

**MORE AND BETTER LIGHTS FOR AUTOS**

**Committee Acts Favorably on Bill; Seek to Conform to Hoover Code**

House bill number 129 known as the light law will be reported out favorably this morning by the committee on automobiles and roads. A few amendments will be recommended.

Mr. Tom, who introduced the bill, pointed out that the law amended makes many changes in the present law, and will correct the two bad features in it by giving the drivers more and better lights and a law that can be enforced.

It also permits the use of 32 candle power lights instead of 13 candle power.

Some technical amendments were made on the suggestions of C. H. Lundell of Portland, so that automobile owners would not be put to the expense of buying new lens in order to use the 32 candle power bulbs.

Amendments were made to conform as nearly as possible to the Hoover code, which it is said will probably be universally adopted by all states, and which manufacturers are following in the construction of new cars.

Further changes limit the number of spot lights to two, which shall be movable, which can be placed anywhere on the car, or at any height, except on the radiator.

The provision authorizing the two auxiliary driving lights was stricken from the bill by the committee.

The light to be used on the rear of the car when it is in reverse motion was rated from 13 to 32 candlepower.

Nash leads the world in motor car sales. Beautiful display of new models at the F. W. Pettyjohn Company, 355 North Commercial St.

**HORNBY IN TROUBLE**

**MUST SELL CARDINAL STOCK TO STAY WITH GIANTS**

**NEW YORK, Feb. 1.**—(AP)—Rogers Hornsby must dispose of his stock in the St. Louis Cardinals if he expects to play major league baseball next summer, President A. Stoenman of the New York Giants asserted today.

Taking cognizance of the star second baseman's election to the board of directors of the St. Louis club, Mr. Stoenman said that under no circumstances will the Giants return Hornsby to the Cardinals.

"The deal for Hornsby has been completed and approved by the league," he continued. "If he fails to dispose of his stock, he is simply out of a job and the salary that goes with it."

"We made this trade in good faith, delivering Frank Frisch and Jimmy Ring to the Cardinals without any strings attached to them. It is up to St. Louis to do the same in regard to Hornsby. There is no chance of Hornsby reverting back to the Cardinals on account of this stock tangle. That is a problem for Hornsby to settle with his own club. But if Hornsby plays ball at all next year, it will be with the New York Giants."

**Social Affairs Multiply as Spring Promise Seen**

**SILVERTON, Or., Feb. 1.**—(Special)—With the first promise of spring social activities here are taking on new life after the past holiday quiet. Besides the regular meeting of the Woman's club, which was held at the city library this afternoon, and the Parent-Teachers' association meeting to be held Thursday afternoon, a number of private affairs have been given and are being planned.

Among the prettiest of the first spring affairs was the bridge tea honoring Mrs. John Elder, popular young matron, who will join her husband at West Fir before long. The Elders formerly made their home here, when Mr. Elder was with the Silver Falls Timber company. He was transferred to the company's mill at West Fir.

The party for Mrs. Elder was held at the home of Mrs. George Tows, with Mrs. Tows and Mrs. Floyd Ingrall as hostesses. The rooms were beautifully decorated, the Saint Valentine motif being carried out. Fussy waiters and red hearts predominated. Mrs. Earl Adams presided serving. Mrs. Anna K. Jensen was the inspiration of a small party at her home west of Silvertown Monday afternoon, the occasion being her birthday. Among those who called were Mrs. F. Jacobson, Mrs. Hans Jensen, Mrs. C. E. Benson, Mrs. O. B. Haug and Mrs. Christine Hansen.

Miss Alma Furue was also hostess at a party Tuesday afternoon at the home of her sister, Mrs. Casper Tows. Guests were Mrs. K. Furue, Mrs. Victor Madson, Mrs. Martin Hattberg, Mrs. Oscar Taylor, Mrs. Hans Jonsson, Mrs. Edwin Tingstad, and Miss Marie Tingstad.

