

Legion and Bankers Clash for Twilight League Championship Tonight

POSTMEN CAPTURE HONORS IN LEAGUE

Commercial Schedule Closes as DeMolays Go Down to Defeat

By Bob Bishop
Getting at the same time the Commercial league championship, a golden symbol of victory aplode, and some much deserved and highly glided razing, the Postoffice took the De Molay to a 11-9 trimming at Oxford park last night.

To tell the facts about the contest, the easiest method would be to say that both sides were rotten, or worse.

In the first place about half the De Molays failed to show, Harris and several other regulars evidently getting the white feather at the last minute. In the second place they had no catchers, and very little else besides two pitchers and a second baseman. Even at that the young Masons nearly trimmed their grandfathers.

The mail clerks were in the lead 7-0 in the last of the first. In the second they let two men reach first, one walking and the other being hit by a pitched ball. Then they started throwing the ball around, and both runners crossed before the mail clerks found the pellet.

Four errors in the first allowed the P. O. scores.

The DeMolays scored two more in the third and on a merry-go-round rally that nearly tied the score, rang the bell five more times in the fourth.

Philing a little strategy in the last of the fourth, the De Molay changed hurlers, putting in Myers for Gamble. It was a good move, and should have been made earlier in the season. Going into the game after the first two men up had taken their mail pouches and shambled to first, the big boy retired the side on four pitched balls. The Postoffice collected a pair of runs in the third, and after their let-down in the fourth it was those two scorers that won the ballgame.

Rider was hit freely, but managed to crowd eight strikeouts in between the bingles. He walked two batters. Gamble struck out one and walked three, while Myers, who took up the youngsters' mound work in the fourth, although he whiffed none and walked none, had a big day at the bat, getting three hits in as many times at bat, scoring twice and being responsible for three other markers.

This completes the Commercial league sked and gives the pennant to the Postoffice. The Twilight league fight is still on, and one of the hottest games of the year is expected tonight when the Legion will attempt to knock the Bankers out of the running.

with him, he admitted that his sudden attempt at liberty was without rhyme or reason.

"It's a wonder to me we got as far as we did," he said. "We just put ten gallons of gas in the car and started. We left at 3:15 exactly and besides the gas all we had in the car was some pocket knives.

"We kept within the speed limit at all times and drove through Salem, Independence, Corvallis, Junction City, Eugene and Goshen. At this latter point, we turned off and took the Oak Ridge road. We bought gas at Oakridge. From there we went into Klamath county by way of Crescent, going through to Kirk and Chiloquin to Yainax, where we were caught.

"I had been in nine years and with Pierce in office knew I would not be pardoned. If Paterson won I knew he would not give any pardons for a couple of years and so I suddenly made up my mind."

The men were captured late yesterday afternoon by Indian Agent Middlebush who saw them attempting to take gasoline from his car. They submitted without protest to the arrest and their identity was not learned until the arrival of Sheriff Burt Hawkins from Klamath Falls.

According to both, Warden Lillie is strict, but fair, neither had any complaint to make regarding prison treatment. They are being held in Klamath county jail awaiting arrival of prison officials.

England Is Cricket Mad as Popular Sport Starts

LONDON.—(Associated Press) England's cricket made this summer. A team representing Australia is here to defend the mythical "ashes," or win the rubber of five Test Matches to be played between the "Aussies" and England. Interest taken in these games can only be compared to that which grips America during the progress of the baseball world series.

The term "ashes" was the invention of a newspaper in 1882 after England had lost a memorable game against the Australians by seven runs. Arising out of that defeat the newspaper published an "In Memoriam" as follows:

"In affectionate remembrance of English cricket which died at the Oval on August 29, 1882. Deeply lamented by a large circle of sorrowing friends and acquaintances. R. I. P. N. B.—The body will be cremated, and the Ashes taken to Australia." The games will last for three days from 11 a. m. until 6:30 p. m. with forty-five minutes interval for lunch and fifteen minutes for tea.

