

LARGE GAIN SHOWN BY DODGE BROTHERS

Increase in Deliveries Mount High During First Half of Present Year

Dodge Brothers dealers in United States have delivered 173,373 motor cars and trucks during the first half of 1926, a gain of 52,469 cars or 43.6 per cent over the figures of 120,704 for the first half of 1925.

Although the final figures for Canada for the last week of the second quarter are not yet available, according to the preliminary report the gain in retail deliveries by Dodge Brothers dealers in the Dominion is over 65 per cent.

Total shipments of motor cars and trucks from Dodge Brothers and Graham Brothers factories in the United States and Canada during the first six months of 1926 were 207,115, a gain of 68,345 or 49.3 per cent over the record for the same period last year.

"The official figures for total production of passenger cars and trucks in the United States and Canada during the first six months of 1926 will probably not be available before next week," said the Bonesteel Motor company, Dodge Brothers dealers here, "but the industry's gain of 13 per cent over the corresponding period last year reported for the first five months of this year by the United States Department of Commerce will be little changed. By comparison Dodge Brothers gain is nearly four times as great as that of the industry."

Poor tires spoil your pleasure. Have that safe feeling by buying a spare at Malcolm's Tire Shop, 205 N. Com'l. Tire cover free with every tire purchase.

A. H. Moore, 235 N. High St. apartments, and store where you can get high quality furniture and furnishings for every room in your house.

OFFER LARGE PRIZES IN MILEAGE CONTEST

(Continued from page 1.)

used exclusively to carry the advertisements of this contest and further ads will be used in the future to supplement the main campaign running at this time.

The rules of the "Speedometer Check Mileage Contest" are very simple and require from the motorists the filling out of simple form with the co-operation of the local CTC dealer in their locality. Every CTC user and future user is qualified to compete for the prizes by obtaining the form, now shown in the advertisement, from the local CTC dealer and having him enter on this form the serial number of the CTC tire or tires, the date of purchase, and the speedometer reading at that time.

Also on this form the name and address of the motorist, the make of car, and the CTC dealer will witness with his name, trade style the place of business and forward this filled out form direct to the Columbia Tire corporation's factory at Portland, Oregon. The reading of the speedometer record will be used in the final awarding of the prizes therefore it is absolutely necessary if the speedometer reading is changed, since the first entry of the contestant, and this change in any way other than an increase from regular driving it should be recorded immediately through the local CTC dealer, who will forward these changes to the factory.

When the tires are worn out and through proper use the motorist is convinced that he has obtained the extra mileage which is built into CTC tires, these tires should be taken to the local CTC dealer who will execute a very simple form of affidavit, which has been supplied him, showing the serial number of the tires, the speedometer reading at that time for each tire entered in the contest and will forward this to the factory with the tires for the final awarding. Immediately after the tires are checked in at the factory motorists may have them back if they so wish and signify this through their local CTC dealer.

Other points of interest in this contest are as follows: namely, that all ties will divide the individual prizes evenly; that officials and employees of the CTC company will be barred from the contest; that disinterested checkers, whose names will be made public will check the final results and award the prizes and the mileage run recorded by affidavit must be on the original tread of the CTC, this permits the use of boots within the tire.

The following is the list of ten cash prizes to be awarded the highest mileage performance records: First prize, \$1000; second prize, \$500; third prize, \$250; fourth prize, \$100; fifth prize, \$50; sixth prize, \$25; seventh prize, \$20; eighth prize, \$15; ninth prize, \$10; tenth prize \$5.

There will be five other prizes each carrying a credit of five dollars on the purchase of a new CTC tire at the nearest local CTC dealer.

The Columbia Tire corporation executives are not only offering an opportunity to win cash prizes for the highest CTC mileage performances but also desire to school the motorists in observing

a few simple rules which will show them how to obtain the maximum mileage from their tires by observing the following points.

Every CTC dealer will furnish motorists an inspection service of their tires gratis which will cover the following vital conditions which affect tire mileage; a check against sprung axles and uneven mounting of rims which causes wobbling of wheels, too much toe-in of front wheels, loose bushings, one brake grabbing ahead of another and thus dragging one tire in stopping. These are real enemies of long tread wear. CTC engineers suggest that motorists should give the same inspection and care to their tires as they do to the punctual filling of the crankcase with new oil.

UNSKILLED DRIVERS CAUSING ACCIDENTS

(Continued from page 1.)

créptitude, railroads do not hesitate to destroy it immediately.

Forming a startling parallel is the automobile which should be branded with a "bad order" placard.

No automobile is better than its driver but there is many an automobile driver who is better than his car.

The whole motor-car industry decries the number of persons killed in automobile accidents. Everyone in it looks askance at that too often repeated excuse, "the child ran out between two other cars in front of me and I could not stop," without a most

rigid investigation of why that car could not be stopped.

When a traffic accident occurs now we demand to see the driver's license. We should ask to see a permit for the car to be operated on a city street.

Lacking such a permit, periodically renewed, a car should be impounded as should any car not equipped to be operated safely until an adequate inspection by experts showed it to have been so repaired as to make it safe.

No "bad order" automobile should be permitted on any city street or country highway. Rid the streets of these unsafe cars and unsafe drivers and present arbitrary speed laws can be removed a long step toward the solution of the traffic problem.

drives and all the safety talks would be as nothing in the saving of some of the 24,000 lives a year lost through automobile accidents, compared to the removal from the streets of potential death-dealing cars and drivers.

A maiming, killing giant is rushing across the country, like a plague, more powerful than Mars. It is the giant of traffic, for every year its toll grows ghastly and tremendous.

Last year 24,000 persons, enough to form the population of a good-sized city, were killed in traffic accidents. In that time 630,000 were injured.

During the World War 119,568 American soldiers, including 276 nurses, lost their lives. The total number killed in action was 35,845. Figuring that America was

in the World War for a year and a half, and taking the ratio of traffic accidents as that of 1925, traffic is a greater killer than war. Mercury a more powerful destroyer than Mars.

Think of nearly a million human beings, more people than are in Baltimore, more than there are in Cleveland, or Boston, or St. Louis, lying in hospitals as the result of traffic accidents. Yet nearly a million injuries would be the ratio for a year and a half, on the basis of the 1925 statistics.

Thirty-six thousand lying in morgues! That is the total sacrifice to the rolling wheels in a year and a half, computed with 1925's deaths as a medium.

Klamath Falls — New Olsen apartment house will cost \$25,000

New Low Prices

Wear-well Tires

High in Quality
Low in Price

Compare Wear-well tires, point for point, with standard tires that sell at higher prices. Note the rugged construction, the heavy "road-hugging" tread, the standard weight and oversize. Wear-well tires are sold to you with an iron-clad guarantee of satisfaction—a guarantee that is backed by more than 125 "Western Auto" stores in the west.

At the new low prices (effective July 12th)
Wear-well Tires are an even better value than before.

Tires Mounted Free

Wear-well Balloons

Full oversize, full standard weight and fully guaranteed. A heavy, long service, semi-flat rib tread, that runs smoothly and wears evenly.