Mrs. John Elder, who has been the inspiration for many parties, was guest of honor at a bridge party given by Mrs. H. R. Irish at her home on West Main street Saturday afternoon.

The Opera House Drug Store, service, quality, low prices, friendly staff give increasing patronage. Old customers advise friends to trade here. High and Court. (\*)

**LOGGER KILLED BY TREE**

**EUGENE, Feb. 1.**—(AP)—J. Elmer Elliott, 43, was killed in a logging camp at Vaughan, 25 miles west of Eugene, today when the top of a dead tree struck him on the head as it fell. He is survived by a widow and seven children.

**Statesman Ads Bring Results**

**Umbrella vs. Automobile**  
Which is cheaper—an automobile or an umbrella?  
It looks easy, but there is one Salemite who says an automobile is cheaper, and quotes figures to prove it.  
"An umbrella costs \$7 or \$8 at the least these days," this individual points out. "On the other hand, owning and operating an automobile cost not more than 10 cents a mile."  
"At that rate, an umbrella would have to take me 70 or 80 miles, and I doubt if very many people get that much service out of an umbrella—especially when it rains and blows at the same time, as it's doing here now. I maintain that a car is cheaper."

**CHEMAWA DEFEATS BLACK CATS 30-26**

**Fast Game Tied Several Times by Wonderful Work of All Players**

**CHEMAWA, Feb. 1.**—(Special)—In the fastest and most exciting game yet played on the local floor, the Chemawa Indian school basketball team defeated the Salem Black Cats here tonight, 30 to 26.

At the end of the first half, Coach Downey's Indian school quintet led 13 to 10, but as the second period progressed, the ex-collegians from Salem came back strong and with the time nearly up, tied the score 24 all. A minute later they forged two points ahead.

Then, while the Indian school rosters, with the aid of the school band, raised the roof in united vocal support for their team, the Braves responded and tied it up once more. In the frenzied moments that followed, the Indians scored twice more.

The expansion here was jammed to the doors with the biggest crowd of the season, including many people who had come out from Salem to support the visiting team. It was a clean game as well as a fast one.

**SALARY QUESTION MAY GO BEFORE PEOPLE**

*(Continued from page 1.)*

At a time when most men of the ring are ready to hang up their gloves and retire, Mike McTigue, finding himself the sudden possessor of a knockout punch, has sailed forth with the enthusiasm of youth and an ambition to win the heavyweight championship of the world.

A fairly story, it sounds a bit so you hear Mike, in his gentle brogue, express the firm conviction that he will knock out rugged Jack Sharkey if they meet on February 25, then out a path through the rest of the heavyweights with the same right hand punch that felled Paul Berlenbach the other night.

But if confidence and the wallop mean anything, Mike appears well equipped for this startling feat, despite the fact he only tips about 170 in his best fighting trim and admits he is 38.

"They have said I'm everywhere from 35 to 45," Mike smiled, "but I hope I may never see the light of another day if I was more than 33 on my birthday last November."

**FACTORY INSPECTION CHANGES HIT HARD**

**Revision of Laws Committee Recommends Compensation for Clerk**

The house bill, which would provide for a number of amendments to the laws concerning factory inspections, met with little favor at the hands of the senate committee on the revision of laws last night. C. H. Gram, state labor commissioner appeared before the committee in support of the proposed amendments.

Under the present law any person, firm or corporation must pay up for operating a factory, mill or workshop where machinery is used, as required to furnish reasonable safeguards against danger to employees, such as devices for throwing on or off belts and pulleys while running, safeguards for saws, mangles, rollers, gearing, including all machinery which it is practicable to guard. These employers shall request the labor commissioner to make an inspection and furnish a certificate of inspection. Persons of companies inspected must pay upon the present law, fees in the sum of \$2 who employ up to two persons, \$5 if from three to seven, \$10 from eight to twenty, \$15 from twenty-one to forty, and \$20 if more than forty persons are employed. The fees are paid to the state treasurer.

