office building would be borrowed from the state industrial accident commission at a low rate of interest.

Bills authorizing increases in salaries for county assessors and a number of other officials also will be introduced in the legislature before the close of another week.

Another salary bill would increase the compensation of the state treasurer and secretary of state from \$4500 to \$5400 a year.

At the first meeting of the assessment and taxation committees to be held early next week bills recommended for passage by the Oregon state tax investigating committee probably will be considered.

The ways and means committee which held its first meeting Wednesday will meet again Monday night. At the request of Governor

Patterson every effort will be made to expedite the business of this committee in order that the appropriation bills may be reported out during the third week of the session.

Chas. K. Spaulding Logging Co., lumber and building materials. The best costs no more than inferior grades.

AUTO LAW DUE FOR SOME REVISION THIS SESSION

vehicle. The assumption of the law would be, should such a person come to trial, and Mr. Lewis' bill be passed, that they intended to commit the thing resulting from their improper driving.

Although nothing definite has yet been worked out legislators today were discussing the advisability of preparing a bill providing for compulsory indemnity insurance for motor vehicle owners.

Senator Miller would further tinker with the auto speed law by not making it necessary to reduce to 20 miles an hour on parts of highways within the limits of incorporated towns where houses are 200 feet apart or more.

Senator Hall, chairman of the

Roads and Highways committee, has introduced a bill prohibiting the use of cut-outs on the highways. The bill was sent to his committee and returned with a recommendation that it pass.

Portland has 53 steamship lines serving the port. Had only six lines in 1920.

STOP SOUR, ACID STOMACH-NOW

Step Into any Drug Store. Get a Box of Pape's Diapepsin. End Acid Dyspepsia Instantly

ONE SALEM CANNERY BIDS UP FOR BEANS

West Stayton Growers Offered \$75 Ton; and 150 Acres Wanted

The excellent quality of the beans, produced on the West Stayton irrigated land, has been the past several years has been the local canneries to look to that section for as possible for the 1927 crop.

The West Stayton garden lands this year will be largely devoted to the production of beans, tomatoes, strawberries, celery, cucumbers, and early potatoes, while on

the larger irrigated tracts flax and peppermint will doubtless predominate. The area under irrigation will be considerably extended, and there will be a substantial increase in the high priced crops which have been so successfully grown in that section.

While the production per acre on the irrigated tracts in the West Stayton section holds the highest yields per acre for the state of Oregon. The fact that one Salem cannery is offering to contract 150 acres of this crop in that section gives some idea of the future prosperity that awaits the development of this irrigated section of Marion county.

During the past few months new settlers in the West Stayton irrigated district have taken over by purchase and otherwise more than 150 acres on which there are water rights for intensive cultivation of the tracts. There are prospects that a much larger additional acreage will go into new hands in the coming spring and summer and fall seasons.

This movement is bound in time to be of vast benefit to Salem and the cities in the Santiam district.

The idea is far more vast than is generally imagined. The irrigation rights of that district are sufficiently inclusive to allow of 100,000 acres of land to be put

under irrigation, running from Mehama to Salem, and spreading out onto Salem prairie on the north and Marion and Jefferson on the south.

What a picture of future prosperity may be envisioned in this contemplation!

Her Worst Worry Ended for a Dime!

A Body Sweetness that Even Perspiration Can't Spoil

All the trix-laxives in the world can't tempt people who understand the properties of Cascarets.

A hundred different drugs will purge the bowels, but a little natural cascara purifies the system clear through. Cleanses even the pores of your skin. Renders perspiration as inoffensive as so much dew!

Your grandparents took "salts," and slowly washed away the mucous membrane with the waste! Mineral oils are better, but they leave the coating that your blood must then carry off through the pores. But when you cascarize the system, you get rid of all the poisons by normal muscular action of the bowels.

Don't get in the habit of taking medicine for constipation—or even for auto-intoxication. If you have the habit, stop it. A candy cascarin is a delightful form in which to take cascara; children love them and the taste tempts most grown-ups to take "more." And what a comfort to know you are in that clean, wholesome condition that does away with any need of deodorants, even in warmest weather! Try a cascarin tonight! All druggists, 10c and 25c.

