in French and finally in English. Then followed the response from France by the famous Briand. It was most eloquent and took the audience by storm. In the middle of it an usher, evidently having watched me standing so long, motioned me up an iron stairway to an upper window which looked down on the entire audience. I was grateful, for I could now sit down in a place where I could watch Briand's gestures. He, like all Frenchmen, became very heated and emotionally worked up by the message he was giving.

"The building vibrated with cheers and applause as he took his seat. Then followed the two repetitions in German and English. So it was in that great representative throng that Germany and France openly, and in seeming earnest faith, forgot the past and pledged themselves to the preservation of peace and brotherhood. Later, from my bedroom window, I watched the taxi pull up to the door of the hotel after their distinguished passengers. So ended this stirring morning, providing a program I could have never have provided for myself by planning.

"At 2:30 o'clock I took the excursion trip around the beautiful lake city of Geneva. In many ways it is the most beautiful city I have visited this summer. There are gardens every place, with a wealth of flowers in every corner. Oh! how refreshing the beauty of Suisse is after the desert cities of Egypt, Palestine and southern Italy. Never have the out-of-doors been such an inspiration to me.

"On Sunday I shall go to Chamoniex. Miss Findley, sailing on Sept. 24, or thereabouts, in all likelihood reached New York city yesterday. After a visit with her sister, Mrs. George Oliver (Genevieve Findley) she will return to the coast, going from Salem to Eugene to take up her position as director of religious education, for the winter.

Woman's Club Classes to Begin October Eleventh

Study classes for the Salem Woman's club this season will start a week from tomorrow—Monday, Oct. 11—at the club house. Prof. R. M. Gatke will open the sessions with a period in Oregon history at 2 o'clock. At 2:15 o'clock Rev. Martin Fershethian will conduct a book-of-the-month discussion, which promises to be particularly interesting.

At 3 o'clock Dr. F. G. Franklin will lead the group in a study of current events. The class in geology, with Prof. Florian Von Eschen in charge, will not materialize because of Professor Von Eschen's crowded schedule at Willamette university.

Beginning Oct. 11 the classes will meet every other week. Of particular interest in connection with the class in a new book study is the fact that a local member is a charter member of a national group known as the Book-of-the-Month club.

This organization has outlined a unique plan for those who wish to keep abreast of the best books of the day by selecting and sending to members a copy of the outstanding book (with optional additional choices) of the month. The book, which will always be an assuredly good book, reaches the subscriber in the same manner as a copy of a regularly subscribed-for magazine.

The committee who selects the month's best book is in itself a guarantee of the excellency of the proposition. These are Henry Seidel Canby, chairman, editor, essayist and literary critic; Heywood Brown, theater critic, novelist and lecturer; Dorothy Canfield, novelist and educator; Christopher Morley, columnist, essayist and novelist; William Allen White, distinguished editor. The club headquarters are in New York city.

Miss Mary Findley Writes Concerning Exceptional Experiences Abroad

A host of Salem friends of Miss Mary E. Findley, daughter of Dr. and Mrs. M. C. Findley, will welcome excerpts from a letter written on Friday, Sept. 10, and addressed to her mother. The missive, mailed from Hotel Victoria, Geneva, Switzerland, proceeds as follows to tell how Miss Findley was able to sit in the great assembly hall of the League of Nations:

"A busy day this, but indeed a most exceptional one. I was present this morning in the League of Nations' great assembly hall when the German delegate took his permanent seat for the first time. Tomorrow I'll buy a Paris edition of the New York Herald in order that I may understand more clearly what I saw and heard this morning, just next door—in three languages.

"This is the way it happened: Mr. Cook sent me here in 'Geneva' to Victoria hotel, which happens to adjoin the League of Nations assembly hall,—in fact has doors on the first floor connecting (my room is on the second floor). The entire first floor of the hotel has been taken over for press purposes.

"Well, I arose at 6 o'clock for an hour's walk about the lake with an English lady friend who is at the hotel. Following breakfast at 8 o'clock I went to Cook's office and then on to the university to hear a professor lecture on phases of the League of Nations. Returning to the office I found I had missed the sightseeing excursion by just one minute, and arranged for the afternoon trip instead. Then I started for my hotel to find it crowded in all directions by those seeking a way into the assembly hall.

that now being in the hotel, I might as well walk on through the press room toward the hall until commanded to halt—having no ticket whatsoever. I came unmolested to a little inner window which looked directly into the auditorium. Several others were at the same place.

"I was hardly in place before the surge of applause broke forth upon them. Well, mid all these dignitaries, footmen, Suisse police, etc., I marched into the hotel and started for my second floor big corner room looking out over Lake Geneva. I had been told it was utterly useless to attempt to get into this important session, but it just occurred to me