Those operating plants which do not exceed two horse power are exempted. The proposed amendment which Mr. Gram wishes to make would include these, also. He also desires to have the fees paid directly to him instead of the state treasurer.

Penalties are imposed in the event the fees are not paid within 30 days in a sum equal to the amount of the fees. The amended bill of Mr. Gram would give the attorney general authority to start action or proceedings for the collection of these penalties, and would require that they be paid to the state treasurer for the general fund, to constitute a continuing appropriation for the payment of all expenses incurred by the attorney general in making these collections. In the event more than \$1000 are in the fund at the end of the year, it should lapse into the general fund and no longer be a part of the appropriation.

Mr. Gram would amend the law further to include persons, firms, corporations or associations operating factories, mills or workshops in any place where machinery is used to have the inspection and pay the fees prescribed, therefore.

The law now limits the labor commissioner to two clerks or stenographers, and his amendment would lift this.

It would include every piece of machinery in existence which was operated by anyone, "including monkey wrenches," someone suggested.

One senator said, "Why, Mr. Gram, I have a hand corn crusher in my youth and under this law you could inspect that..."

However, the real intent was to include rock crushers and portable wood saws, and machinery which ought to be included as well as that which now is. Mr. Gram stated he did not think it fair for some to pay the fee while others escaped.

But due to the fact that the bill could not be justly enforced, the committee will make a report on the bill this morning which will carry with it indefinite postponement.

The committee also discussed the amendment to section 3054 of the 1925 laws to compensate the clerk of the supreme court for supervising the printing and distribution of opinions rendered in the supreme court. He shall charge \$4.50 each subscriber per year and shall receive for his compensation in addition to his salary \$1.50 out of the money collected for each subscription. His salary at the present time is \$3,000 per annum, and most of the members felt that they were justified in recommending that this man have this compensation, due to the fact that he is mostly responsible for about \$1,300 yearly being collected for the state.

**FAVERILL ADDRESSES SALEM SPORTSMEN**

**State Game Warden Explains Various Measures Up for Legislation**

Legislation on the fish and game laws was the principal object of discussion at the regular meeting of the Salem Rod and Gun club held in the Chamber of Commerce auditorium last night.

Edgar F. Averill, state game warden, was the principal speaker of the evening. Mr. Averill explained the various measures which are up before the legislature this session. He defended the game code, saying that it was very hard to get satisfactory legislation through in so short a session. He advocated that the fish and game commission be given more power to act in cases of emergency, claiming that they had the best knowledge of affairs of any group of men in the state.

One of the most important changes is that affecting the use of the spotlight. The new code would make any man subject to arrest if found with a spotlight, strong flashlight and a loaded gun at night. The bow and arrow would be legalized and protection would be given to the Hungarian partridge.

It was moved and seconded that some measure be taken to prevent "no fishing" signs from being posted along navigable streams by private individuals, without the permission of the state commission. Considerable argument followed, but the motion was carried.

The question of furthering the Monday sportsman's holiday was shelved until a later meeting when it could be discussed more fully.

**The Sellers Kitchen Cabinet**

ONE OF THE GREATEST LABOR AND TIME-SAVERS TO THE HOUSE-WIFE IN THE WORLD

**Your Biggest Task is Cooking**

But it is different today in the modern home. Electric cookery has made it easier for the housewife. She does not have to stand over a hot stove all day—she is free from worry, care and constant attention. It is no longer a task but a pleasure to cook; so quickly, so easily, and so well can it be done. Think what it will mean to cook in a cool kitchen with no soot, smoke or dirt; free from uncertain heat which cannot be regulated; with your heat immediately and constantly obedient to you.

**Oven Heat Control**

Automatic Heat Control keeps the oven at an unvaried and even heat, making it always possible to maintain the exact heat desired in the oven, so previous cooking results can be easily duplicated.