Leprosy, Treated Early, Curable, Says Physician

MANILA, P. I.—Leprosy, when treated early, is curable in fifty to seventy-five per cent of the cases, declares Major A. P. Hitchens, health advisor of Governor General Leonard Wood's staff.

The Philippine Health Service is encouraged to believe that within a quarter of a century complete control of the disease in the Islands, is possible. Major Hitchens said the Philippines have now reached the peak of the malady and that unless present machinery for its control and treatment breaks down, the disease will recede rapidly.

Junior League's Program Shows Women Work

NEW YORK.—(By Associated Press.)—Many American society women work, as evidenced in the strenuous tasks that necessitate membership in the Association of Junior Leagues of America.

Supplying towels for the Henry Ford Motor company, complete charge of the wing of a hospital, and running a hotel for working girls, are just a few of their achievements, as pointed out by Mrs. Carleton Palmer, new president of the association.

The children of Chicago five years ago were given the benefit of a theater, through the aid of that particular branch of the League. Its success meant the os-

SPORTS DONE BY NORMAN E. BROWN

The much talked of battle between Jack Dempsey, real estate promoter and heavyweight champ, and Gene Tunney, reader of Freud and the classics, may be staged in Chicago or in New York City or Jersey City. The supposition being for the instant that such a battle will come off.

The main reason for the selection of the west as the scene of the big melee is that Tex Rickard, probable promoter of the affair, finds fewer obstacles in the path of the preparations for such a match, staged in Chicago, than if held in either of the eastern cities.

The New York state athletic commission has been at loggerheads with Rickard for some time, due to his failure to carry through its wishes for a match between Dempsey and Wills. At some time or other Rickard committed himself to such a match and while no final articles were signed the commission (or part of it, at least) declared such a match to be the logical one and has since held out for the consummation of plans for it ahead of any other.

The newly formed commission handling boxing affairs in Illinois has had no such entangling dealings with Rickard. While they must o. k. any match he contemplates putting on, they have not considered it within their province (to date) to name the fighters. If Rickard shows a willingness to abide by the commission's rulings and lay his cards on the table he can run his fight with the principals he pleases.

And, in addition to this consideration there is the matter of a "gate." Illinois legalized boxing but a few months ago. Illinois fans are hungry for big bouts. The "free gate," which has grown to unheard of proportions in the east, will be smaller. Ergo, Rickard stands the chance of making much more money. And after all that is the ultimate aim of any fight promoter—to make money. Ask any fan who has been hooked for from \$5 to \$10 to see what turned out to be a couple of hams. And ask the jolly fight managers, who go into every match hoping to retire after it.

since and Brooklyn will have the benefit of its first one next year.

The organization is divided into several sections, covering the entire country, and each has certain work that it performs, from the caring of day nurseries, clinics, teaching, and to office work, managing playgrounds and editing bulletins.

In New York the working girl has the advantage of a hotel through the efforts of the members.

Riviera Village Swamped With Dead Jelly Fish

NICE.—(By Associated Press.)—All is not roses and sweet-scented scenery in the neighborhood of the French Riviera.

The little fishing village of Cros-de-Gagnes, just outside Nice, soon will be uninhabitable unless some means is found of destroying the millions of jelly fish which have appeared in the bay. Huge piles of dead fish are nightly thrown up on the beach and the authorities recently were unable to clean them away before they commenced to rot. Attempts to burn the fish had been unsuccessful.

"Embrace Christianity," Urges Japanese Editor

OSAKA.—(By Associated Press.)—If Japan expects to absorb the benefits of western civilization, "it will be necessary for her to welcome Christianity with open arms and harmonize the religion of the west with the national characteristics of the eastern empire." In the opinion of the Osaka Mainichi.

This newspaper's editorial on the subject, which attracted considerable attention, said it "is indeed a great mistake that western culture grew up quite independent of its religion, just as it is absurd to think that eastern culture is independent of its religious thought or feeling.

