TIME IS ASKED BY CITY TO PREPARE FOR CASE

(Continued from page 1)
"If he is attorney for the stage company, how can he act," asked Alderman J. E. Galloway. It was after this that Williams made his statement.
"Deep down in your hearts you all know that the \$20 fee is for revenue, not for regulation," continued Williams. "The crux of the whole matter is whether this fee is regulatory or for revenue." Williams stated that he thought there were other defects in the ordinance besides this. He attempts to tax cars for rental, and its tax on taxicabs is defective. His opinion is that a league of cities should be formed to fight the case. Patton's motion to obtain an assistant was withdrawn after this speech, and another motion, introduced by Alderman W. W. Rosebrough, to obtain 10 days more time to answer the court restraining order and the stage company's complaint, was passed by the council.
