

## BAPTISTS TO HAVE FINEST ORGAN HERE

Nearly \$5000 Has Already  
Been Pledged to Pay the  
Costs of Organ

The First Baptist church of Salem at a special meeting called by the organ committee, with W. T. Jenks as president, had a very enthusiastic meeting last night. The proposition was brought forward and explained by the different members appointed on this special committee. The interest was so great that in less than 15 minutes the group present, which was not a large one in numbers, pledged \$2350 towards the cost of the proposed new organ and its installation.

As there is already an organ fund of \$5000, accumulated over a considerable period from various collections and enterprises devoted to the organ campaign, leading members of the church are very much encouraged. They hope to see the fund completed soon.

The plan is to install the most up to date pipe organ to be found in any church in Salem, and this is what a leading Salem musician says the First Baptist people will be able to boast, if the program they are working on shall be completed in full.

## CHAPLIN DENIES MEX RUMORS OF DIVORCE

Hermosillo, Sonora, attorney until I read it in the paper today." Wright indicated that his client was awaiting some action on the part of Mrs. Chaplin, who announced recently that she would sue the comedian for divorce.

Mrs. Chaplin likewise had not heard of any Mexican angle to the domestic rift, she said, and even if her husband did contemplate some such action it would not alter her plans in the least, she said.

Chaplin married Miss Grey, who was his leading lady in pictures, at Empalme, Sonora, more than two years ago.

## PLANNING COMMISSION AGAINST CURB PUMPS

taken action to abolish the curb pumps in the business district. The zoning commission has power to regulate all plots of land within six miles of the city limits, it was pointed out, except where

## To Produce Moving Objects by Radio

Cluster of seven lights used in television projector by means of which Dr. E. F. W. Alexanderson, consulting engineer of the General Electric company and the Radio Corporation of America, expects to reproduce moving objects by radio. When the drum covered with mirrors is revolved at great speed the entire screen is covered with brilliant lights. Dr. Alexanderson and the machine are shown in photo.

another city lies within this radius. In that case the Salem commission's jurisdiction extends half way to the limits of the other city. The only city that comes within this regulation is West Salem, in Polk county.

A petition of W. C. Moore to erect a duplex house within a Class 1 district was brought up, but it is automatically rejected because such houses are prohibited in the Class 1 district by ordinance.

A dedication of a five foot strip of land along Garnet street to the city for improvement purposes was considered. Twenty feet have already been dedicated in this street. The commission recommended to accept the dedication, with the stipulation that no action towards improvement be taken until a further strip of land is dedicated, to make the street a practicable width.

Nothing less than a 50 foot street, with a 24 foot improvement will be considered, it was decided.

Tillamook will raise \$43,623 taxes for municipal use this year.

## 3 KILLED WHEN OIL BLAST WRECKS PLANT

(Continued from page 1)  
Company officials late today set guards about the burned area and orders were to admit no one other than company workmen, with special instructions to exclude newspapermen.  
The plant contained three tanks for gasoline, with a capacity of 2000 gallons, kept under pressure. This morning when the explosion occurred, the tanks were not quite full. The first explosion came when the top of the center tank blew off and scattered the gasoline over a radius of 200 feet. The gasoline was ignited by fires of the boilers and another sharp explosion followed and a moment later

the gasoline sprayed region was in flames.  
Out of the fiery circle staggered men, tearing their burning garments from them as they fled. Some reached the outer edge of the fire with only charred shreds of their clothes left.  
As men rushed in from other parts of the field to fight the flames, a second storage tank exploded, about a half hour after the first. Again a rain of flaming gasoline drenched the area. A fight to save nearby tanks holding 75,000 gallons of gasoline was successful although the insulation was burned off the nearest tank.  
All of the men injured were in the gas and construction departments. The men came from Ventura, Los Angeles, Santa Barbara and other points, officials said.

## MOTORIST'S BODY FOUND

Auto Plunges 150 Feet Down Embankment Near Mosier  
THE DALLES, Ore., Dec. 27.—(AP)—The body of George M. Hostler, former deputy in the office of state superintendent of banks, was found beside the wreckage of his automobile today, a short distance west of the Mosier tunnel. The car had left the highway and plunged 150 feet down an embankment. It is not known when the accident occurred although it is believed to have been within the last three days. Hostler's body was discovered by some boys on a hunting trip.  
Hostler lived here four years ago. Some months ago he left Oregon for California and it is be-

lieved he was returning here to spend the holidays with relatives and friends.

## MAN DIES FROM INJURY

Automobile Turns Over Several Times After Leaving Road  
BEND, Ore., Dec. 27.—(AP)—Leon Berrichoa, 25, died here to night as a result of injuries received in an automobile accident

on The Dalles-California highway near Redmond, Christmas night. Berrichoa was injured when the car in which he and a companion, Jose Araquena, were riding left the road and turned over several times. Araquena was not hurt.

# it puts Carbon to work

Licensed by  
Ethyl Gasoline  
Corporation

Yes it does! That's one reason why Associated Ethyl is so remarkable a motor-fuel. . . . Start using Associated Ethyl and let the carbon in your car alone. Don't burn it out. Don't scrape it out. Keep it there and let more of it form! . . . Associated Ethyl neutralizes the ill effects of carbon. It prevents the heat from carbon from acting, and utilizes the increased compression. It speeds up the revolutions-per-minute of your motor, thus producing more power, more speed, greater flexibility. And it silences those troublesome "knocks" . . . Other things you'll notice are faster pick-up and less gear shifting. Associated Ethyl Gasoline will make your motor run like new—gives it renewed vigor and life.

## And note what else it does!

**IT STOPS THAT "BUCKING" IN TRAFFIC**—that jerking from sudden acceleration that puts strain on differential and universal and leads to more gear shifting.

**TAKES THAT HILL ON HIGH**—try those favorite hills. You'll take many on high where you've been shifting before. On others you'll postpone shifting.

**GREATER DRIVING SATISFACTION.** With Associated Ethyl Gasoline you'll notice greater power, faster pick-up, less gear shifting, less tendency to over heat the motor.

Associated Ethyl Gasoline gives you these remarkable results because Associated Gasoline is a superfine gasoline to start with. The addition of Ethyl compound will not make a high-grade gasoline out of a mediocre or poor motor fuel. It does develop the inherent power-qualities of good gasoline. It creates, within the motor, improved conditions of combustion, so that the gasoline is able to function to its full cap-

abilities. The higher quality of the gasoline to which Ethyl is added, the higher the quality of the resulting combination. The color of Associated Ethyl Gasoline is red. But it does not follow that all "red" gasolines are Ethyl gasolines. For your protection, fill from Associated Ethyl Gasoline pumps at Associated service stations or the best independent dealers. Try a tankfull of this super-fuel.

Associated Ethyl Gasoline is sold for 3 cents above the regular market price of gasoline.

# Associated ETHYL Gasoline

NOTICE: Dilution of Associated Ethyl Gasoline with other gasoline destroys its effectiveness. Therefore it is important to have gasoline tank as empty as possible before filling with Associated Ethyl Gasoline.
