Rumanian Party Place Tri-colored Wreath of Roses on Tomb of Unknown Soldier at Arlington
WASHINGTON, Oct. 19.—(AP)—The queen of Rumania, tonight exchanged the privilege of being the guest of the nation for that of being the personal guest of its chief executive and his first lady. Forty-one hours after her triumphal entrance through New York, the gateway to America, and 22 hours after her arrival in the nation's capital, Rumania's queen was formally received by the president and Mrs. Coolidge. Her reception at the White House this afternoon at four o'clock in the famous Blue room, that has witnessed a century of presidential receptions, the return call of the president and Mrs. Coolidge at the Rumanian legation shortly afterwards, and the queen's entertainment at a state dinner at the White House tonight, discharged the traditional amenities of nations. These functions came as the climax to a day in which Queen Marie delved deep into American history, visiting as preliminaries to her White House call, Washington's home at Mount Vernon, the tomb of the unknown soldier at Arlington national cemetery and the Lincoln memorial. The reception ceremony at the White House was brief and formal. Two official cars bearing the queen and her entourage left the White House at 11:30 o'clock.

PROHIBITION GETS BLOW IN NORWAY PLEBISCITE

NEW LAW WILL SANCTION SALE OF STRONG LIQUOR
Partial Control of Alcohol Has Been in Force for Seven Years
OSLO, Norway, Oct. 19.—(AP)—The people have voted against the continuation of prohibition. A plebiscite was held yesterday on the question of rescinding the law prohibiting the sale of liquor exceeding 21 per cent of alcohol and although as yet final returns are not available, the estimated majority against prohibition is approximately 70,000. Premier Lykke declared today his government would introduce a bill as soon as possible abolishing prohibition and he added that he took for granted the starting point for the measure. Up to a late hour tonight the vote (still incomplete) in the whole of Norway stood: Against prohibition 504,000; and for prohibition 393,000. Bergen voted 26,000 against and 12,700 for. A referendum on the prohibition of spirits was proposed in the speech from the throne read at the formal opening of the starting last January. Prior to that there had been considerable agitation for the rescinding of the law banning alcoholic beverages over 21 per cent alcohol. About seven years ago a law was passed prohibiting all beverages containing above 14 per cent alcohol. This law was changed in 1923, raising the percentage of alcoholic strength to 21.

JUDGE FAVORS DIVORCE

BEN LINDSEY DECLARES IT PRESERVES MONOGAMY
LA GRANDE, Or., Oct. 19.—(AP)—Judge Benjamin B. Lindsey of Denver, who spoke here tonight on the subject of "Why Kids Lie," emphatically believes in divorce. He declared in an interview today: "It is the only way to preserve monogamy," he said. "I believe in a uniform divorce law to this extent: Divorce procured in one state should be recognized in all other states. Some day a state is going to be brave enough, frank and free from its hypocrisy, to make divorce procurable on mutual consent. Which is more sinful? The judge asked, "To live together in love without marriage or to live in marriage with some one you hate?"

LANDING FIELD URGED

KIWANIS CLUB POSTPONES ACTION ON 20-ACRE TRACT
The Kiwanis club directors have postponed until next week taking of any action on a suggestion made by Fred Erickson that the club use \$300 to plow a 20-acre tract adjoining the present field, upon which an option is now held. The land must be plowed and levelled before it can be used for landing purposes. The present landing field, which is 43 acres in size, is not considered large enough for the largest commercial planes to land safely, so the option was obtained on the adjoining 20 acres. Erickson urged that the Kiwanis club petition the ways and means committee of the next legislature, to buy the 20 acres, as he believes nothing of greater moment than obtaining the landing field could be done by Salem at the present time.

CATHODE RAY POWERFUL

DESTROYS PLANT AND ANIMAL LIFE VERY QUICKLY
CHICAGO, Oct. 19.—(AP)—Perfection of a tube for projecting the cathode ray of Coolidge, one of the most powerful rays known to science, was announced today by Dr. A. F. Tyler, Omaha, Neb., publisher of the Medical Journal, archives of physical therapy, before a meeting of the American College of Physical Therapy. The development was the work of Dr. W. D. Coolidge, Ph. D. of the General Electric company at Schenectady, N. Y., who also is the inventor of an X-ray tube. "We did not know the ray was so powerful until Coolidge devised a method for projecting it so that it could be studied and used. He has found out such things regarding its action on animal and plant life as: "The rays destroy animal and plant life very quickly. "With a fraction of a minute's exposure on a mouse they disintegrate the whole body. "It is one of the most powerful rays known." JUDGE REQUESTS SPEED NEW YORK, Oct. 19.—Federal Judge Thatcher, hearing the Morris trial, which is expected to last at most two months today.

BOOTLEG BOOZE CAUSE OF ORGY

Dim Trail Through Maze of Underworld Leads to Youth's Capture
HUNT STILL CONTINUES
One Suspect Freely Admits Some of Robberies Which Followed Strong Desire for Adventure
SAN FRANCISCO, Oct. 19.—(AP)—Dim, broken trails through the labyrinth of mazes of San Francisco's underworld have led to the capture of two youths believed by the police to be responsible for the orgy of murder and robbery here on the nights of October 9 and 11, in which five men were killed and a dozen wounded. Clarence (Buck) Kelly, his flight cut short by a police bullet through his body, is in the San Francisco hospital, courting death in a self-expressed hope that he will escape the hangman's rope. His companion, Lawrence Weeks, younger, but hardly less hardened, was taken while peacefully at work on a laborer's job in the DuBoce municipal tunnel. Both were apprehended last night within an hour of each other. Today Roy O'Neil and Jim Fitzgerald, said by the police to be two close companions of Kelly, were taken to the hall of justice for questioning, but they are not implicated in any way. They were on an automobile ride with Kelly last Sunday after the first of the series of robberies and murders, the police say. A third suspect and a girl companion were being sought tonight along the same trails that led to the capture of Weeks and Kelly. Bootleg liquor, leading to an uncontrollable craving for wild adventure, is blamed on all sides for the crimes. Weeks freely admits some of the robberies of Saturday night and admits that he may have called at least one man, Mario Pango, on Saturday night, Oct. 9. "We got all gowed up," he said in his broken, halting statement. "Got all gowed up at a bootleg joint out on Waller street—Red McCarthy's joint. I got a gun from a friend. Kelly already had one. We grabbed off a big car and got it started by rolling it down a hill. Then we were on our way. "Kelly drove most of the time. We did a lot of shooting. If that Mario Pango got a big bullet in him I guess I killed him. If it's a small one, its from Kelly's gun. I don't know. But I've got a complete alibi for Monday night. I never saw Kelly on Monday. I don't know where he was. Kelly, courting death through his stubborn refusal to permit an operation for the removal of the bullet that tore through his lung, steadfastly denies everything. "I don't know what it's all about," he said on his cot at the San Francisco hospital. John Kelly, his father, a structural iron worker, blames the bootleg whiskey and a passion for the night life as represented by wild taxicab rides. "It was a good boy otherwise," the father said. "He and I occupied the same room. He would get in late sometimes, but I never dreamed that it would end this way." The wounded youth's mother, parent of 13 children, and a 19 year old sister have been with him almost constantly since he was taken to the hospital.
