DID YOU KNOW That Salem is an educational center of great and growing importance; that this city is the home of historic Willamette University, larger now than ever before, with an addition recently of a million dollars to its endowment fund, \$350,000 of which was contributed by the General Education Board (Rockefeller). besides a quarter of a million dollars added to its building and other funds; that all our other educational institutions are growing substantially; that this city is becoming widely known as a music center and as such is attracting students from all over the coast; that we have a splendid system of public schools, and the people in 1922 voted bonds for \$500,000 in order to provide additional buildings and facilities as fast as the growth of the population shall demand; and that this growing reputation as an educational center is one of the great business assets of Salem, which was born a school town and has made progress as an educational center throughout all its history?

## PIONEER MILITARY SCHOOL IN SECTION

Hill's History Dates Back to a 16x16 Log Cabin Built in 1852

BY ALBERT BYERS During the school year of the Hill Military Academy, Portland, Oregon, strict military discipline is observed in every department of the school. At this time, however, the cadets are enjoying a change of scene and activities. The older boys, those from 14 to 20 years of age, are participating in the school's travel camp. Under the guidance of Mr. Ben W. Hill, in charge of the outing, and of Instructor Dr. Daniels, who lectures on nature topics, the boys left Portland in the school's own bus on July 6. Their destination is Yellowstone Park and the trip will extend until September 1st. To ensure meals being served on time the boys have taken along their own cook.

The younger boys, those under 14 years of age, are attending the school's summer camp at Long Beach, Washington, which is under the direction of Mrs. Hill, the wife of the president, and a male assistant. Everything that makes for the enjoyment and healthful recreation is planned in this camp and the event is eagerly looked forward to each year.

The early history of Hill Military academy is interestingly interwoven with the pioneering activities of the northwest. This pioneer school, the only strictly military school in the Pacific northwest, traces its history back

to 1852, when Mrs. Richmond started her classes, with six pupils attending, in a crude log cabin, 16x16 feet in size, built on the land claim of her missionary husband. The exact location of this early school building is about eight miles northwest of the town of Yamhill. The Rev. William Richmond came from New York by the way of Panama with the express purpose of establishing an educational institution. In 1878 Dr. J. W. Hill of Yale took over the management of the school and in 1887 it became known as the Bishop Scott Academy. In 1901 it became known as the Hill Military Academy and in 1908 was incorporated under the laws of the state of Oregon, Joseph A. Hill, eldest son of Dr. Hill, becoming vice-principal and secretary

and treasurer. In September, 1918, Joseph A. Hill took active charge and management and was elected principal when his father retired and
