Bullet Proof Construction o New Car Interests Rumania's Queen

The last activity of Queen Rumania before boarding the Berengaria for her return home, was to attend an informal recention in the Grand ball room of the Hotel Astor, New York, arranged by Willys-Overland, Inc., and the American Armor corporation, for the purpose of presenting to her a Willys-Knight Great Six town car of bullet-proof construction. This car which has been in the course of preparation for the past six months, was built to the exact requirements of Europe's most, beautiful queen, expressed before her American trip was con-Willys-Knight to be owned by the royal family.

Although wearied to exhaustion by the social excitement of her American trip and the rush of her last day here, the queen came directly to the Astor from her farewell dinner at the home of Vincent Astor and was enormously interested in the beautiful enclosed model which half a dozen the United States had prepared for each door. her. She was even more interested in the demonstrations fo its bullet-resisting qualities.

not harmed in any way and one of the bullets was dug out of the chauffeur's coat and presented to the queen as a souvenir.

In addition to being the first armored town car ever built, the queen's new personal Willys-Knight Great Six is also the first invisibly armored passenger car in the world. It is lined completely, including the roof, with Bevite metal which, on account of its light weight, has added only a little over 200 pounds to the in two appealing shades of green. All of the vanity cases, floor handles, lights and other fittings, are of H. T. Strong, America's leadof the queen's armored Willys-Knight.
