permitted several of the runs by dropping pop flies and failing to gather them up in time.

Runs on both sides were scattered throughout the game, Woodburn having the falling inning of the game in the fifth when they scored four runs.

Salem started the scoring in the first inning with two runs. Kelly got to first, and Drager pounded out a home run. Two more runs were made in the second, but Woodburn tied the score at 4-4 in the third inning.

Lyons pitched for Salem, and handled the mound work satisfactorily. McKenzie, star pitcher for Woodburn, was knocked out of the box by the Salem lads.

This afternoon the Salem high school track team will hold a meet with the Benson high school team of Portland.

SALEM IS GRADER CITY OF COUNTRY

When Cannerymen Think of Graders, They Think of Salem, Oregon

Salem is becoming increasingly the city to which cannery men all over the country turn when they think of fruit graders.

C. J. Pugh & Co., with their factory and office at 550 South Twenty-first street, yesterday shipped a grader to South Haven, Mich., to the South Haven Preserving company. This company bought from the local plant a stock type of grader, which will be used in grading strawberries and other fruits.

There are two orders in from California for graders to be used in grading figs.

Last week, C. J. Pugh & Co. delivered to Libby, McNeill & Libby, at their big plant at The Dalles, a 1926 pear system that is capable of handling 50 tons of pears in 10 hours.

And thus the orders for graders come in from all over the country, and the work of turning them out piles up.

No question of fact is involved. "We are not unmindful that this law has been abused. In some instances it has enabled desperate criminals to delay trials and baffle courts about because, perhaps, the judges were prejudiced in favor of law enforcement. Circuit judges are being ordered about the state at the expense of the taxpayers and it may be, as counsel for the defendant contend, that courts generally are being delayed in the trial of cases on account of the operation of this law. However, these are matters which may be more appropriately addressed to the legislature. We are not justified in declaring a statute unconstitutional merely because of its abuse."

The opinion was written by Justice Belt in mandamus proceedings filed by W. S. U'Ren, Portland attorney, to compel Judge George R. Bagley of Tillamook county to grant a change of venue or call in another judge to preside at a divorce trial in which Mr. U'Ren was one of the attorneys. It was said that Judge Bagley refused to recognize the affidavit of prejudice.

With the exception of Justice Burnett all of the members of the supreme court concurred in the opinion.

T. A. Livesley, on a slogan of "meet progress and encourage and anticipate it," gave out his formal declaration of platform yesterday. In response to business men who have been urging his candidacy and who continue to work for his election.

Among projects considered of primary importance, Mr. Livesley points out the necessity of keeping pace with the city's rapid growth during the past few years, building for the development of the future.

"I favor immediate steps to establish a commission of city manager form of government as an economical and generally desirable measure of needed reform."

"If the city is not to own its water supply and distributing system, and make provision for the necessary large mains to insure an abundant supply at all points of use, then the city should give the present water company sufficient guarantee that they will not be molested in proceeding with the installation of a system adequate to meet present needs and care for the city's growth."

"A permanent bridge program should be laid out.

"I favor thorough, fair and impartial law enforcement."

These are the main planks of his platform.
