SILVERTON, Ore., Sept. 29,-Special.) - Calvin Geer, Silveron's old pioneer, is spending the week at the fair after which he will visit for a short time with relatives and friends in the Waldo Hills before starting on his trip

to Yuma, Ariz. For seven years Mr. Geer has made this trip. He will be 89 next month and he says he likes to spend the winters in the warm south with his daughter, Mrs. Ida Clymer. His summers are spent in Oregon attending pioneer reunions and visiting his sister. Mrs. Samanthe Bowers of the Waldo Hills. The two are all who are left of the party which reached Silverton with an ox team in 1847.

sisters, my sister-in-law and myself all have families, and for years we have all given our children Dr. Caldwell's Syrop Pepsin. We have recom-mended it hundreds of times and think it just wonderful, not only to bring up children but for ourselves. At the slightest sign of stomach trouble, colds, constipation and when out of sorts, a dose or two is all they need. Truly, it is a family medicine and the stitch in time that saves nine." (Name and address sent on request.)

Constipation, Colds, Coughs, Fevers and Other Perils of Childhood

One dose and mother's anxiety is lifted. The sickest stomach craves the taste of Syrup Pepsin. From infancy to old age the result is certain. Droopy, listless, feverish children respond as if to magic. Headache, stomachache, biliousness, coated tongue, constipation—these are the daily perils for which a host of mothers say Dr. Caldwell's Syrup Pepsin is the safe. Dr. Caldwell's guard. HAMPIONS of the cinder path break the tape because they have developed perfection in the three essentials to sprinting success—quick start; smooth, rythmic stride; powerful finish. Associated gasosmooth, rythmic stride; powerful finish. Associated gaso-line is "champion" because it, too, combines in perfect coordination [1] satisfactory quick starting according to seasonal demands 2] smooth, unfaltering flow of energy [3] power sustained to the end. And it gives this result because of its distinctive range of boiling points. Associa-ted is always associated with "more miles to the gallon."
