

WOMEN WILL USE Y TANK WEDNESDAY

One Day a Week to Be Set
Aside, Instructor and
Guard Retained

The new YMCA swimming tank is expected to be finished and ready for use by next Wednesday. The tile has been put in the bottom of the tank and water will be turned in to it this morning. The tile border is being installed and is expected to be finished in a few days. The spring board to be installed in the tank has arrived and is ready to be put in place.

A big influx of new members

They Called Him A Dead One, But He Came Back

Someone told this "all in" skinny, nervous, worn-out man that McCoy's Cod Liver Oil Compound Tablets were just what he needed to bring back his strength—his vigor—his nerve force.

Told him they would add pounds of energetic flesh to his emaciated form. Told him that although he seemed to have "lost his grip" that the vitalizing vitamins in McCoy's would put real stamina into him and that his mind would be as keen as of old and his step firm, elastic and youthful.

Tens of thousands of people all over North and South America know by actual test that the combination of health building agents in McCoy's make it the ideal tonic for every man and woman who feels that they are slipping—are going backward.

Try it for 30 days all you that are losing confidence in yourself—that are lacking endurance and stamina—that are underweight, sleepless and nervous.

You can get 60 tablets for 60 cents at J. C. Perry, D. J. Fry or any druggist anywhere with the clear understanding that if you are dissatisfied with the results after 30 days you can have your money back. Ask for McCoy's.

is expected with the opening of the pool. The junior board of directors has set a goal of 150 new boy members during the months of July and August. The senior department is also giving out information with the aim of getting a considerable number of new senior members.

In keeping with the policy of the YMCA in the past, the tank and gymnasium apparatus will be reserved for women on Wednesdays. The YMCA will continue to use the physical department's equipment on this day. Booths are being installed in the locker rooms for the use of women. They will be separated by canvas partitions on the sides and front. They will be put in each Wednesday morning and taken out in the evening.

Special emphasis will be placed on swimming instruction during the months of July and August. A man will be on duty at the swimming tank every day to teach swimming lessons and to act as life guard.

Regular gymnasium work will begin September 1. The baskets are expected to be installed in the gymnasium in a few days. They have already arrived from the factory.

POLICE REPORT RAPS TRAFFIC AND DRUNKS

(Continued from page 1.)

traffic violations, \$2984.50; total amount of fines imposed by police judge, \$5073.50. On charges of drunk, possession of liquor and driving while intoxicated the speed wagon was responsible for the following amount of fines for the first six months of the year, ending June 30, 1926, \$2,510.

Following on the heels of the semi-annual report comes the police report for the month of June, also signed by John Minto. Its summary follows: Number of complaints and reports on police blotter, 168; number of accidents, 155; number of arrests on felony charges, 1; number of arrests for being drunk, 9; number of arrests for possession of liquor, 5; number of arrests for traffic violations, 60; miscellaneous, 14; total number of arrests, 89.

Number of days jail sentences, 30; number of meals served prisoners, 183; number of persons given beds, 24; number of burg-

SACRED CONCERT SET FOR SUNDAY

Chautauqua Presents Herbert
Leon Cope in Lec-
ture Following

A sacred concert and lecture will be presented for the opening program of Chautauqua Sunday night instead of the Robert Hardaway players in "Pollyanna."

The change of program is due to a provision of the contract and special agreement with local guarantors providing for a strictly sacred program on Sunday. There will be no admittance charge on Sunday night. That the change will mark no deterioration of the program as a whole is assured by the management.

The concert will be given by the John Ross Reed concert company and will be composed of numbers of a strictly sacred character. The concert will be followed by a lecture by Herbert Leon Cope, for many years a leading lecturer on the Chautauqua and Lyceum platform.

If compensation is necessary for the change of program assurances are given that other surprises are in store which will more than offset any possible regret, not the least of which will be the appearance of Billy Sunday who is an added attraction to the Salem program for which no advance in the admittance for the evening will be made.

laries reported, 1; reports of larceny, 8; autos stolen, 2; autos recovered 2; autos recovered stolen in other cities, 1; bicycles stolen 3; bicycles brought in, 3; number of officer's special reports, 26; amount of fines for traffic violations, \$143; total amount of fines imposed by police judge, \$575.

FRANCES SNYDER WINS WATER TEST

Girls' Schedule for Remain-
der of Week at 13th
Street Posted

Frances Snyder was winner in an underwater control contest for girls held at the 13th street playground yesterday. Grace Day was second and Edith Clement third. Diving lessons for girls are also being given.

A horseshoe tournament for boys is under way. Singles matches were played yesterday, in which Bob Meyer defeated Kenneth Lewis, Thora Randall defeated Jimmy Schon, and Paul Kafoury defeated Paul Meyer.

Other matches to be played in the singles tournament include Liston Parrish vs. Daniel McCarthy, Fred Hageman vs. Ralph Nelson, Alber Fleflet vs. Gordon Black, Dale Lane vs. George Causey, Lyman Simons vs. John Peters, Donald Snyder vs. Neal Hale, Edwin Busick vs. Richard Nelson, Robert Burrell vs. Martin Lopez, Delber Hart vs. George Waterman and Robert Hurlburt vs. William Hart.

Doubles matches scheduled include Dale Grimes and J. Parrish vs. Daniel McCarthy and J. F. Hageman, Dan DeSart and L. Parrish vs. Alvin and Julian McCarthy, Ralph Nelson and Albert Fleflet vs. Donald Snyder and Ned Hale, Edwin Busick and Richard Nelson vs. E. McVay and Don McVay, and William Hart and William Hurlburt vs. Bob Meyer and Kenneth Lewis.

