Attractive Design for Five Rooms

Here is an attractive design for a five-room one-story house. The exterior finish of stucco, with half-timbered effect on the covered entryway, is well adapted to a dwelling of this type. The paved terrace and brickwork are pleasing, also the treatment of the chimneys and the archway opening upon the tiny garden space.

FLOOR PLAN  
32.0 x 28.0  
PLAN NO. 589

The vestibule and coat closet at the front are well lighted from leaded glass windows. The living room is well proportioned and its wall spaces may be easily arranged for comfortable furnishing by eliminating the door into the breakfast nook.

If only two bedrooms are necessary the chamber adjoining the living room may be used as a den or a music room, an old-fashioned sitting room, sewing room, or play room for the kiddies. It's a wonderful little room, with its windows along two sides and closet in the corner.

The architect deserves praise for leaving the dining room out of his plan. Unless there is an abundance of room in the house, a dining room is one place where floor space may be saved for other uses. The breakfast nook is simply large for six people.

The two chambers at the back of the house are of convenient size, well supplied with windows and each provided with a good sized closet. A hallway connects all of the rooms nicely. The kitchen and back porch are excellently well arranged.

## CONCRETE FORMS READY FOR POUR

Chambers and Chambers Building to Be Well Advanced This Week

Forms to receive the concrete for the walls of the first floor have been completed for the Chambers & Chambers building on High, between Chemeketa and Center streets. It is probable that the pouring of these walls will be completed before the end of this week.

The building will house the Chambers & Chambers furniture business when it is completed. When the company moves from its present location on Court street, between Liberty and High streets, the site will be used by Lunsford & Krause, who will start the Salem Emporium department store, whose departments will be leased out to individuals to conduct.

## SWIMMING TANK TILE BEING SET

Final Effort Taking Place, Pool Expected to Be Open by Summer

With dedication week having drawn to a successful close at the new home of the YMCA, the only work remaining on the building is the finishing of the swimming tank.

Due to some slight error in technical construction the work has been delayed and tile setters have not yet started work on it. Just when the tank will be completed is purely a matter of speculation.

As soon as tile setters are able to start on the tank, however, it is thought the work will be finished in a brief time, as a heavy crew will be employed. It is the hope of the directors to have the tank finished by summer.

All the lockers have been put up in the locker rooms. The handball courts have been completed, and the gymnasium is now fully equipped.

## 24 HOUR WORKERS PROGRESS RAPIDLY

Bligh Building Forms Ready; Some Second Floor Beams Are Placed

Practically all of the forms to receive the concrete walls for the first floor of the building on the corner of State and High streets have been completed. The building, being constructed for Frank Bligh at a cost of \$250,000 for a theater, store and office building, is progressing rapidly.

To make for all possible speed in construction, a double crew is kept on the job, and overtime work is not infrequent. It is highly probable that all of the

concrete for the walls of the first floor will be poured by the end of this week, or early next week.

In the meantime, to save every hour possible, the beams for the second floor are being placed over the office portion of the building, and are resting on the forms, so that they can be supported on the concrete without any delay.

The auto service building on the corner of Ferry and High streets, also being constructed for Frank Bligh, is nearing the final round of the rough work. Most of the hollow tile work has been completed, and the framework for the wing buildings are practically finished. It is very likely that the building will be ready for business before the middle of June.

## Money, Wives or Ease of Mind Hold Off Stardom

HOLLYWOOD, Cal.—(By Associated Press.)—Opportunity vainly barks a knuckle on the doors of some leading men of motion pictures these days.

For some of the leading men of the screen are beginning to try skeptical teeth on the glittering coin of stardom. They have found that it is not all gold. Warner Baxter, who supports Bebe Daniels in her comedy features, signed a new three-year contract with Players-Lasky. He insisted on a clause which forbids the producers making him a star at any time or advertising him as a star.

It is a financial question, say those of stellar magnitude who agree with Baxter. A leading man, supporting well known woman stars, is good for ten years in pictures. With relatively small increase in salary, the man who is starred will average two or three years of popularity.

## World's Fair Representative of Women in Forty Nations

CHICAGO, Ill.—(By Associated Press.)—Forty foreign countries, including women of all races, will have representation in the second annual Women's Worlds Fair here April 17-24. Strolling entertainers of many lands will help sparkle up the aisles with native dances and folk songs and the operator of the tea garden concession will have foreign entertainers.

The active participation of large national women's organizations brings to the fair added opportunity for demonstration of women's achievements and occupations. Mrs. Medill McCormick, widow of the late Illinois senator, is general executive of the fair and the proceeds will go to the Juvenile Protective association. A month ago sale of space to exhibitors had assured financial success.
