## EXPERIENCE OF WESTERN GIRL

### Found Cannery Work Too Tiring

The fertile valleys of Oregon help to supply the tables of America.

This is possible thru the magic of the humble tin can.

In one of the cannery establishments, Julia Schmidt was employed. It was complicated work because she did sealing and other parts of the work. It was strenuous work and she was not a strong girl. Often she forced herself to work when she was hardly able to sit at her machine. At times she would have to stay at home for she was so weak she could hardly walk. For five years she was in this weakened condition.

She tried various medicines. At last, a friend of hers spoke of Lydia E. Hinckley's Vegetable Compound and Miss Schmidt gave it a trial.

"Everyone says I am a healthier and stronger girl," she writes. "I am recommending the Vegetable Compound to all my friends who tell me how they suffer and I am willing to answer letters from women asking about it." Julia Schmidt's address is 652 North Front St., Salem, Oregon. For sale by all druggists.
