College students of America are not interested in historical theology, and they are not worried about a life to come, but they are deeply concerned with religion as it is concerned with the real problems of life, was the declaration of James Rettle, reporting to the Willamette university students who sent him to the national student conference at Milwaukee.

Rettle spoke at the university chapel exercises Tuesday forenoon. Students generally are dissatisfied with the present economic, social and religious life as they find it, Rettle said. They are beginning to realize, however, a true conception of world brotherhood, and that is the reason for their stand against war, taken at the Milwaukee conference.

COLD STRIKES FLORIDA
Public Schools Close as Temperature Falls to 37 Degrees.

JACKSONVILLE, Fla., Jan. 11. (AP.)—In the wake of the lowest temperatures in several years, southern Florida today witnessed the temporary closing of several schools and saw overcoats become the vogue for the first time this season.

Lack of heating facilities in a region where the sunshine rarely proves insufficient for warmth caused the suspension of public

schools in Miami, Fort Lauderdale and Broward county.

Five public schools closed at noon in Miami and several hundred children enjoyed a holiday. Miami's 37 degree temperature at 7 o'clock this morning was the coldest since 1920. Fort Lauderdale thermometers registered 34, while other places in southern Florida reported low temperatures. It was colder in northern Florida.

DENIES ANY REBUILDING
No Action Taken by Association, According to L. S. Geer

No decision as to what may be done about rebuilding the fraternal temple on Liberty street has been reached by the Fraternal Temple association, it was stated Tuesday evening by L. S. Geer, president of the association, denying a newspaper story published here yesterday afternoon.

Geer mentioned that he personally favored rebuilding in case the property is not sold by the time the wreckage is cleared away, but that statement did not represent the decision of the association, he declared.

A three-story fireproof structure was mentioned as a possibility by Geer, although no definite plans have been made.
