'Aloma of the South Seas Will Play Today, Sunday and Monday

Gilda Gray, the latest stage Isaac Best, a resident of Grants luminary to be attracted to the Kleig lights, and whose first Paramount starring vehicle, "Aloma of the South Seas," starts at the Elsinore today and will show Sunday and Monday.

Born in Poland, Miss Gray came to this quantry at the tender age of seven. A cabin with silver and gold trimmings? No-and again -No! Gilda made herefirst ocean trip in the steerage.

She began her career dancing in a Milwaukee cabaret. Later she went to Chicago and from there to New York. That was in 1919. Strange as it may seem, Gilda almost starved. One day, dancing at a demobilization camp, Sophie Tucker saw her.

Through Miss Tucker's intervention, Miss Gray appeared at a Sunday night Winter Garden concert. She made such a hit that the Shuberts engaged her for the "Gaities of 1919." That was the time of the actors' strike. So once more, Gilda was jobless.

During this enforced idleness. Gil Boag contracted for her to dance in his restaurants. Later, as a star in the "Follies," she introduced the shimmy to the American public.

The rest is history. In a recent tour of the country's leading the aters. Gilda Gray broke twenty consecutive records! That's going some. As the crowning glory in by Paramount. Warner Baxter, Mr. and Mrs. Oscar Satern. While Percy Marmont, Julanne Johnston along with her in "Aloma in the

ROBERT STANFIELD PAYS SALEM VISI

Object in Seeking Re-Election to Help Oregon Keep Committeeships

Senator Robert N. Stanfield's purpose in seeking re-election as an independent candidate is to recommitteeships, he indicated here yesterday. Mr. Stanfield was a Salem visitor yesterday, accompanied by Walter Hayes of New York, former private secretary to President Theodore Roosevelt.

The principle involved in the Oregon-California tax refund bill is important, Senator Stanfield stated. Mr. Stanfield was largely responsible for getting this bill through Congress and signed by President Coolidge.

The principle is that withdrawal of the timber lands involved in this case is an affront to state rights, according to Mr. Stanfield. Individual states should not be expected to bear the burden of conservation which affects the nation as a whole, he believes.

The chief objection offered to the refund measure in the senate was that it was too paternalistic, NESINGE FILM was that it was too paternalistic, he stated, so he had a hard time getting the unanimous consent of the senators to its introduction. Senator King was the principal
