An Evidence of Refinement

Good taste and good health demand sound teeth and sweet breath.

The use of Wrigley's chewing gum takes care of this important item of personal hygiene in a delightful, refreshing way.

Wrigley's removes odors of dining or smoking from the breath by cleaning the teeth, by stimulating the flow of digestive juices, and by the antiseptic action of the flavoring extracts for which Wrigley's is famous—"The Flavor Lasts!"

The result is a sweet breath that evidences care for one's self and consideration for others—the final touch of refinement.

Wrigley's is a thrice daily routine of people of refinement.
