

COMMITTEE DECIDES TO START CAMPAIGN

\$45,000 to Be Raised During January for New Presbyterian Edifice

The building committee of the Presbyterian church met last night and discussed plans for the erection of a new church building on the corner of Winter and Chemeke streets in the near future. Joseph H. Albert is the chairman of this committee.

The committee decided to secure George Dowey of Chicago, who is a member of the National Board of the Presbyterian churches, to direct the campaign in this community. The new building will cost approximately \$125,000 and there remains to be raised about \$45,000. Efforts will be made to raise this during January. At the same time an attempt will be made to secure 100 new members to the church.

A number of committees have been appointed to assist in the general work of the church during this period. Among these committees may be found the following: visitation committee with Mrs. Roy Klise as chairman; publicity, C. A. Kells, chairman; Sunday school, H. E. Barrett, chairman; Young People's Work, Edna Purdy; create interest among the men, W. H. DeLzell; create interest among the women, Mrs. W. W. Himmans and Mrs. Max O. Buren.

C. A. Lathy Reliable jewelry store. What you are looking for in jewelry. Where a child can buy as safely as a man or woman. Satisfying in all lines.

Only the best! Our patrons will bear this out. We serve only the best in meats and poultry. Hunt & Shaller Market, 263 N. Com'l.

PRUNE MARKET JOINT CONTROL PLAN DEvised

with prunes of other sections of the world. It is felt by the advocates of the plan that sufficient success in stabilizing values and promoting consumption of California prunes has not been attained through any previous arrangement and that something more effective is needed. And this is thought to be it. The intention is, if growers and packers agree, that the new plan will be put into operation beginning with the 1927 crop. Meetings of California growers have been and are being arranged, for presentation of the idea, and the acceptance or refusal of the plan Mr. Parker expects to be able to announce early in the year. It looks to Californians like the most practical suggestion in cooperation that has yet been made, if one analyzes and studies the arrangement and its purposes. In this it differs from any of the previously suggested and sometimes operated ideas, which have been excellent in theory but have lacked at the point of practicality in some ways, particularly in the neglect to consider the human element factor in the equation.

Likely in Oregon. It is likely that the plan will be sought to be adopted in Oregon, and in the rest of the coast states producing prunes—an effort put forward to make the idea of the new plan coast wide.

It is known that there are a number of leading men in the prune industry in Salem who have been advocating a similar plan for some time. Walter T. Jenks has

OIL JURY HEARS FINAL FALL-DOHENY PLEAS

a replet that the law prohibited his "even suggesting" as an answer to "character wrecking" by Roberts "the remedy of early days of the pioneer west."

Then Hogan launched into a minute analysis of the Pearl Harbor oil storage lease and Elk Hills negotiations, interpollating epigrammatic summations of the evidence as he saw it.

"Do you believe Mr. Doheny is a crook?" he dramatically asked the jury. "Did you ever hear of a briber taking a note?" "Would two men who could 'make a cat's paw out of the secretary of the navy and a fool out of an old sea fighter' put their necks in such a trap?"

Touching on the patriotic motive challenged yesterday by Roberts as "bunk," he said: "Gentlemen, the artist who addressed you yesterday knows what bunk is—he got away with all he could—but he did not convince you gentlemen that this venerable old gentleman (pointing to Doheny) is a trafficker in the noble impulse of love of country."

As the Fall-Doheny case moved nearer the jury room the District of Columbia supreme court, in which it is being tried, it was asked today by counsel for Harry F. Sinclair to quash the indictment charging him and Fall with conspiracy in the leasing to Sinclair interests of the Teapot Dome (Wyoming) naval reserve.

They were to have been arraigned Friday, but instead arguments on today's motion will be heard then. Sinclair's counsel contended that he had been singled out for unusual prosecution, designation of special counsel to handle the case for the government infringing on his constitutional rights.

CORN MEN WOULD OUST SECRETARY

Growers Believe Agricultural Men Should Have Practical Training

DES MOINES, Iowa, Dec. 14.—(AP)—Removal of Secretary Jardine of the department of agriculture was asked today by the National Corn Growers' association, meeting here in annual convention.

A resolution adopted by the meeting read: "Believing that the department of agriculture was established to improve the condition of the man who produces food products, and to represent him as his spokesman for such legislation as the farmer considers helpful to his cause, we believe that the present secretary of agriculture should be replaced by some man whose practical training qualifies him to represent that section of the nation that produces 75 per cent of the nation's food."

The resolution also pledged the organization's support to the farm legislative committee now active in Washington, and extended sympathy to the cotton and tobacco growers, inviting them to assist in gaining suitable relief legislation.

Pomeroy & Keene, Jewelers, never fail to give you 100% on the dollar. Watches, clocks, pins, charms. Standard high grade stock in all departments. (*)

M'NARY OFFERS CHANGED BILL FOR FARM RELIEF

standards or price levels. The nearest it comes to mentioning the tariff is in the declaration that one of its aims is to "preserve advantageous domestic marketing." The much discussed equalization fee remains, but it is assessed against "each marketed unit" instead of against all producers. The fee may be collected in the discretion of the proposed federal farm board in the milling or pro-

cessing, transportation or sale of a commodity.

Five basic commodities are affected, cotton, wheat, corn, rice and swine. Cattle and butter have been eliminated and rice appears for the first time as a result, the bills' sponsors claim of demands from southern rice interests.

There is authorized an appropriation of \$250,000,000 to constitute a revolving fund from which loans may be made to cooperative stabilization funds in anticipation of the collection of equalization fees. Loans may also be made from the revolving fund directly to cooperatives for handling the surplus. Both classes of loans must be repaid with interest.

The bill carries a new feature in the authorization of loans to cooperatives handling any commodity for "controlling the surplus" without requiring an equalization fee. This is similar to loan features of the Fess and Tineer bills of the last session.

Acclimated ornamental nursery stock, evergreens, rose bushes, fruit and shade trees at Peary Bros. in season. We have our own nurseries. 178 S. Com'l.

A Fine Flour For Finest Cakes

Did You Attend The Statesman Cooking School Yesterday?

If you did, you learned some new things about making fine cakes and pastries, and perhaps one of the best things you learned was that REX Flour is the finest for the most particular good things you bake.

REX FLOUR CAKES—

—keep moist longer
—are light and tender
—are full flavored and rich.

REX Flour is the most inexpensive cake flour on the market.

REX FLOUR—"baking tested"

You'll need REX Flour for the Statesman Cooking School. Get it now so that you can try Jeanette Beyer's new recipes every day.

It is guaranteed to give uniformly good baking results for every kind of recipe, or your money back.

REX FLOUR
Baking tested for your home

Miss Jeanette Beyer,