The girls' schedule for the rest of the week at 13th street playgrounds has been announced. It is as follows: Friday—1-2, basketball, 2-3, swim, 3-4, dancing and games, 4-5, swim. Saturday—1-2, basketball, 2-3, swim, 3-4, badge test work and games, 4-5, swim.

Klamath Falls—During May 96 building permits were issued, for \$185,205.

RIVER NAVIGABLE IN ABOUT 4 WEEKS

The Dredging Is Proceeding
at Different Points on
Willamette

The government dredge Monticello is now working at Windsor island on hard pan and rock, and will be through there in about four days. This is a mile or two below Spon's landing. Then there will be some dredging about a half mile further down, at Simon's; three or four days' work. Then more dredging at Lone Tree point, a mile below.

Col. Thompson, of the U. S. engineers, in charge of the work, is getting out the Dayton digger to dig out the channel at Grand island. That finished, with some work at Ash island, this side of Newberg, and the channel will be cleared up all the way to Salem. This will all take about four weeks.

In the meantime, the steamer Northwestern, of the Salem Navigation company, is on the ways at Portland, and will be for three to four weeks yet. It is expected, when finished, to be able to make regular trips again. In the meantime, the Salem Navigation company is carrying on its business with trucks, but is obliged to turn away a good deal of business that is offered—until the river is open.

Sutherlin—Three shifts will rush completion of Leaper Dome oil prospect well.

Baker—Seven cars cattle shipped to Portland market one day.

COOLIDGE ENJOYING VACATION IN HILLS

(Continued from page 1.)

The work of settling the camp meanwhile continued unabated as indications of quickening interest on the part of the citizens and officials of the region multiplied.

Automobile tourists swung by the camp enclosure to obtain a glimpse of the summer White House, while the ever watchful eye of the public official was represented by an inspector for this section of the New York state conservation commission, who, deciding that one day of respite was enough, called to see if the two White House collies, Rob Roy and Frudence Prim, the ever present companions and chums of the president and Mrs. Coolidge were properly licensed for this state.

Not disturbing the pets who were with the president before the log fire, Mrs. Coolidge attended to the matter of filling out the proper application blanks for the dogs with which the inspector departed lappy.

In such matters the president and Mrs. Coolidge are the same as private citizens in the eyes of the law which requires the licensing of all dogs that roam at large in state forests such as these which border the presidential camp.

Governor Smith, of the empire state, anticipated one such complication by sending the president a fishing license a few days before the chief executive left Washington for his vacation. This license Mr. Coolidge wears pinned on his fishing cap, as required by law, and manifests every pride in it.

The executive offices, scarcely a stone's throw from Paul Smith's hotel where many of the presidential party are living, opened its doors today. Located in a cottage of commodious rooms and great fire places, the accommodations are ample in every way.

LOGANBERRIES AT DRYERS COME WELL

Evergreen Pickers Asked for
Next Thursday, and Pears
Soon to Be Ready

Loganberries are coming in very well at the dryers, especially at the Paulus dryer. The crates were piled high Wednesday, and a big supply is expected today, but after tomorrow it is thought it will shade off pretty fast. The Starr cannery is still can-

ning loganberries, and Himilaya and Lawton blackberries are coming in there in good supply, and being canned.

The Hunt cannery is also receiving considerable quantities of Himilayas and Lawtons.

The Y free employment office had a request yesterday for evergreen blackberry pickers for the 15th; next Thursday. They are to go to a large acreage about 15 miles north of Salem.

It is understood also that there will be a beginning of Bartlett pear picking in some orchards at about the same time. So the fall in fruit harvesting is not going to last very long.

Milton—Western Dehydrating Co., incorporates, capital \$75,000.

CHILDREN CRY FOR

Fletcher's CASTORIA

MOTHER:— Fletcher's Castoria is a pleasant, harmless Substitute for Castor Oil, Purgative, Teething Drops and Soothing Syrups, especially prepared for Infants in arms and Children all ages.

To avoid imitations, always look for the signature of *Chas. H. Fletcher*. Proven directions on each package. Physicians everywhere recommend it.

Announcing Electro-Kold at

C. S. Hamilton FURNITURE CO.

THE simplest electric refrigerator has come to this city with a revolutionary program for new homes and old. It brings cold, first at the touch of a switch, and then automatically—a clean, dry atmosphere and a greater mechanical dependability than has ever been known.

Wives and homekeepers appreciate the automatic control of Electro-Kold—always the right temperature to keep foods fresh and wholesome. No drip pans or drain pipes to clean, for Electro-Kold is an ice-cake that never melts.

Electro-Kold offers the added advantages of freezing crystal clear ice cubes for table use, freezing desserts without attention, and keeping foods or pungent odors together without tainting flavors, due to its crisp, dry cold.

The mechanical advantages of Electro-Kold, alone, are sufficient to convince husbands of its superiority. The compressor and frost tank make a unit which is a marvel of simplicity, having over one hundred fewer parts than any other electrical refrigerating machine we know of.

Electro-Kold was selected only after thorough investigation of the entire field of electric refrigeration. Its simplicity and absolute dependability were the deciding factors in its selection by us, for our aim is to offer patrons the best in every field of service.

Your purchase of Electro-Kold may be made on convenient terms if you wish. Made by the Electro-Kold Corporation, Spokane, Wash.

ELECTRO-KOLD

The Simplest Electric Refrigerator
