Patterson Declines to Release Findings Until He Studies Them

The report of a committee appointed by Governor Patterson to onduct a survey of the state penitentiary with a view of deermining the financial status of the state industries there, was completed Friday and filed with Governor Patterson. The governor indicated that the report would not be released to the legislature until he has had time to give it his consideration.

The investigation was ordered by Governor Patterson because of claims made by ex-Governor Pierce that the state flax industry and other prison activities had been placed on a self-supporting basis. Friends of Governor Paiterson alleged that ex-Governor Pierce had made extravagant state market agent's department. claims, and that the assets of the state industries did not aggregate the amount set out in a statement issued by the previous administra-

prepared a lengthy statement showing the value of the machinery and the amount of money that has been expended in developing the industries. The stocks were valued on the hasis of market quotations.

APPROPRIATION BILLS PLANNED IN JOINT MEET (Continued from page 1)

tion of the new state normal school plant at La Grande, and \$169,000 for the new Eastern Oregon tuberculosis hospital at The Dalles. Both of these institutions were reated by a measure approved by the voters at the last general election. In addition to the appropriation sought from the legislature, the bill creating the tuberculosis hospital carried an allowance of \$100,000 for the purchase of a site and other expenses.

Capital outlays at the Oregon the amount of \$80,000 already have been authorized by the ways and means committee. This appropriation will be expended in the erection of two cottages, which of necessity, would increase the maintenance cost of the institution. The state home for the feeble

minded also has requested appropriations aggregating \$98,500 for new buildings and fixtures. Other capital outlay requests have been received from the state industrial school for girls, Southern Oregon normal school, state tuberculosis hospital and state school for the deaf. The aggregate cost of new buildings sought at the various state institutions was estimated roughly at \$1,300,000, but may reach a higher figure.

During the past week the ways and means committee has added

appropriations in the aggregate of \$60,000, which were previously rejected. One of these appropriations was in the amount of \$40,-600, and will go into what is now known as the predatory animal hunters' fund. This appropria-tion was restored after the East-ern Oreson delegation had been flooded with telegrams and letters from livestock interests in various sections of the state. The committee also restored an appropri-ation of \$7500 for the installation of a water tank at the state in-

dustrial school for girls.

The Oregon Humane society which two years ago was awarded

Substantial savings probably will

be made by the committee through the passage of bills making the public service commission and the state board of health virtually self-supporting. The public service commission had requested an appropriation of \$118,000 for the biennium, but this was reduced by the committee to \$20,000; Expenses of this department in excess of the amount appropriated will be paid through the operation of two laws providing for the collection of fees and a small tax levied on public utilities. The the Warner Lake district in Lake Mr. Turner refused to make this law providing for the collection of fees by the commission will return approximately \$30,000, while lauds was estimated by state ofthe tax on the public utilities was

estimated at \$70,000. The state board of health refor the biennium, but this appropriation has been held up pending completion of the revenue bills. tended will defray the costs of this department will authorize the collection of fees for certain activities. The other bill will levy a small tax on all life insurance corporations operating in the state. It was said that the insurance companies would not object to this tax in event the money was used for health work.

The most drastic reduction made by the ways and means committee was in the requested appropriation for the state library. It had been estimated that it would cost \$121,000 to operate this department during the current biennium, but this amount was reduced to \$75,000. Whether the ppropriation for the library will he reconsidered has not yet been
