

HALL TELLS WORK DONE BY SCHOOL

Work of University Three-fold, University President Tells Chamber

The state university serves in three ways, Dr. Arnold Bennett Hall, president of the University of Oregon, told members of the Salem chamber of commerce at its noon luncheon Monday. These ways are to educate, to develop a program of research, and to extend its work among people who do not attend the college.

Education as an insurance for the future, and for that reason a sound investment was the purpose cited by Dr. Hall in an appeal for additional funds to carry on the university's work.

To do its work well the university must have the best men available for its faculty, Dr. Hall said, and to get them it must be able to compete on fairly even terms with other colleges and universities.

"Oregon is sixth among the states in per capita wealth, fourth in per capita income, and is also near the top in number of automobiles per capita, and in miles of good roads," Dr. Hall said. "In view of this, it seems possible to pay enough money to insure a good state university."

Some of the criticism of modern education is valid, Dr. Hall believes, in that there is too much memory cramming.

"The students must be trained in habits of intelligent behavior," he said. "We must keep them working on real problems to develop a habit of critical analysis."

"But this is not the whole problem—we are faced with the spiritual and emotional phases to it also. We must conserve the splendid altruism of modern youth and direct it in the right way—we must vitalize it with a sense of responsibility for public welfare."

FORMER WILLAMETTE GIRL DIES IN SOUTH

Word has been received here of the death of Helen Rose Medlar, wife of John H. Medlar of Los Angeles on Saturday, December 4. She was well known in this community and especially in Williamette university circles. She and her husband graduated from the local institution in 1920. She is survived by her husband and one daughter, Barbara; a brother and sister.

WIND TAKES LIFE TOLL SHIPS PILE UP ON EASTERN COAST DURING STORM

NEW YORK, Dec. 6.—(AP)—People of the northeastern states and eastern Canada today paid fortunes to break the hold of the snow and wind storm which swept in from the North Atlantic, causing eleven deaths in New England, New York state and New Jersey, and wrecking seven schooners off the Nova Scotia and New Brunswick coast.

Crews of the vessels which were beaten to pieces by the storm apparently fared better than inland victims of the snow and wind, since no seafarers were reported as having lost their lives. Fishing fleets suffered heavily and the storm crippled shipping at several ports. Fourteen steamers were icebound in the St. Lawrence river near Quebec.

THREE SAFES BLASTED YOUTHFUL ROBBERS OBTAIN LOOT FROM STORE

ST. PAUL, Dec. 6.—(AP)—Fifty thousand dollars was the loot obtained by three youthful safeblowers who early today blasted open three safes in a department store here after working for four hours.

Entering the store through a fourth story window from the roof of another building, the robbers captured two workmen, handcuffed one of them to an iron support post and forced the other to accompany them about the building hourly to register his calls on the burglar alarm boxes. Their loot was \$35,000 in cash and \$15,000 in bonds.

Six charges were exploded be-

FIVE WORKMEN KILLED ACCIDENT OCCURS AS MEN UNLOAD HIGH EXPLOSIVE

PENNSGROVE, N. J., Dec. 6.—(AP)—An explosion of 2800 pounds of powder at the Carney's Point plant of the Dupont Powder company today killed five workmen and injured others, none of them seriously.

The accident occurred when William M. Tondah, a first class operator in charge of the work of four men who were killed, as a crew of helpers, was unloading the 2800 pounds of powder at the dry house. Since all the men immediately concerned were killed, the cause of the explosion is not known.

A rough estimate of the property damage made by officials of the company placed it at about \$25,000.

DUNSMOOR ELECTED TO HEAD POST NO. 9

Capitol Post No. 9 of the American Legion held the regular monthly meeting last night and elected officers for the ensuing year in addition to hearing a splendid address by State Commander Arthur Murphy.

An exceptionally large number were present for this meeting and many visitors from other neighboring towns were to be noticed in the gathering.

The central theme of the address by Commander Murphy "right well have been 'Value of Comradeship,' in as much as he stressed this particular function of the American Legion. He said that membership in this organization did not call for medals, but just an honorable discharge from the service. The American Legion was open to all and he launched an appeal to all ex-service men to line-up with this body of men.

Commander Murphy congratulated Capitol Post No. 9 upon the excellent membership showing, the drum corps and their achievements, and the many civic activities they have been interested in. He asks for the unselfish cooperation of every American Legion man and urged even better work along hospitalization lines.

State Chaplain A. C. Bailey of Dallas was present and spoke briefly concerning the work of the American Legion and the part he desired to play in this work. Commander Tracy Savery of Dallas

SHERIFF HOLDS DOCTOR FORMER RESIDENT OF TEXAS RELEASED ON BAIL

DALLAS, Ore., Dec. 6.—(AP)—Dr. J. R. Jacobson of Independence, was arrested yesterday by Sheriff Hooker upon request of the Burns Detective Agency of Portland and a telegraphic warrant from Sheriff Baker of Edinburg, Texas.

Dr. Jacobson came to Independence from Texas a few weeks ago and opened an office for the practice of medicine. He was released on bail pending the arrival of the Texas sheriff.

AIRMAN HAS BLACK EYE FELL OUT OF BED AND HIT CHAIR, SAYS NOBILE

CHICAGO, Dec. 6.—(AP)—General Umberto Nobile, Italian pilot of the "Norge" on the dirigible's flight over the north pole, arrived here today with a black eye and a novel alibi to account for it.

"I got it while demonstrating the principles of the heavier than air machines, and proved that the dirigible is safer," the general laughed. In New York, he said, he fell out of his hotel bed, and struck his eye on a chair.

COUNTRY HAS GOOD YEAR CHAMBER OF COMMERCE TO MEET IN HONOLULU

COLORADO SPRINGS, Colo., Dec. 6.—(AP)—American business and industry is closing its books for 1926 without the threat or fear of stress or strain which business has learned are the signals of impending danger.