"WHAT A JOY it was to find such an aid to utter cleanliness! My system is so purified, perspiration doesn't stain my garments and I just forget self now, after I've taken one or two—"

CASCARETS

drants, even in warmest weather! Try a cascarin tonight! All druggists, 10c and 25c.

Tomorrow Starts Another Week Of Our Big Slash in Price SHOE SALE

No Reserves--All Shoes on Sale--We Must Clear Our Shelves--Don't Wait, Come in Today

SURPRISE PARTY DUE IN NEW YORK

St. Nicholas to Stage Exhibition of Toys at Annual Fair During February

NEW YORK (Special)—After breaking all records by delivering last month a \$200,000,000 pack of toys—the biggest in history—to the youngsters of the United States, Santa Claus is now preparing for next Christmas, eleven months away.

Great secrecy is maintained by toy makers regarding the new models that will be introduced at the coming event. This is because they fear competitors may bring out copies. "Thus the fair is Santa Claus' annual surprise party, when he opens his sample bag for the coming year," said H. D. Clark, secretary of the Toy Fair Chamber of Commerce, a cooperative, non-profit organization under whose auspices the event is held.

These new designs are then spread before the visiting store buyers while their inventors breathlessly wait for the stamp of approval to be placed upon them. If they evoke orders they are successes. If thumbs are turned down on a new toy pattern, the designer returns home, to come back hoping for better luck next year.

"The New York Toy Fair is now the largest of its kind in the world, both in variety of merchandise and volume of business transacted," continued Mr. Clark. "It is one of the few real trade fairs held in the New World. Playthings from all parts of the world find their way to the New York market, which is supreme in buying power. The best toys from every land are to be seen in the displays.

In addition to several hundred buildings housing permanent displays, about 300 specific exhibits will be made in several hotels. Close to 25,000 different toys will be on display, which is enough variety to satisfy the desires of the children of the United States. Approximately half of the playthings that will be exhibited in stores in this country next Christmas will be purchased by store buyers attending the fair.

With the growing importance of the American toy industry naturally domestic playthings will predominate in the exhibits, yet there will be a liberal sprinkling of imported toys. More than 1,500 domestic and foreign toy makers will be represented by exhibits at the fair.

Have your prescriptions filled at the first drug store west of the New Bank building. Reliable and trustworthy, nothing but the purest drugs. Crown Drug, 332 State.

Mr. Used Car Buyer: Have you seen the real buys at the Capitol Motors incorporated? See Biddy Bishop, 359 N. High St. Telephone 2125 and 2126.

OVER 100 BILLS READY FOR LAW MAKING MILLS

In event this bill is approved all applications for paroles would be considered by the state board of control. A companion bill would abolish the office of state parole officer, which now carries a salary of \$150 a month. The duties of the state parole officer would be taken over by the warden of the prison.

Senator Davis has prepared 10 new bills which he will have in readiness for consideration some time Tuesday. One of these bills would appropriate \$8000, to defray the cost of an experimental artesian well in Halney county. The well would be sunk under the direction of experts from the Oregon agricultural college, in cooperation with officials of the Eastern Oregon experimental station. Other bills drafted by Senator Davis provide for amendments to the existing statutes.

Senator Upton's bill providing that sheriffs shall issue motor vehicle licenses was completed today. It was said that this bill has received the support of a large number of legislators who are not in sympathy with the present plan of distributing motor vehicle plates under the direction of the secretary of state. Under the provisions of Senator Upton's bill these license plates would be available on November 1 of each year.

Another bill now being completed would appropriate approximately \$600,000 for the construction of a new state office building in Salem. It was argued that this structure was necessary at the present time in that a large number of state departments and commissions are now housed in buildings not owned by the state. Rentals now exacted from the state would more than pay interest on the investment, officials said. Funds with which to erect the new
