Era of Literary Movie Is Forseen by Producer

HOLLYWOOD, Cal. — Screen theaters displaying pictures produced especially for intellectual audiences, distinguished by an utter disregard for the conventional happy ending and with closer regard for the realities of life, will dot the principal cities within the next few years, in the belief of B. F. Schulberg, associate Paramount producer.

Works of literature, including many of the classics and stories written especially for select audi-

ences will be pictured, he declares.

"The movement is not entirely new," he says. "The International Screen Guild already has undertaken the work with a selection of artistic films.

"When the move toward specialized films takes more definite shape, large producers will say to their pioneering directors: 'Here, go to this, or that, studio, dream your dreams, and make the pictures that you like to make, pictures into which you put all the sincerity of your art.'

"Such films will not make the gross-revenues that the present popular pictures do. Neither will they be produced at such expense, but directors and actors will probably be willing to labor for less in order to make the films they like, and build themselves lasting reputations as great artists."

NOTICE TO CONTRACTORS

Bids will be received for the erection of a factory building to be constructed in Salem at once. All bids must be in before June 12, at which time bids will be opened at the office of the secretary, 325 Oregon building. The right is reserved to accept or reject any bid.