"Strange to say, the majority of

Japanese seem to think that we can very well absorb western culture without paying any heed to its religion—Christianity. It is our humble opinion that in order to fulfill the heaven-sent mission, if such it be, of welding the Oriental and Occidental civilizations into one, it is almost incumbent upon us Japanese to welcome Christianity with open arms, so as to be able to make that religion our own. Just as we did Buddhism and Confucianism in the past."

Let Children Chose Own Clothes, Specialist Says

LONDON.—(AP).—Children should be allowed to choose their own clothes. They instinctively like the colors which are best for them, and Dr. Harold Pritchard, who has made a special study of children and their ailments, thinks it is a great mistake for parents to decide what colors their youngsters shall wear.

"A healthy child instinctively likes the colors which are best for it," said Dr. Pritchard. "Most normal children like yellow and green, which are the best colors for little folks as they are most restful. Red is also an excellent color because it attracts light and children need all the light they can get."

NUMBERING ROOFS FRANKFORT, KY.—(By Associated Press.)—Adjutant General J. A. Kehoe of the Kentucky national guard will have strategic cities' building roofs numbered for quick locality recognition from the air.

The state air board has supervision in Kentucky over establishment and maintenance of air ports routes and aviation fields. This enables cities and counties to maintain ports and fields in conjunction with each other and the adjutant general, pioneering an air service for the guard, sees the act as a great step "upward."

Cast in Movie Brings Old Friends Together

CULVER CITY, Cal.—(Associated Press)—There are three members of the cast and the director of the motion picture production of "Lovey Mary" here who are willing to admit time passes rapidly, but not too fast to reunite old friends.

About ten years ago, when Bessie Love was just becoming known in the movies, she played a melodramatic role in which she walked in with a small child to ask her father's forgiveness for past sins. Mary Jane Irving was the child and today she has a part with Miss Love in the picture.

Nineteen years ago, Vivian Ogden played the role of Miss Hazy in the stage presentation of "Mrs. Wiggs of the Cabbage Patch." The juvenile lead in the company was King Baggott, who now is directing "Lovey Mary."

When Miss Ogden came on the set, Baggott remarked: "That costume you're wearing looks very familiar."
"It should," she replied. "It's the same costume I wore when we played together."

Formula of Buckingham Perfume Carefully Held

LONDON.—(By The Associated Press.)—One of the most carefully guarded secrets of the British Royal family is the formula of a specially prepared perfume with which Buckingham Palace is sprayed for the court presentations attended by king and queen from all parts of the world.

The perfume is entirely original, suggestive of a tropical flower garden hidden away in the midst of a country setting which grows nothing but blossoms for miles around. The preparation has been used since the time of Queen Victoria's first court and its ingredients are known only to the king and queen and the manufacturers.

TITLE MATCH PLANS TAKEN UP BY TUNNEY

Challenger Discusses Situation With Head of New York Committee

PEEKSKILL, N. Y., July 29.—(By Associated Press.)—Until Col. John J. Phelan, head of the license commission returns to New York August 11 he will not rule on Gene Tunney's personal application to fight Jack Dempsey, he told Tunney today.

Colonel Phelan and Tunney, both veterans of the AEF were in conference for an hour and the boxer who seeks permission to fight for the heavyweight championship at the Yankee stadium, New York, Sept. 16, came from the camp with a smile and expressed confidence in the outcome.

The license committee which will not act until Col. Phelan and the "Old Fighting 69th" return to New York from their two weeks' encampment, has the key to the situation, the state athletic commission having accepted Tex Rickard's proposal to stage the 15 round contest.

After the conference Col. Phelan said: "I have made no decision regarding Tunney's application and will make none until I am back at my office in New York. If Gene Tunney proves his eligibility he will receive his license."

Tunney was the guest of all the officers of the regiments today. He was welcomed by every soldier down to the "bucks" shaking hands all around in a tour of the camp.

Immediately after the conference he left for his Saratoga camp where he intends to work a few days before taking up his abode at Lake Pleasant, New York, for the rigorous training that will prepare him for his effort to gain the heavyweight crown.
