Folks!

You Will See—

The late spring styles in women's street, sport and evening frocks displayed with living models. This feature by The Smart Shop and Morgan & Co.

Then, too, there will be the latest in foot-wear. Mr. Price of the Price Shoe Co. will have duplicates of his spring stock here.

And the men—we haven't forgotten them. Rhodes have arranged to show the latest in men's wear. Now, ladies, this will be your chance to see the men are correctly attired.

Transportation—ah, yes—that's half the battle these days. Sporty roadsters for shopping and "run around." Sport tourings for afternoon companions and closed cars for evening use. They'll all be here, actually running on the stage.
