DOUBLE ACTING-STRENGTH-VALUE

Calumet is the modern baking powder—made in the world's most modern and sanitary baking powder factories—because it is double acting—because it possesses double the ordinary leavening strength—it does away with all the old time baking worry.

It also enables you to produce better bakings and more healthful bakings. You get best results in a moderate oven, but you may bake in either a hot or slow oven with safety.

Always use Calumet and you'll always be able to supply your family with the best of good things to eat.

Calumet's Double Action gives you a baking powder containing two leavening units—one begins to work when the dough is mixed, the other waits for the heat of the oven, then both units work together—your guarantee against failure—against waste. Use slip found in can to secure a beautiful Cook Book.
